throughout I was deeply impressed. Altagether I was highly pleased with having gone to hear the Rev. Mr. Neal, who is greatly beloved by his people. The singing was good. In the evening the ordinance of the Lord's Supper was observed, and with Mrs. Ball I was one of the communicants. I esteemed it a great privilege to be present on such an occasion, and in the company of one who I have learned to esteem dearly. I have been told since I came here by those who knew the family of the late Peter Brown that they were regarded as the cleverest in the city during the late forties and early fiftles. Her speech, which is sufficiently Scotch to make it pleasant to listen to, is always that of the true lady.

representatives Boutelle and Dingley, of Maine; Quigg, of New York; Barthold, of Missouri; Scranton and Mutchler, of Pennsylvania; Perkins, of Iowa; and Senator Hansborough, of North Dakota. Hendrix, of Brooklyn, and Conn, of Indiana, each declined a re-election. It is a curious fact that though many of the newspaper men are brilliant writers, few of them can speak. They are, however, farsighted and earnest workers, and in the committee rooms and conferences they contribute great influence. Their families are well received in Washington and they themselves are welcomed at all social gatherings. The diatribes against newspaper men are seldom heard, except from those who lack social position themselves, or are like the society woman who, at a dinner, made an indiscreet remark, and, turning to Whitelaw Reid, who sat next to her, remarked, with a silly gigle, "Oh, Mr. Reid, you musn't put silly gigle, "Oh, Mr. Reid, you musn't put that in your paper! You really musn't, you know."

WHAT DEPEW SAYS. Home Rule Bound to Come in the End-

chamber, like the United States Senate, forecasts the sentiments of both parties. The Liberals have been defeated because their party was composed of such conglomerated elements, many of them wholly satagonistic to one another. Times have also been bad in the United Kingdom, and to a great extent this state of affairs has been ascribed to the financial policy of the late Government. The artisans and laboring men have both been led to believe that this is the case. Beer and liquor have also been overwhelmingly strong." Mr. Depew was asked what in his opinion, would be the result of the elections upon the Irish question. He said: "The election puts the Irish in a very delicate and difficult position. Their enemies will be in power in the House of Commons for seven years and unantmously in control in the House of Lords. What the Tories hope for is that the condition of affairs will incite the physical force party to acts of violence which the Tories will make use of to frighten the English and Scotch electors. If violence is averted in Ireland the Liberals will stand by the Home Rulers, and in the next election Home Ruler will still be a prominent feature of the programme, though the question of ending or mending the House of Lords will be the leading feature of their programme. But if the Irish do not remain together there is great danger the Liberals will drop them, and this would relegate the Irish to the position they occupied before Mn Parnell consolidated them. There is no doubt that the Conservatives and Liberal-will provide the position as to the likelihood of the Irish avoiding disunion and remaining compact and unanimous, Mr. Depew said: "The pressure of the Irish in the United States and the colonies who are numerous and prosperous and in favor or unity of action will be likely to compel the Irish representatives of the House of Commons to act harmoniously. In the end the Irish will obtain Home Rule, but not before the House of Lords has been mended. If the Irish remain united they may force the Conserv

A LUCKY VANCOUVERITE.

G. D. Scott, who for the last two years has been interested in a number of Kootenay mining claims, has, it is reported, struck it rich in the Lardsau district where he has large interests. He has disposed of two claims to the Kootenay Gold, Silver and Copper Mining Company, composed largely of Montreal and Toronto capitalists. They are hard at work running tunnels and have already in sight over two feet of grey copper or running high in gold, silver and copper. Mr. Scott has the two other adjoining claims, which show very fine mineral on the very surface. A contract has been let to run a tunnel in on the Stephanie, tapping the vein. The ledge is located for several miles and is a true fissure in contact with shale. It is to be hoped that it will turn out even better than the surface showings indicate.

They have women on the school board A LUCKY VANCOUVERITE.

face showings indicate.

They have women on the school board of Detroit, Mich., and the said women are making an enviable record. They have taken a resolute stand for honesty in the dealings of the board. It seems to have been needed, in view of the fact that one member of the board is now serving his time in prison for "booding," another is a fugitive from justice, and two more are said to have been implicated in the same crooked transactions. Michigan women are "pointing with pride" to the school committee women of Detroit, and 'are naturally drawing a moral in favor of woman suffrage.

WHOLESOME

Weak Men and Women Suffering from nervous troubles, ind gestion, kidney and liver diseases, parafysis, lumbago, sexual disorders, varicocele and general ill-health, the Dorenwend Electric Belt builds up and revitalizes the whole system, and makes life sweeter and worth living.
