

HAPPENINGS IN THE WORLD OF SPORT

Boston Automobilists Had a "Beefsteak Dinner" Without Either Knives, Forks or Spoons

BARROW THREATENS TROUBLE

Ottawas, Wanderers and Quebec Victors in the National Hockey Association—Tommy Smith Now the Leading Goal-getter.

Ottawas and Wanderers are still leaders in the National Hockey Association race. Wanderers are now a game behind the Senators, but they have an extra contest coming with Shamrocks.

The boasted culture of Boston is very much to the Kultur, to judge from an item sent to the New York Sun by the Bay State Automobile Club. It recites that the club members had their annual dinner without knives, forks or spoons. In other words, these Bostonians ate with their fingers all of one evening. (It was a beefsteak dinner).

The game which Shamrocks defaulted to the Wanderers, by agreement, is to be decided by actual play on March 6th.

George T. Stallings is ill at his home in Haddock, Ga. James E. Gaffney, as his sponsor, tried unsuccessfully to straighten out the Sherwood Magee trade, but failed to reach any definite agreement with Pat Moran, manager of the Phillies.

By winning from the Torontos in the Ancient Capital, Quebec placed themselves on a parity with the champions. Both have now won seven games and lost seven.

Ed. Barrow declares that the failure to transfer Jersey City to the Bronx will not affect the operation of his circuit this season. Jersey City will go through, even if faced by certain loss.

Handicapped by the absence of Laviolette, the Canadiens went down to defeat before the Wanderers by a score of 6 to 3. At the outset of the third period the Flying Frenchmen were only a goal behind. But Wanderers wound up strong.

Joe Shugrue is keeping as close a line on Freddie Welsh as possible. Now Joe is going out to Akron on the 22nd to see what he can do against Johnny Griffiths. Welsh failed, according to the Akron papers. Now let's see what the Skeeter can do by way of comparison.

Ottawas, after securing a commanding lead in the game with Shamrocks, took out most of their regulars in order that these might rest up. The score at the end of the second period was 5 to 0 in favor of the Senators. Shamrocks got 2 to the Ottawas 1 in the final spasm.

Outfielder Billy Holden, who was with Chance to 1913 and part of last season, and who attempted to establish a claim to freedom, is in New York. Holden has signed with the Montreal Internationals.

Tommy Smith is now the premier goal-getter in the N. H. A., with 26 tallies to his credit. Roberts is next with 25 and Pitre third with 23.

Mort. Lindsay, an American trundler, will roll a series of games for a purse with Edmond Pelletier, on the Canadian alleys to-night, the best four of seven games to count.

The Toronto Globe is deploring the poverty of available hockey material in the professional hockey ranks. "There has been practically no new elements," it says, "added to the Pro. League this season, and there is no prospect of any at this stage."

The National Baseball League has decided that, in aid of Barrow, of the Internationals, what stand it proposes to take regarding the application by the latter for the location of a team in the Bronx. Barrow hints that there may be trouble if his application is turned down.

And it does commence to look, too, as though some of the old hockey stars, who have lingered superfluous in the lap of Time, were due for the scrapheap with none to take their places.

The National Baseball League has decided that, in future, when a club asks for waivers on a player, there cannot be a withdrawal, nor can a club withdraw a claim for a player under waiver.

McGill has several representatives at the four days' inter-collegiate winter sports meeting at Dartmouth College, Hanover, N.H.

Frankie Fleming and Johnny Schiff, for their ten-round bout at the Canadian Club to-morrow evening, will weigh in at 128 pounds ring-side. Both have trained carefully, and an interesting fight is expected.

Charles M. Schwab, gave a plot of 8 acres of ground in Bethlehem, Pa., to be turned into an athletic field and gymnasium.

Patsy Drouillard, the Canadian lightweight champion, defeated Phil Brock, of Cleveland, in an eight-round bout at Windsor, Ont. Drouillard shaded his opponent in all of the eight rounds, and forced the fighting at all times.

Thirteen events—six on snowshoe and seven on skates—are to be decided at the M. A. A. Westmount grounds on Saturday afternoon. The events are all open, and handicaps will be allotted to the various competitors.

UNDERWOOD TYPEWRITER, COMMON.

New York, February 11.—Underwood Typewriter common sold for the first time since the Exchange reopened on December 12th. The transaction was 100 shares at 55 1/2, a loss of 18 1/2 points, and within 3/8 of the minimum price.

