

Wonderful New Coal Oil Light

Beats Gasoline
or Electricity

Whole Room is
Light as Day

Twice the Light—on Half the Oil

Burning common coal oil, the Aladdin produces a light that beats gas, electricity and acetylene—that makes old-style, round-wick lamps seem feeble as candles in comparison. In giving this better light, the Aladdin uses less than half as much oil.

Burns 94% Air — 70 Hours on a Gallon of Oil No odor, noise or smoke. Gives a white, mellow, restful, steady light. Comes nearest to sun-light of all man-made lights. Leading Universities have tested and endorse the Aladdin. It was awarded the Gold Medal at the Panama Exposition against the world's best. Three million people are already enjoying it.

Just fill out the coupon and we'll send you full particulars about our 10 day free trial offer. You can then see for yourself that our claims for the Aladdin are based on conservative facts. You can see how the Aladdin makes your old style lamp look like candles. You can find out how noiseless, smokeless and odorless it is—how it really does beat gas, electricity and acetylene for brilliancy, and how it saves one-half or more in oil and actually pays for itself. Just send the coupon. We'll do the rest.

HERE'S YOUR CHANCE To Make a Lot of Money

Every home needs good light. The Aladdin—with its wonderful gift to country homes of the brightest and mellowest of all lights—produced from ordinary coal oil at a big oil saving—needs only to be shown. When it's seen, it is taken for trial with open arms; when it's tried, its users never go back to the old feeble lights.

These Men Without Former Experience Make Big Money—So Can You

J. R. Stewart, who has sold over 200 Aladdins, writes "there are unlimited possibilities in store for the Aladdin Distributor."

W. T. Grive, Ontario, with no previous experience says he sold 7 lamps in a little over two hours.

Charley Stanley, a paper hanger, puts in his evenings selling Aladdins and nets \$5.00 to \$15 for each evening's work.

W. H. Hillson sold six between 2 and 8 p. m. in 45 minutes for four hours' work.

Mrs. M. R. Dutton has the Aladdin in her home, has made a lot of money in its distribution and proudly writes: "I have lighted up

the homes in the community for miles around with Aladdin Lamps."

There is no limit to the field. Many distributors have replaced electric lights with Aladdins.

F. A. Goodwill, of B. C., for instance, says he has placed nearly 300 in a country where electricity is king.

Charlie Conroy, a farmer, made \$2,000.00 in two winters in spare time, distributing Aladdins.

M. T. Zinke, Manitoba, places lamps out on trial and writes: "called at 20 homes, and sold 15—the lamp will speak for itself."
