THE ISLAND IS BUSY

Little Province Now In The Midst of Her Spring Shipping.

Charlottetown, P.E.I., May 28.—The Island is now in the middle of her spring shipping season. The opening of navigation was nearly three weeks later than last year, the quantity of ice rigid these days being considerably greater than usual.

TORONTO INHOSPITABLE

No One to Welcome Visiting Delegates At Queen City Yesterday.

Toronto, May 28.—Toronto's complete failure to rise to the only occasion in years when strangers of international distinction have entered the city on short notice, was the burning topic to-day at the City Hall.

Says Lord Cadged Orders for Beer

Justice Darling Flayed Lord Saye in Sentencing British Army Grafter

London, May 28.—Some scathing remarks were uttered yesterday by Justice Darling in reference to Lord Saye and Seale, controller of the King's Household, and a direct descendant of one of the 25 barons entrusted with the enforcement by King John of the provisions of the Magna Carta.

News of World Told in Brief

London Financial Times Not Over Enthusiastic Concerning Alberta Oil Strike HAMEL STILL MISSING

News That Aviator Had Been Found Unfounded - Members of Spanish Parliament Fight - Seeks Royal Commission on Hindu Question.

The "Financial Times" (London), while admitting that the Dignam near Calgary, is an important discovery, capable of good results under sound management, regrets that so large a number of Canadians appear to have lost their heads under the circumstances. It warns English investors to beware of flotations appearing in London in connection with this oil discovery.

Proceeding, the "Financial Times" says: "Thornorton Street has already made up its mind as to the attitude it will adopt with regard to any attempt made to obtain financial support on this side for the development of Calgary oil deposits until their value has been more convincingly established."

The report that Gustave Hamel, the British aviator, who has been missing since Sunday last, had been found, had been rescued appears to be entirely unfounded. Inquiries made by the Royal Canadian Mounted Police in the region of South Shields, England, yesterday, failed to disclose the signal from the fishing boat, which was alleged to have picked him up, was evidently a misunderstanding.

There was a violent scene in the lobby of the Spanish Chamber of Deputies last night, when Antonio Maura, Premier of Spain, attacked with his cane and big fists the radical deputy Rodrigo Soriano, who during the debate yesterday had called his father, the late Maura, a traitor. Soriano was separated, and two men were bleeding profusely from the nose.

Sundar Singh, the Hindu leader, is still in Ottawa, and has interviewed several members of the Government. It cannot be said that his mission has yet had much effect. The Government is determined to carry out the Ordinance now stands. Sundar Singh asks that a Royal Commission be appointed to inquire into the whole question of the rights of the Hindus, and a difference of opinion exists as to whether this may be done, as it is generally recognized that a permanent solution of the Hindu question must be found.

As matters stand, the shipload of Hindus is being excluded on two grounds. The first is under the Ordinance in-Council passed on April 1st, excluding for six months all artisans and laborers from entering British Columbia. The second is that things this side of the water are not in a position to receive them.

Mr. William Townsend, of the Western Union Cable office at North Sydney, is being warmly congratulated on his success in winning the cable operators sweepstakes of \$23,000 in connection with the English Derby.

More than 2,000 people attended the garden party given by H.R.H. the Duke of Connaught at Craigtoun, Str. Edmund's residence in Rosedale, yesterday afternoon. It is believed that the guests were the peace envoys who were granted a private audience at 4.30. The Duke, Duchess, and Princess received their guests on the veranda.

Sarah Bernhardt is seriously ill at Liege in Belgium, where she has suffered a recurrence of her knee affection. A cablegram from Paris to the Chicago Daily News, says: "Reports received from Liege, Belgium, to-day indicate that Sarah Bernhardt, who is there with her company on a tour of Europe, is seriously ill."

3 000 LBS. MILK PER ACRE

Average Dairyman Can Easily Increase His Product per Acre of Pasture.

If it may be assumed that the farm of the average dairyman is fairly well adapted to dairying, that the pasture is well managed, that the dairy is well equipped, and that his cows are fairly good, then it will be of interest to note how the farm is made to respond to this dairy inclination.

There are frequently noticed yields as low as 250 pounds of milk per acre cultivated, including pasture, but some good patrons obtain 750 and 800 pounds per acre. Even this is little enough, for there are plenty of authentic records of 1,000 and 2,100 pounds of milk per acre. It should not be extremely difficult to obtain more than this, even 2,500 or 3,000 pounds.

This latter figure is a long, long way ahead of the certain yield of only 250 pounds, which may be found on many a so-called dairy farm in Canada, and is indicative of the possibilities in reach of the dairyman who is really anxious to attain first rank.

It is questionable if the average yield per acre in Ontario is more than 600 pounds of milk. If loyal, wholehearted support is given to the local factory and to our national industry of dairying, the farm and the dairy herd will be made far more productive. Great help will be derived by keeping individual records of each cow, because the old-established, complacent "average" cow has no intention whatever of assisting the average patron to get 3,000 pounds of milk from the average acre. The first necessary step is to know the capacity of each cow as a good producer, then one may aim with more hope at \$50 or \$40 per acre.