YOUNG MAN WANTED

Young man wanted to assist in editorial room of city daily—financial man preferred. Should be able to write shorthand. Reply in own handwriting to box 184 Journal of Commerce, Montreal.

News continues to reach Cairo emphasizing the fearful character of the execution done by the British troops in the two days' battle on the Suez Canal. When all is known, it will probably be found that not far short of ten thousand Turks were killed.

ONTARIO PROVINCIAL BONDS WILL MEET TEMPORARY LOAN.

Toronto, Ont., February 11.—The Provincial Treasurer, Hon. T. W. McGarry, on behalf of the Province, has confirmed the sale of \$3,000,000 of Province of Ontario bonds, at the price of 100.35, less a brokerage charge of 3/8 of 1 per cent., through Messrs. Home Smith & Co., of this city, acting in conjunction with large New York financial interests. The bonds are for five years, with coupons attached for payment of interest at the rate of 5 per cent. per annum. Unlike previous loans floated in Canada, the bonds of the present loan are not free from succession duty, Provincial taxes nor municipal taxation. It is the intention of the Treasurer to use the proceeds of this loan to pay off two temporary loans amounting to about \$3,000,000, one of which is in Canada, to the amount of \$1,500,000, and the other of \$2,000,000 in London, England.

DACIA SAILS.

MR. W. G. ROSS, Re-elected Vice-President of the Prudential Trust Co., at the annual meeting held here yesterday.

THEATRICAL NEWS

"MY FRIEND FROM INDIA"—HIS MAJESTY'S.

Next week will see still another production of excellence at His Majesty's Theatre. It will be comedy—clean and pure and everything else that the name implies. This is H. A. Souche's farce creation, "My Friend from India." It is unnecessary to relate the story of the play, known to all as it is. But it is the side-splitting situations and the humorous qualities of the witty repartee that makes "My Friend from India" so thoroughly enjoyable, rather than the story. Suffice it to say it concerns a gay old boy named Ernest Underholt, a wealthy Kansas City pork packer, who in one of his nocturnal outbreaks brings his barber home with him and then has a warm time trying to get him away from the premises without incriminating anybody. The barber, whose name is very appropriately, A. Keene Shaver, is introduced as a celebrated theosophist from India, and as such is compelled to robe himself in flowing garments which would make him the object of the attention of any mob if he were to appear in them on the streets. Members of the Underholt family begin to look upon Shaver as a genuine in theosophy and he soon becomes a social lion and idol of the family. This is not at all in accordance with the barber's ideas, as his one desire is to obtain a pair of trousers and make his escape. Complications come fast and thick. Finally, Shaver dons female garments—an exact replica of the dress worn by one of the female members of the Underholt household, and the mistakes that happen further and the laughable situations and ludicrous incidents all combine to place "My Friend from India" in the funniest class of all funny comedies. As all good and proper comedies should end, the troubles of Shaver, Underholt and all the others are nicely and properly adjusted, but not until the audience has laughed itself to the verge of sleep. The company should, judging from the previous presentations of "Charley's Aunt," give a good account of "My Friend from India."

"Mlle. Modiste"—PRINCESS.

"Mlle Modiste," made famous by the well-known star, Fritzi Scheff, will be next week's treat for lovers of good music, spectacular productions, and clever comedy at the Princess Theatre. Of the song numbers those which made immediate hits and have been lasting successes are: "Kiss Me Again," "The Time, The Place, And The Girl," and "I Want What I Want When I Want It." The plot is luminously transparent, which is surely the best sort of an intrigue for such a purpose when the music and the dialogue are sufficiently entertaining to sustain the interest. "Mlle Modiste," alias "Fifi," played by Miss Maynard is the bright star as well as the most valuable of the girls in the Parisian Hat Shop of Mme Cecile, she could sell more hats for more money than any of the other girls of the shop. Young Capt. Etienne de Bouvray loves her, and proposes to marry her, but his uncle, Comte Henri, a grumpy old grouch, disdaining Fifi because of her menial position, threatens him with disinheritance and social ostracism. But why say more? The qualities of the play are well known and the musical values will be fully appreciated. To Miss Maynard will fall the delightful role of "Fifi," which will afford our young prima donna exceptional opportunities to display her histrionic abilities. Mr. Grinnell will once again delight with his droll comedy in his rendering of Hiram Bent. Mr. Fulton will sing the role of Capt. Etienne, and the other members of the Princess Musical Comedy Company will have ample opportunities to delight in their singing and playing of the many splendid characters of the play.

