

The First Thing to see at your STATE FAIR

Is this ditcher under actual working conditions proving that it can cut 100 to 150 rods of perfect ditch a day. If your farm needs drainage or you think you'd like to make a little spare time money, this will prove the most profitable exhibit on the lot for you. The

"A Perfect Trench at One Cut" BUCKEYE Traction Ditcher

will be demonstrated at the **Canadian National Exposition** Toronto, Ont., Aug. 26 to Sept. 11

and also at the following State Fairs in the United States:

Ohio	Columbus	Aug. 28 to Sept. 1
Iowa	Des Moines	Aug. 23 to Sept. 1
Indiana	Indianapolis	Sept. 4 to Sept. 8
Michigan	Detroit	Sept. 4 to Sept. 13
Wisconsin	Milwaukee	Sept. 11 to Sept. 16
Kansas	Hutchinson	Sept. 16 to Sept. 23
Minnesota	Hamline	Sept. 4 to Sept. 9

Competent representatives will be in charge and will freely answer all questions. Learn how you can make \$15 to \$18 a day. Get our Buckeye Book of Facts E at the fair or direct from us.

208 Crystal Ave., Findlay, Ohio, U.S.A.

Builders also of Buckeye Open Ditchers and Buckeye Gas Engines for farm use

Does a Cow Credit!

Of what use is it if your cows furnish extra creamy milk if you lose the cream in separation?

There is absolutely no need for this waste—for it certainly does not pay to feed cream to pigs and calves in the skim milk. Invest in a

SUPERIOR SEPARATOR

and you will gain in two ways. First you will reduce the work of separation—and of cleaning up afterwards. Secondly, you will get ALL the cream—all the time!

Write for the big, free book, showing the various models of Superior Separators and how and why they excel machines costing almost double. The book is free. Write for it to-day!

Facts To Know When Buying Cross-Cut Saws

The name "Simonds, Crescent Ground," on a cross-cut saw means that that saw will cut 10 per cent. more timber, same time and labor being consumed, than any other brand of saw made to-day. This we guarantee.

This is a broad statement, but one which we stand behind. No saw has yet been returned owing to its having failed to fulfil above guarantee.

The advantage of the Crescent Grinding, in Simonds Cross-Cut Saws, is that it prevents binding in the kerf, and enables the operator to push as well as pull the saw—points experienced sawyers appreciate.

Simonds Steel is the only steel which we are sure will take a temper to hold a cutting edge longer than the ordinary saw.

Always buy a saw with a sharp cutting edge—not a soft saw—because the former lasts longer and keeps its edge better.

The illustration shows a Simonds Cross-Cut Saw, No. 325, with a hollow back, instead of a straight back.

When you buy a saw, it will pay you to get a Manufacturer's Brand Saw, with the name "Simonds" on the blade, at about the same price as you will pay for a low-grade Special Saw.

Ask your dealer for the Simonds Cross-Cut Saw, and write direct to the factory for further particulars.

Wilkinson Plows

THE oldest line of steel beam plows in the Dominion, made in the old Wilkinson Plow Co's factory, by old Wilkinson Plow Co. experts—every one of them men who know their business. It is the standard line of plows and includes 25 or more styles to choose from. U. S. S. Soft Center Steel Moldboards, highly tempered and guaranteed to clean in any soil. Steel beams, steel landsides and high carbon steel couler. Clevises can be used either stiff or swing. Each plow is fitted especially with its own pair of handles—rock elm, long and heavy and thoroughly braced. The long body makes it a very steady running plow. Shares of all widths—specials for stony or clay land.

General purpose, light, medium, and heavy, side hill, sod, drill or one horse plows

The plow shown turns a beautiful furrow, with minimum draft and narrow furrow at finish. Ask for new booklet.