Zbyszko Won Two Falls Out of Three from Raoul de Rouen

VICTORY POPULAR

Huge Crowd Friendly Towards Pole-Toronto Just Falls to Win a Plucky Uphill Fight - Royals Leave.

Nearly ten thousand persons crowded every available foot of space at Sohier Park last night, and saw Stanislaus Zbyszko defeat Raoul de Rouen for the heavyweight wrestling championship of the world, after 79 minutes of an fast and exciting wrestling match. The management stated that the receipts amounted to \$16,000. The win was a popular one, the plucky and sportsmanlike Pole being a favorite from the start, and while the match was replete with strenuous wrestling and lightning-like change of advantage, it was somewhat inconclusive as a deciding test of the two opponents' relative claim to the world's honors.

Francis Oulmet, the American open champion, and Harry Topping, Greenwich Country Club, Connecticut, will meet in the final round to-day for the British amateur golf championship. The referee immediately blew his whistle and awarded the Pole a fall.

The Buffalo Club made a gallant fight in defence of their position as league leaders yesterday in Toronto, but the mat with tooth and nail or eleven innings, only to be beaten 7 to 6. The Blues used three pitchers against Johnson, of Toronto, who is his illustrious namesake of the Washington club, a world of speed against opposing batters.

The Herd had the Kellys beaten 3 to 1 when the sixth opened, but the next two were out at first. Chances looked mighty poor at that stage. Wilson and Pick singled, and two runs were scored. With the score 1 to 7, Jameson grew shaky, and walked Jordan, filling the bases, and then he went into the box, and Kelly came to bat with the bases full.

In the seventh the Buffaloes tied the score, however, Jameson succeeded in getting two runs out of the box, with the result that the teams battled evenly until the eleventh. A single and an error followed by two more singles gave the Blues three runs, and ran the count up, 7 to 4.

Joe Kelly has a fighting team to this season, however, and they set about overhauling the Herd. The task would not have been difficult had it not been for the aforementioned error, which was committed by Priestie, but for that costly boot the score would have been 6 to 4.

Anyway the Leafs sailed into Jameson. Sullivan opened with a double, but the next two were out at first. Chances looked mighty poor at that stage. Wilson and Pick singled, and two runs were scored. With the score 1 to 7, Jameson grew shaky, and walked Jordan, filling the bases, and then he went into the box, and Kelly came to bat with the bases full.

The batting and fielding of Gilhooley, the former Royal outfielder, was a brilliant feature of the game. He had a bunt, a line drive and a three-bagger, as well as some hard chances in the field, all of which he accepted.

New York defeated Chicago, 3 to 1 in the final game of the series yesterday. The contest was a pitchers' duel between the veteran Mathewson and Zabel. Chicago's youthful twirler, who got his first chance to start a game, Mathewson had perfect support. Zabel retired in the eighth inning to allow a pinch hitter to bat for him. A double play by Doyle, Grant and Merkle in the fourth inning, and Mathewson's remarkable control in the nineties, were the features of the game.

Washington gave the Tigers another beating yesterday. This time it was most decisive, 7 to 0 being the tally.

Joe Wood, who was operated on February 22, following an attack of appendicitis, pitched his first entire game of the season yesterday, and Cleveland was defeated 5 to 4. Hits for extra bases and sacrifice flies gave the Red Sox most of their runs. Wood started out wild, allowing three bases on balls in the first inning, but after that he showed much of his old-time form.

Sixteen members of the Montreal ball team left last night for Buffalo, after having a rest yesterday. Now that Joe Yeager is able to get back in his regular position on third base, Manager Braniff will make a couple of changes in the infield. Keller, who has not been much used in his regular position, will play at the second station, which he claims is his right position. Billy Cunningham was left at home. Boyle, of the Phillies, is here on June 6, and will be available for the next series at home, while Ewer Lichtenstein also has lines out for a couple of other fast innings. In case a utility infielder is needed while on the present trip, Jimmy Crowl, one of our pitchers, will fill the bill, he having had some experience in this department of the game as well. Richter and McGrawnor are still out of the game and did not go away, and Dale, Miller, Mason and Couchman will share the mound duties.

Francis Oulmet, the American open champion, and Harry Topping, Greenwich Country Club, Connecticut, will meet in the final round to-day for the British amateur golf championship. The referee immediately blew his whistle and awarded the Pole a fall.

AROUND CITY HALL

Controllers Refuse to Buy Property On Which Agent Was Making 50 Cents a Foot Profit.

"We want no dealings with middlemen if we can help it," was the opinion of the Board of Control yesterday in deciding to cancel a report passed last week for the purchase of a site of land at the corner of Craig and Papineau streets. This unusual procedure was the result of information placed before the board to the effect that the holders of the option were making a profit of \$19,000 on the site, which was to have been used for the construction of a general municipal stores department, a fire station, and a garage.

