Excellency was pleased to make the fellowing reply.

k you for your congratulations ion of the Government of this e specially for the spirit of schment to Her Majesty's Per-ument, which is manifested in

country in the world. I will gladly avail mymyself of the experience thus acquired, to
assist in giving full and complete effect to the
callightened system of Government that has
been conferred upon this Colony; but, I am
bound to add, as a result of this same expericess, that it is only by the temperate and
judicious exercise of the inestmable privileges
that have been conferred by this system, that
the general welfare can be promoted, and the
best intracests of the people themselves protected
from the blighting influence of excessive personal and party strife.

No effect of mine shall be wanting to establish
a claim upon your increasing confidence, but of

Mn. Entron;
I understand the Small Pox has made its appearance at Belfast, and the people are greatly alarmed; perhaps it may help to allay their fears, if the Island papers will kindly inform them that the whole district may be immediately vaccinated, on application at the Prince Edward Dispensary, Kent Street, Charlottetown.

I remain, &c., H. A. JOHNSON.

REPLY.

Gentlemen:
This cordial expression of loyalty and attachment to Her Majesty's person and Government, from the Magistrates, Herchants, and Inhabitants of Georgetown, its Royalty and vicinity, emanating as it does from men who can so fully appreciate the advantages they enjoy as members of the great British North American family is most acceptable to me.

It is my anxious wish, as it shall be my constant andeavour, as far as possible, to realize the expectations you appear to entertain from my appointment to the Government of this Island, but much made depend upon the co-operation of those, who, like yourselves, look for the advancement of the best interests of the community, from the cultivation of those feelings of good will and harmony, without which so people can prosper.

I thank you very sincerely for your kind wishes towards myself and family. I hope shortly to be able to visit Georgetown, and then to become better acquainted with its position and interests.

D. DALY,

Lieut. Governor. binnediately vaccinated, on application at the Prince Edward Dispensary, Kent Street, Charlottetown.

If a central convenient place is appointed, a day may be fixed to meet, and the danger from the Small Pox immediately removed.

The individual expense will be a mere trifle, and absolutely poor persons will be done gratuitously.

Every case will be subsequently inspected, and certificates given of safety, or requiring a future test, as the case may be.

Vaccination, to be socure, requires to be performed when the lymph is in a certain stage of development, which is very different individuals; it is not always proper on the same day, sand, in some cases it is never proper, although not apparently so to unprofessional judgment; it is most desirable, therefore, that Vaccination should be brought to the doors of the people by the medical men of the Island, and their certificates producable, as in England, in order to qualify for the Army or for insurance of life in public offices.

The exposed state of the public in the different Settlements led me to apply for a free supply of lymph from the National Vaccina lastitution, London, which has fortunately come to hand just in time to meet the energency; and I shall be happy to supply my professional brethers, on their application.

The public importance of the subject will, I trust, excuse me for troubling you to insert the above in your next paper; and which has fortunately come to hand just in time to meet the energency; and I shall be happy to supply my professional brethers, on their application.

I remain, &c.,
