

PROCURE THE BEST.

THE WHITFIELD Stump Extractor

The superiority of this machine consists in the RAPIDITY AND EASE

In which it can take out the largest stumps; the ease with which it is operated by man or beast, and the great strength and durability of this machine.

Address, JOHN WHITFIELD, Dominion C Works, Front Street, Toronto.

PATTERSON & BRO., WHITBY, ONTARIO,

MANUFACTURERS OF AGRICULTURAL IMPLEMENTS GENERALLY, STRAW CUTTERS and CELEBRATED GRAIN CRACKERS.

These Machines should be in the hands of every stock raiser or breeder.

The large size power cutter is capable of cutting a ton of fodder per hour, and the grain cracker twenty bushels per hour of any kind of coarse grain with six horse power.

Facts speak for themselves of the utility and profit of preparing food for stock.

PATTERSON & BRO.

THE RUSSIAN MULBERRY

Was brought from 49° north Lat. in Europe, and introduced into this country by Russian Menonites, many of whom settled in Nebraska several years ago. The trees are of a distinct variety, do not degenerate from the seed, are of rapid growth, and after the third year from the seed are continual bearers of a fine fruit, which much resembles the Blackberry in form and color, and is somewhat similar in taste.

YDE & MILES, DeWitt, NEBRASKA, U. S. A.

FOR SALE.