"Drop the affair. We can get along without middlemen," said Mayor Martin, and the other members of the board concurred.

It was Controller Hebert who drew the attention of the board to a statement which appeared in the press yesterday, to the effect that on the 28,000 feet of land, for which the city was paying \$100 a foot, the vendors were proposing to pay \$100 a foot, and two before obtained an option on \$4,000,000.

"My own investigation," said Mayor Martin, "has shown that the report proposed and resolved that the report adopted by the board for the purchase be cancelled."

When asked after the meeting, Controller Hebert, on whose recommendation the board had acted, stated that the site was the cheapest offered for the land, and that the city's purposes, and the price not really exorbitant, he had favored it.

Mr. Hebert added that the city was dealing with Gohier and Piquas, real estate agents, who had secured the option from the Canada Rubber Company. As the board had been informed that the land would make 50 cents a foot on 38,000 feet, or \$19,000 there was nothing else to do than cancel the board's decision as the profit was too large.

By order of the Board of Control yesterday the notice of label must be stamped on all civic printing.

The opinion of the City Attorney showed there was a legal difficulty in the way of the city's advertising such a condition as it discriminates against certain printing establishments. There would be no violation of the law, however, said Mr. Laurendeau, if the city required the notice to be done by an individual firm which might quote prices. As it was explained that the city never advertises in this way, the condition was dropped.

The establishment of an art museum in the Ecole Technique, Sherbrooke street, with the support and co-operation of the Comite France-Americain, was under discussion yesterday by the Board of Control when it was resolved to vote \$6,000 to the purpose. The annual grant will be \$2,000, and as the city voted \$2,000 three years ago it was decided to report favorably to continue the work begun at that time. Certain art objects which were secured in Paris by Mr. Max Douville with the original grant will now be forwarded to this city and will become a nucleus in the museum at the Technical School of an important collection for the benefit of the pupils who attend the classes and for the public as well.

MUST PAY UP NOW. Pittsburg, May 28.—A decree was rendered yesterday in the United States court here in the infringement suit of the Carnegie Steel Co. of this city against the Cambria Iron Company, of Johnstown, ordering the latter company to pay to the former concern \$50,000.52 with interest from May 1, 1912, to the date of payment.

NEWS OF EARTHQUAKES. (By Special Leased Wire to Journal of Commerce.)

Panama, May 28.—Just before half-past ten o'clock last night an earthquake shock of short duration was felt here. It was not violent, and no damage was done by any of the canal locks. According to the director of the Panama Observatory, the scene of upheaval was at least 7,500 miles away.

A big earthquake which Italian seismologists believe must have occurred somewhere on the American continent was registered at Panama yesterday at 4 p.m. The instruments continued in violent agitation for two hours. According to the director of the Panama Observatory, the scene of upheaval was at least 7,500 miles away.

The violence of the quake in the city was felt most along the waterfront, in State street and Battery place, where waggons were overturned and barges torn from their moorings and blown across the river to the Brooklyn side, and two schooners anchored off Erie Basin broke drift and bumped together violently before they got into safety.

BESIEGE LONDON OFFICE Francis Crowl Block Traffic in Front of C. P. R. Headquarters.

London, May 29.—The offices of the C. P. R. here to-day were besieged by crowds of weeping men and women relatives and friends of the crew of the Empress of Ireland, reported sunk on Father Point. Most of the officers and men of the Empress, of "Swaggy" here, officials of the company this afternoon claimed to have nothing definite regarding the accident and the number saved.

Among those most anxious for news at the Canadian Pacific offices was John Burns, an official of the Salvation Army. Many members of the Army found for the company a conference were booked on the ship.

By noon the street in front of the C. P. R. was jammed with peoples' relatives and friends of the crew of the Empress of Ireland, though he had probably planned to sail on the Teutonic.

The management of the Globe Theatre made anxious inquiries for Lawrence Irving and his company. It is said that the actor was on board the Empress of Ireland, though he had probably planned to sail on the Teutonic.

Rumors that the steamship had met with disaster were current here for several hours before confirmation was received. The excitement was all the more intense as it was stated that the ship itself would probably be covered by insurance.

Seniors in Liverpool. Liverpool, May 29.—Patetic scenes were enacted at the offices of the C. P. R. in this city to-day. Crowds of weeping men and women being in front of the offices, and many of the women fainting. To-day's news was a duplicate of those witnessed at the Titanic catastrophe.

MUST PAY UP NOW. Pittsburg, May 28.—A decree was rendered yesterday in the United States court here in the infringement suit of the Carnegie Steel Co. of this city against the Cambria Iron Company, of Johnstown, ordering the latter company to pay to the former concern \$50,000.52 with interest from May 1, 1912, to the date of payment.
