RECORDS TELL **PUPILS' WORK**

Results of the Recent Examinations at the Chatham Collegiate Institute

New System of Classification Inaugurated - Keen Competition for School Medals.

The average percentage results of the last bi-monthly examinations are, as heretofore, published for the information of the parents and the friends of the pupils, and all interested in education. A classification has been made as follows :- All obtaining at least 80 per cent. are marked "most excellent"; those whose percentage is between 70 and 80, as "excellent" those between 60 and 70, as "good" between 50 and 60, as "fair" those below 50 are considered as "be low the line" or "poor." This is, o course, a somewhat arbitrary classi This is, of fication, and in particular cases should be qualified, for it does not take into account differences in ability, age previous opportunities, state health, etc. But it serves the purpose intended, namely, to give honor where honor seems due, and to indi-cate with a fair degree of accuracy what each pupil is doingg. It is earnestly hoped that the pupils "below the line" will strive to reach at least a 50 per cent, average, and that all the pu pils will be ambitious to rank in the "good" or "excellent" class.

In Form 4, where the Matthew Wil son gold medals are being competed for, it is interesting to note that there are three pupils running "neck and neck," McQuarrie making the highest total, but not the highest average pe

In Form 3B, special mention should be made of Susie Hutchison's record. She received a "double" promotion in September, and now holds the third place in the higher room.

In form 3A, Allen Fletcher, Leo Miller, Wm. Burgess, John Fletcher and Ernest McQuarrie, all new pupils this term, have already reached an honorable place. The fact that they be long to junior Latin and French class es has not been counted against them or they would not rank so high. In Form 2B, Mabel Sandison and

Margaret Hutchison have the dis tinction of gaining the highest per centages in the school, while Lena McKie holds the highest place, length of attendance since passing the trance being considered. It will be noticed with fond regret and sad satisfaction what an excellent position the late and lamented Charlie Stephens takes in the list of this room This year "attendance" and "punctuality" count as subjects, each being reckoned as worth 100. Ten marks are deducted for every day lost, and ten for every case of lateness. Time

A new test in English has been added, called in the pupils' reports "sup-plementary reading." This means the reading of English classics in addied a letter from his uncle, Sir George tion to the work in literature pre-MacPherson Grant, Ballindallock scribed by the Education Department, Castle, Scotland. Sir George promises In this supplementary work is includfacts in connection with the steps St. Mark was under review; for the being taken to secure the fortune Christmas test the first twenty chapters of Exodus are prescribed. Pupils' reports, giving all detains have been issued to parents, who will

please examine, sign and return them to the Form-master FORM 4. Matriculation and Senior Leaving.)
