Rev. Dr. Endicott at Wesley Church

The Rev. Dr. Endicott presided at Wesley Church yesterday afternoon, taking as his subject "The Development of the Christian Church in China." The preacher began his discourse from the advice quoted by William Carey, the collier, namely, "Is it true so many millions in the vast continent of Asia worship idols?" He resolved to tell the masses that were in darkness that the Saviour did not die for a section of humanity, but for the whole world. The preacher reviewed the condition of affairs in Western China, when he went there twenty years ago, and how it flourished since among the ten millions of people which were under the charge of the Methodist Church of Canada. The doctor explicitly told of the adversities encountered by the missionaries in a foreign land. He reviewed how the women stood at doors and bolted them and explained how dangerous and treacherous the men were. He told touchingly of the methods conceived by which to distribute the Word of God. The preacher related a very interesting story of the reformation of Wong, the opium victim. The preacher was of the opinion that in future, China will evangelize its own people by its native preachers. They can do it better than our people because of their smiles and customs.

Last night, Rev. F. R. Mathews preached on the career and usefulness of David Livingstone, whose centenary will be celebrated on March 10th. Owing to Dr. Endicott's engagement this week, the meeting set down for to-morrow night has been called off.

Breaks a Cold in a Few Hours—Pape's

First dose Pape's Cold Compound relieves all grippe misery.

It contains no quinine—be sure you get what you ask for—no substitute—beings in every home. Tastes nice—acts gently.

The Police Court.

A drunk and disorderly was fined \$5 or 14 days' imprisonment for 31 days and a third was discharged. In the magistrate's court two Water St. firms were summoned for permitting waste of water to take place on their premises. One firm was nearly heard and postponed till Friday to be concluded then. The other was finished and the defendant was ordered to pay costs.

An assault case was dismissed for want of prosecution. If you would have your eyes accurately tested and correct glasses fitted by H. H. TRAPNELL, Eyeglass Maker, 101-103.

To-Day's News.

Special to Evening Telegram.

NAPLES, To-day.—Rumblings at Mount Vesuvius, which had been persistent for some time past, have caused considerable alarm in the fear that an eruption may be pending. New cracks and fissures can be seen and a great mass of basalt has rolled down.

MEXICO CITY, To-day.—General Felix Diaz was accorded a great ovation at the bull ring, the first performance of the Matadors sport since before the bombardment of the capital. Ten thousand spectators stood and cheered lustily when Diaz entered his box in the arena, attended by his Secretary and Chief of staff and a few friends. The hero of the revolution was forced to rise time and again to acknowledge the demonstrations. Diaz granted the request of the Matadors to kill the bull and presented favors to the popular heroes in the arena. When the animals had been despatched at noon, President Huerta, General Diaz, General Mondragon, and General Blanquet stood on the balcony of the National Palace and reviewed a parade organized by the Felix Diaz Club in honor of the men who were most closely identified with the recent revolt. A feature of the parade was the rickless horse of General Bernardo Reyes walking behind the carriage in which reposed a painting of the General draped with crosses. Bared heads along the route evidenced the love and admiration of the people of the Capital for the dead chieftain.

CONSTANTINOPLE, To-day.—The Government appears to be apprehensive of a fresh revolution since the discovery of a conspiracy on Thursday, when several prominent officers and civilians, including a former military Governor, were placed under arrest. Young Turk leaders are nervous. The garrison has been increased by two regiments; the guards at the Porte has also been strengthened. Other measures were taken to enable immediate suppression of any attempt of a coup. Many officers have been dismissed from military posts. "This week" officers delegated by the army at Teheran, to make representations to the Government, were arrested to-day on their arrival at Constantinople. Severe weather continues, and the country is covered with snow. French and Italian steamers passing Charcut have been fired upon by Bulgarians. One Italian vessel was badly damaged and in consequence was beached. Reported British vessels attracted the fire of the Bulgarians.

