To everybody who wants to understand that the Clothing we sell is superior in cloth, in make and in trimmings to what any other store in the city sells.

One big reason is because we buy so much that the biggest and best makers are satisfied to sell us and us alone.

Another big reason is that we pay spot cash for every dollar's worth of clothing we buy.

Another reason is because when we give a very large order to one firm, their expense in selling the order is very light, and they give us a special discount for that. These are all little reasons, but taken altogether they form a very big reason why we should get your trade. Don't forget that every dollar we save in discounts, means that dollar and the profit on that dollar to you. Now count up and see how much even an extra 10 per cent. discount will amount to on your year's clothing. When you have it figured out, come in and we'll prove your answer cor-