THE NEXT SUNDAY MUSICAL.

Miss Myrna Sharlow, prima donna soprano, long identified with the Opera Company at Covent Garden, London, England; Mr. Max Selinsky, Russian violinist; and Mr. Norman Notley, baritone, who is well known in local musical circles, will be the artist, at the fifth Donalds musical which will be given at His Majesty's Theatre next Sunday afternoon at 3.30. The accompanist will be Mr. F. H. Blair, whose sympathetic assistance has helped previous concerts much. The Society for the Prevention of Cruelty to Animals will benefit.

PLAINTIFF CLAIMS ARMOURS HAVE PRACTICALLY ELIMINATED HIM.

Independence, Kas., February 11.—G. F. Culmer, originator of certain patents for manufacture of petroleum products, has filed in the district court here application for the appointment of receivers for the Standard Asphalt Rubber Company and Petroleum Products Company. The former company has offices in Chicago and both have a factory here. The plaintiff claims the Armour interests in control of the two companies have manipulated affairs as to practically eliminate him.

NEW TORONTO ISSUE.

Tenders were opened yesterday for a total of \$2,000,000 short-term 5 per cent. City of Toronto notes. Of this amount \$750,000 mature in 1916 and \$1,250,000 in 1917.

LONG WIRELESS CONVERSATION.

New York, February 11.—Conversation over the wireless telephone was held between the United States Government radio station at Mare Island and the government radio station in Tacosh on the coast of Washington, a distance of 721 miles.

NOTES ON PUBLIC UTILITIES

The new electric generating station of the Texas Power and Light Company, a subsidiary of the Southwestern Power and Light Company, has been placed in operation. The new station cost \$1,000,000 and will supply energy for lighting and power to twenty-four cities and towns between Waco, Fort Worth and Dallas, about 200 miles of high tension transmission line being used. Current will also be supplied to the entire system of the Southern Traction Company. The station was designed for two generators of 10,000 horse-power each. Only one generator and four boilers are now installed, but all other equipment has been completed and additional boilers and generating units may be added as required.

The annual report of the Kings County Electric Light and Power Company for the year ended December 31, 1914, shows net results for the year about equal to those of 1913. At the outset of 1914 indications were that the company would enjoy exceptional progress, but the outbreak of war and depression of business retarded the rate of growth. Although gross revenues amounted to \$4,346,466, an increase of \$663,918, there was a shrinkage in the surplus for the year of \$7,162. Expenses, including taxes and depreciation charges, were \$4,197,423, an increase of \$534,501, and gross income was \$2,149,036, a gain of \$69,116 over 1913. The company did no new financing during the past year, but \$365,200 of the first issue of \$4,000,000 6 per cent. twelve year convertible debenture bonds, dated March 1, 1910, were converted into stock. Additions to plant and property included a horizontal Parsons type turbo-generator, having a capacity of approximately 80,000 horse-power. Total current generated in 1914 was 150,203,072 kilowatt hours, an increase of 10,468,162. In accordance with the pension plan \$25,000 was charged to expenses during the year and credited to the pension fund, which totals \$107,201. The profit sharing plan inaugurated in 1910 was adopted by the directors for 1914 and called for the distribution of \$66,596, which was paid to the Brooklyn Edison Investment fund and placed to the credit of the individual accounts of 1,080 employees.

ACQUIRES THE WETTLAUER.

Cobalt, Ont., February 11.—It is learned that the Wettlaufer property at Kirkland Lake, which adjoins the Teck-Hughes, has been taken over under option by the Nipissing Mining Company. No work has been done on this property for some time, but a good vein was worked for a summer by the discoverers. On the Teck-Hughes about 88 feet of drifting has been done on a wide but low-grade ore body. In order to provide extra power for extended operations the Nipissing has leased the plant of the Kirkland Land Gold Mines.

NOVEL PLAN FOR UTILIZING POWER OF NIAGARA FALLS.

A plan for saving and utilizing from 75 to 80 per cent. of the power now going to waste over Niagara Falls without diminishing the scenic beauty of the falls has been worked out in detail and is being promoted.

Two of the most important features of the falls, in a scenic way, are the deflection of light through the water as it curves over the crest, and the rising spray from the impact of the water at the base of the cliff, and both of these features are to be preserved.