BERLIN, To-day.—Emperor William is credited in connection with proposed increased peace footing of the German Army with the remark: "1912 was a year of sacrifices, but 1913 also be so for every one for the time is scarcely less critical than in 1813." First cost of Germany's increased armaments, according to a semi-official announcement is to be covered by an unprecedented general levy on property. German subjects throughout the Empire are to be called upon to contribute a lump sum in proportion to their possessions. Relieving houses, according to an official report, are to be asked to sacrifice their freedom from taxation, but persons possessing less than \$750 or \$12,500 according to the decision of Parliament, when it deals with the subject, are to be exempt from levy. Estimated \$25,000,000 as cost of the change published to-day. Generally accepted as reliable the proposal of a general levy is regarded as making the German army increase in value as much a national sacrifice as is the French extension of active service in the army from two to three years. Other taxation contemplated in order to cover the regular annual change brought about by increased force. Emperor William is reported as favoring both general levy and taxation.

PASSED, CAPE RACE.—The s.s. Viking passed Cape Race yesterday afternoon. She had a considerable amount of drift ice to contend with.

The utility of the Beach Hill new road has been amply demonstrated this winter. For the past two months the old road has been a sheet of ice and wholly impassable, and had the new road not been opened, very little freight could have been brought from the Beach. Next summer we hope to see the road completed. We presume the new Local Council will henceforth have charge of the public roads, and we are safe in predicting that if they can get adequate funds the Beach Hill and Fancy Hill and a few other hills, will be put in passable condition.

Mr. McGrath has placed four new pews in the choir of the R. C. Church. The pews are of high class and elegant finish and cost in the vicinity of \$400.

The S.S. "Euphrates" became caught in the ice off the Nova Scotia Co.'s pier on Saturday, February 28th. The steamer had 150 men on board, all bound to their homes at the head of the bay. The men landed from the steamer on planks.

The Dominion Co.'s new store and staff house are both now well under construction and the former building will be completed in the spring. The staff house which is just south of the new store will probably be ready about June.

Mr. F. W. Angel visited the Island during the month, to solicit shares in the Beach Hill tramway. The company is to be called "The Bell Island Transportation Co. Ltd." The capital required to install the plant is \$400,000. Already a large proportion of the required capital has been subscribed and the company expects to start work as soon as the spring opens. Those who have money to invest could not do better than invest in this concern as the Government has guaranteed 5 p.c. to the shareholders, and with the ever increasing trade of Bell Island, a much larger dividend shall no doubt be declared.

Mr. W. M. Dooley visited here a few days in connection with his new paper, "The Bell Island Miner." Mr. Dooley expects to have his paper issued in a very short time.

A concert, under the direction of Miss C. Nugent was given by the High School pupils at St. Joseph's Hall, in connection with the distribution of prizes. A fine chorus of performers and the entertainment was a decided success.

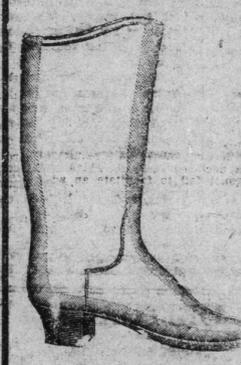

Getting Childish.

How are the mighty fallen! The little man whose utterances (according to himself) heretofore would be the talk of the clubs, societies, etc., is gone "daffy," as a friend facetiously says. Saturday he became hysterical, certainly incoherent, and what relevancy hockey has to the employment of a Northern boat only himself knows. The poor little man is getting childish and should be superannuated. Now, as regards the Northern boat, seems the Telegram's words have had effect. The Herald to the contrary notwithstanding, and to-day the Government are hastily confining and fitting out the Stella Maris to go as far North as possible. This will certainly jar the little editor who claims that because the "powerful" dreadnought Kite could not get along North nothing else could. As regards "rattling," what a subject for one who ratted from the Bond party, and is prepared to-morrow if he saw defeat ahead to rat from Morris.

In the matter of the Estate of Wm. Thorne, Deceased.
Samuel Thorne et al. vs. Eli Thorne and Richard Codrington, executor.
This was an application on the part of the plaintiff, that as the master has reported herein pursuant to an order made on the 23rd of January 1912, an order be made for the administration of the Estate. Kent K.C. was heard in support of the motion.
Gibbs, K.C. for defendant, consented, and it was order accordingly.
