### RECIPE MIXED OFTEN

Some remarkable stories are being told about town and among the country people coming in of this simple home-made mixture curing Rheumatism and Kidney trouble. Here is the recipe and directions for taking: Mix by shaking well in a bottle one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup. Take as a dose one teaspoonful after meals and at bedtime.

No change need be made in your usual diet, but drink plenty of good water.

This mixture, writes one authority in a leading Philadelphia newspaper, "has a peculiar tonic effect upon the kidneys; cleansing the clogged pores of the eliminative tissues, forcing the kidneys to sift and strain from the blood the uric acid and other poisonous waste matter, overcoming Rheumatism, Bladder and Urinary troubles in a short while."

A New York druggist who has had hundreds of calls for these ingredients since the first announcement in the newspapers last October stated that the people who once try it "swear by it," especially those with Urinary and Kidney trouble and suffer with Rheumatism.

The druggists in this neighborhood say they can supply the ingredients, which are easily mixed at home. There is said to be no better blood cleansing agent or system tonic known, and certainly none more harmless or simple to use.

### A White Goods Sale

The great annual White Goods Sale of Robert Wright & Co., Brockville, is now in progress. To those who have visited this sale in previous years little need be said—the values then obtained speak most convincingly. As members of the Canadian Dry Goods Syndicate, Messrs Robert Wright & Co. share in the low prices obtained by immense grouped orders, and this is why they are able to offer such surprising values. It will pay any prudent purchaser to visit this great sale. Mail orders are given prompt attention.

### Card of Thanks

Mrs. Jonas Steacy desires through the medium of the Reporter to acknowledge with thanks the receipt from the officers of the local lodge of A.O.U.W. of a cheque for \$2,000, being the amount of insurance held in the order by her late husband.

An address from the Athens lodge, beautifully engrossed and illuminated by Beau-ont Cornell, accompanied the cheque.

### Unimpeachable

If you were to see the unequal volume of unimpeachable testimony in favor of Host's Sarsaparilla, you would upbraid yourself for so long delaying to take this effective alternative and tonic medicine for that blood disease from which you are suffering.

It eradicates scrofula and all other humors and cures all their inward and outward effects.

Take Hood's.

—Wedding Stationery—the very latest at the Reporter Office.

Forests.  
Russia leads the world in planting forests, America in devastating them.

Persian Clothes.  
Persians are fond of fine clothes. The usual costume for men includes a collarless shirt of light, pretty material cut low at the neck and with long, loose sleeves and a vest that fits closely to the figure, also with wide, flowing sleeves.

Wedding Rings.  
Wedding rings were worn by both Jews and Romans at dates long prior to the Christian era.

Flower Essences.  
To extract the essence of any flower put the petals in layers in an earthen jar, covering each layer with one of salt. Do this until jar is full. Cover closely and put in a cool place. Leave for a month, then strain off the essence by means of a press. Put essence in a bottle and add a few drops to every pint of water. It will impart a most delicate fragrance.

Posters.  
Posters were originally stuck on posts; hence their name.

Plain Food.  
The man who enjoys plain food, says the Lancet, is miles ahead, physically and physiologically speaking, of the man who would leave his meal untouched if it were not that every item of it was calculated to "tickle the palate."

The Largest Serpent.  
The largest serpent ever measured was an anaconda which Dr. Gardner found dead in Mexico. It was thirty-seven feet long, and it took two horses to drag it.

Washington.  
Washington was made a Mason in 1753 and attained a higher dignity in the order than any of the other presidents, though Andrew Jackson was grand master of Tennessee.

The Peaceful Dove.  
In spite of the fact that the dove is the emblem of peace a couple of cock birds of this deceitful species can give a very good account of themselves in a fight. The weapons they employ are their wings, which they use with terrific force.

The Yellowstone Park.  
The Yellowstone National park is sixty-five miles from north to south and fifty-five from east to west.

Rabbits.  
While not fond of the water, rabbits can swim if they are forced to. They have a swimming position all their own and look queer enough in the water. They keep the head and tail high and dry, while the front part of the body sinks deep in the water.

Wives by Purchase.  
Wives are still obtained by purchase in some parts of Russia. In the district of Kamyskin, on the Volga, for example, this is practically the only way in which marriages are brought about. The price of a pretty girl from a well to do family ranges from \$100 to \$200, and in special cases a much higher sum is obtained. In the villages the lowest price is about \$25.

Fire Killed Wood.  
Government tests of fire killed timber have demonstrated that this wood is good and should be considered as thoroughly seasoned timber so far as its use is concerned.

A Cunning Cricket.  
A hunter in tropical regions tells of seeing a cricket pursued around the trunk of a tree by a lizard. Suddenly the insect settled itself in a small depression in the bark, spread out its wings slightly and flattened itself so that the lizard actually mistook it and went away wondering what had become of it.

Ocean Drift.  
A box thrown overboard by a steamer Hunter was not seen for months and was finally found having drifted in of 4,791 miles.

Tree Struck.  
Some trees be struck by lightning and are rarely struck again.

The Eagle on the . . .  
The eagle first appeared on the seal of the United States in a design submitted to congress by William Barton of Philadelphia in 1782. The device was adopted June 20 of that year.

Our Longest Canal.  
The longest canal in the United States is the Erie, 357 miles.

The Nighthawk.  
The nighthawk makes no nest at all, simply laying its eggs in a slight depression in the ground. The eggs look so much like small stones that they pass undetected of the searcher.

Be Superstitious.  
The following from an English paper illustrates the superstitious belief of Cornish country folk: A death recently occurred in the family of a beekeeper, who thereupon, believing that if he failed to do so all his bees would die, draped each of his five hives with a piece of black crape.