This is accomplished by an ingenious arrangement of penstocks by which a portion of the water is caught as it falls from the crest, is led through the turbines, and is then discharged into the falling sheet of water at the foot of the cliff, care being taken not to divert enough of the water through the penstocks to impair the beauty of the falling sheet.

The plan involves the building of a permanent concrete crest for the falls, to prevent future erosion, as well as the construction of a tunnel across the river back of the face of the cliff.

To divert the water from successive sections so that this work can be done, dams are to be made by building cribs in the river above the falls, and then floating them down to a point near the crest and sinking them.

After the work is completed, these dams are to be removed by blasting, or by unloading the cribs and floating them to a new site.

DINNER AND PRESENTATION TO CORPORAL W. H. GORDON

Prominent Newspaper Man Banqueted at the St. Regis Hotel—Leaving for Front in a Few Days.

"There was a sound of revelry by night" but in this case the scene was laid at the St. Regis Hotel in Montreal and not in the ballroom of a Princess's palace in Brussels. The above lines in the first place referred to the eve of Waterloo, when an English Duke went forth to crush a world despot. Last night's revelry precedes the downfall of the Kaiser, and was occasioned by the going forth of a Canadian corporal who, however, carries a marshal's baton in his knapsack.

Journalistic and other friends of Corporal W. H. Gordon, of the Journal of Commerce, gathered last evening at the St. Regis Hotel and tendered him a complimentary banquet, at which he was given a military watch, fountain pen and cigarettes. The gathering was presided over by the Hon. W. S. Fielding, president and editor-in-chief of the Journal of Commerce, who had on his right the guest of the evening, and on his left Mr. John Scott, managing editor of the Gazette. After the customary toast to the King, the health of the guest was proposed by the Hon. Mr. Fielding, who in an admirably worded speech conveyed the best wishes of the gathering to Mr. Gordon and then presented him with the gifts contributed by his friends throughout the city. Mr. Gordon replied in a happy speech, after which the evening was given over to song and merriment. The guest of the evening is going to put to a practical test the much debated question as to whether or not the pen is mightier than the sword.

Mr. Herbert Mould, foreman of the mechanical department, in behalf of himself and his associates, also presented Corporal Gordon with a gold-mounted briar pipe and case.

The following is a list of those present:—The Hon. W. S. Fielding, and Messrs. Burnside Robinson, J. J. Harpell, E. S. Bates, R. B. Verner, J. Gainford, H. Mould, R. W. Truax, F. W. Wallace, W. G. Mould, and J. C. Ross, from the Journal of Commerce, and John Scott, J. A. McNeill and W. Clark from the Gazette, C. Howell from the Evening News, John Pritchard of the Toronto Globe, and Dr. A. H. Gordon, M. Packard and W. H. Tyndall from the city. A number of friends of Mr. Gordon, who were unable to be present at the gathering, contributed to the present.

NEWS OF WORLD TOLD IN BRIEF

British Use of Neutral Flag and German Blockade Declaration Subject of U. S. Notes

ARMY ESTIMATES PASSED

Submarine Attack on Refugee Ship Murder of Inoffensives, Says French Government.—Prize Court For Wilhelmine's Cargo.

The United States Government has sent a note to Great Britain making friendly observations on the use by British ships of neutral flags and at the same time despatched a communication to Germany inquiring what steps would be taken by German naval commanders to verify the identity of ships flying neutral flags in the recently proclaimed zones of war around England and Ireland. In the representations to Great Britain, which is based on the statement of the British Foreign Office justifying the use of neutral flags by her merchantmen to escape capture, the American Government points out how frequent and continued use of this strategy might cast doubt on the character of vessels really entitled to fly the American flag and produce dangers to which neutral ships ought not be subjected on the high seas and in unblockaded waters. In the note to Germany, it is understood that the United States asked how the German Admiralty proposed to carry out in practice its recent proclamation of a war on merchant ships and its warning that on account of the misuse of neutral flags by belligerent vessels neutral ships could not always be distinguished when an attack was made. The United States made it clear that an attack on a vessel flying the American flag without first ascertaining definitely that such use was fictitious, could not but be viewed gravely by the American Government and bring about serious complications.

