

## STOCK GOSSIP.

A very large grade steer was weighed on the Winnipeg market scales a few days ago, and kicked the beam at 2,300 lbs. He was seen as Christmas beef at the stall of butcher Kobold, who fed him.

Mr. Empey, of Brandon Man., brought two fine Holstein heifers and a young bull with him from London, Ont., last spring. One of the heifers since met with an accident that caused her death; the other one and the bull are doing nicely, and will no doubt prove a good investment. Improved stock is one of the wants of Manitoba farmers.

H. J. Davis, Woodstock, Ont., reports the following sales:—The horned heifer Violet's Eclipse, sired by imported Eclipse and dam Violet Arundel, to Mr. G. Green, East Zorra; also, Berkshire sow to same gentleman; one boar to E. J. Tobin, Malmison, P. Q.; one boar to A. R. Kidd, Peterboro'; boar and sow to James Cherry, Jr., Nobleton, Ont.; one sow to R. J. Peacock, Aliston; two sows to Thos. Mackay, Richwood, Ont.; one boar to John Atkinson, Guelph. Have some good young bulls and heifers; also, some choice Berkshires of both sexes for sale.

The Seed Annual for 1890, issued by D. M. Ferry & Co., of Detroit Michigan, has reached our table. Its cover this year is especially artistic and attractive, and its contents, as usual, interesting and instructive. D. M. Ferry and Co. are very conservative, both in offering new sorts and in their claims for them when offered; but they take pains to inform themselves as to the true character of all new varieties.

## BAIN WAGON CO'S KNEE-BOB

## REASONS WHY OUR SLEIGH IS THE BEST IN THE MARKET:

Because, with our patent attachment to hind bob, it is the easiest running sleigh made. Because it will go in and out of Pitch-holes without any strain on itself, even when heavily loaded. Because it will go in and out of pitch-holes without the hind bolster sliding back and forth on the box or rack, as it does with the old coupling. Because with our improved coupling it can be backed up the same as a wagon. Because with our swivel in coupling it can be used on the roughest roads without any twist to the reach. Because with our swivel in coupling it will allow either bob to turn up on its side when loading or unloading logs without any danger of breaking the reach. Because with our improved coupling it can be turned around in its own length. Because it is always in line and will track under all circumstances. Because it cuts off less than any other sleigh made. Because it is well made of the very best wood and iron. Because it has a good length of runner, and faced with a two inch steel shoe. Because all sleigh makers who have seen our coupling say that it is just what was wanted to make the bob-sleigh perfect, and wonder why such a simple and necessary improvement was not thought of before.
