## SAVE MONEY By keeping the Scale out of Your Boiler

### U.S.G. CO.'S MEXICAN BOILER GRAPHITE

"THE GUARANTEED SCALE REMEDY"

is positively guaranteed to soften old hard scale of long standing, so that it may be easily removed, and to prevent further hard formation. It does this by MECHANICAL—not chemical—action, working equally well in ANY water and under all conditions, making it ideally suited for traction boilers which draw water from different sources every few days. It is far superior to chemicals or chemically-acting compounds, because the former attack and weaken the metal while Mexican Graphite acts on scale only and cannot injure the boiler in any way, shape or form.

The cost is so slight—ONLY A FEW CENTS A DAY—and the saving in fuel and repairs so great in comparison, that no traction operator can well afford to be without it.

## USE THE ONLY GENUINE U.S.G. CO.'S MEXICAN BOILER GRAPHITE

Manufactured by The United States Graphite Co., Saginaw, Mich. MONEY REFUNDED IF IT DOES NOT PROVE ENTIRELY SATISFACTORY, and refund will be made without question, upon request.

The U.S.G. Co.'s MEXICAN BOILER GRAPHITE is put up in 50 pound kegs especially for the traction engine, which is sufficient for an average season's run.

Write for booklet on "The Care of Traction Engines," to the MAYTAG CO., LIMITED, WINNIPEG, CANADA, who have a large stock on hand at all times and are prepared to fill orders promptly.
