

Buy an Engine with Reserve Power

FARM power needs are seldom the same for any two days together. You never can tell when extra power will be needed. For this reason it is best to buy an engine a little larger than you ordinarily need. The engine with ten to twenty per cent of reserve power will often save enough to pay for itself just by its capacity for carrying you through emergencies.

I H C Oil and Gas Engines

are large for their rated capacity. They are designed to run at the lowest possible speed to develop their power because that increases the durability of the engine. A speed changing mechanism enables you to vary the speed at will. Any I H C engine will develop from ten to twenty per cent more than its rated horse power. You can use it to run your feed grinder, pump, grindstone, repair shop tools, cream separator or any farm machine to which power can be applied. I H C engines are built vertical, horizontal, stationary, portable, skidded, air cooled—in 1 to 50-horse power sizes. They operate on gas, gasoline, kerosene, naphtha, distillate or alcohol. I H C tractors in sizes from 12 to 60-horse power. See the I H C local agent. Get catalogues from him, or, address the nearest branch house.

International Harvester Company of Canada, Ltd

BRANCH HOUSES

Genasco

THE TRINIDAD-LAKE-ASPHALT
Ready Roofing

Make your roof leak-proof to stay. Lay Genasco and you'll have a roof that makes you free from care and saves your repair-money.

Genasco lasts because the natural oils of Trinidad Lake Asphalt gives it resisting lasting life. It doesn't dry out and crack like ordinary roofing made of imitation "asphalt".

Get Genasco of your dealer. Several weights. Mineral or smooth surface. The Kant-leak Kleet for smooth-surface Genasco keeps the seams watertight without cement, and prevents nail-leaks. Write us for the K and samples. Free.

The Barber Asphalt Paving Company Philadelphia
Largest producers of asphalt, and largest manufacturers of ready roofing in the world. Montreal, Ottawa, Toronto
D. H. Howden & Co., Ltd., 200 York Street, Toronto
The Canadian Asphalt Company, Ltd., Winnipeg, Man.

Saving and Application of Manure

The New Kemp Manure Spreader

Made by oldest manufacturers of Manure Spreaders in the world. Draft one horse lighter than any other Spreader built. Strongest Spreader built. Only Spreader equipped with J. S. Kemp's Patented Reversible, Self-Sharpener, Graded, Flat Tooth. Handles all kinds of material found on the farm, even clear gum or rotted material. This is the only Spreader that will do it satisfactorily. Write to-day for catalogue and J. S. Kemp's article on Saving and Application of Manure.

The W. I. KEMP COMPANY, Ltd., 552 Ontario St., Stratford, Ont.

Cockshutt Plow Co., Ltd., Selling Agents for Western Ontario.
Frost & Wood Co., Ltd., Selling Agents for Eastern Ontario and Maritime Provinces.

FRUIT FARMERS' ATTENTION!

"A Wonderful Result in Tree Planting which should interest every orchardist in the country was obtained last season on the Farm of Mr. C. A. Borden, Sheffield Mills, N. S., 1213 Young Trees were set out, the holes being dug by the use of 1/2 stick = 1/4 pound Stumping Powder. Every tree lived and grew, the truth of this statement can be vouched for by Mr. Borden, if anyone takes the trouble to make enquiry."

The Advertiser, Kentville, N. S. 15/4/13.

A TREE PLANTED IN A HOLE MADE WITH C.X.L. Stumping

will grow better than in a spade-dug hole. The ground is so pulverized that the roots can immediately expand in search of nourishment, retain moisture longer, and the surface is properly drained.

Also used for clearing land of stumps and boulders. If interested, write to-day for our illustrated booklet.