After two days of debate, during which many matters in connection with the war were discussed, the British House of Commons last night passed, without division, the army estimates for 2,000,000 men, exclusive of India, and also by a "token" vote provided for the pay of the officers and men. By this vote the Government will receive a blank check for this purpose. Replying to points raised by members of the House, Harold J. Tennant, parliamentary under-secretary for war, said that in case of a raid on England, General Sir Ian Hamilton was in command of a mobile force which was ready to go anywhere at any time.

The French Government has made public the result of the inquiry ordered by the Minister of Marine into the torpedoing of the French merchantman Admiral Ganteaume on October 26, 1914. The vessel which was struck by a torpedo fired by a German submarine had on board 2,600 refugees from Belgium and French coast towns. The attack, it is contended, was without military or naval utility or strategy and was only "the murder of inoffensive individuals."

The British Foreign Office, after an inquiry, has decided that the cargo of the American steamership Wilhelmine must go through a prize court. The ship may depart from Falmouth as soon as the cargo is discharged. It is officially confirmed that the Wilhelmine was neither conveyed nor ordered into Falmouth, but was compelled to make that port because of damage suffered in storms while crossing the Atlantic.

It is semi-officially stated that the Berliner Disconto-Gesellschaft has placed at the disposal of Bulgaria 2,000,000 francs (\$15,000,000), against treasury bonds as the second instalment of a loan of 50,000,000 francs (\$400,000,000) which was concluded in Berlin by a group of German banks last year. Of this amount Bulgaria has already received 120,000,000 francs. Another 75,000,000 francs is to be paid within the next two and a half months.

Republican and Democratic senators who oppose the U. S. Government Ship Purchase Bill, introduced by Senators Norris and Kenyon, Progressive Republicans, who have stood by the bill, forced an adjournment last night of the longest continuous session in the history of the Senate, and made more uncertain than ever the fate of the measure which the Administration has so urgently pressed upon Congress.

The parliamentary correspondent of the London Chronicle, criticizing the administration of the Prince of Wales' Relief Fund, says: "A proposal was made to the economic committee some time ago to lend a large part of the fund to the Canadian Government and to the Governments of Newfoundland and British Columbia. When the matter came before the committee the proposal to lend money to Newfoundland and British Columbia was opposed and withdrawn, but it was reported that \$5,000,000 had already been lent to the Canadian Government for six months without apparently having been formerly sanctioned by the finance committee and without the knowledge of the Prince of Wales."

There is practically no infantry fighting in western war zone.

NOVA SCOTIA CLAY WORKS HAS DIFFICULTY

Halifax, N.S., February 12.—The Nova Scotia Clay Works Limited, must find \$100,000 for capital and to pay off a loan of \$48,000, so the shareholders were told at a meeting. Accordingly the directors were asked to make such an issue of \$50,000. It appeared from the report of the bank asked them to guarantee the decline of the stock and they informed the holders that if re-elected they would decline.

The company has preferred stock of common of a similar amount. The present financial condition of the plant of the building of a plant at 800 miles from Halifax, at a cost of \$80,000, only just completed when the department and then the war. The company had from which some 2,000,000 brick were then it had to close down.

When this plant was built it was believed temporary loan could be secured it charged in a short time out of the business.

The plant was about completed at the end of the machinery installed early in 1914 and the machinery was satisfactory from a mechanical view, but demand disappeared and the pay the loan was not forthcoming.

The condition of the financial market of additional preferred shares impossible arrangement was made with the arrangement expired last year and since nothing has been done.

The directors believe that the company's conditions, can make good earnings two or three satisfactory years could require or more dividends, but the bank requires once and before any extension of time considered they ask for the personal guarantee by the directors. This is declined.

The directors state that the company's real and personal, are worth over \$500,000, but this afforded in many times in company's liabilities to the public and the business and the undertaking of directors profitable and permanent, and they have no doubt but that in due course they will out of its business operations liquidate all its liabilities.

In explanation of their declining to guarantee the bank's account the directors said that the company should stand on its own merits and that they, therefore, will not guarantee the bank's account.

Without that guarantee the bank had extended the loan for any definite period of any proposal which does not involve guarantee demanded.

To meet this situation the directors of the bond issue of \$100,000 at 90. This is the position of the Nova Scotia Clay Works Limited, and the shareholders await notice to authorize the bond issue.
Besides Elmstead, the company has plants at Pictou, Pugwash, Middleton, Avonport, St. John's, and Bridgetown.

FIVE ALLEGED CONSPIRATORS ALL COMMITTED F...
