### Not Stuck-on Itself.

The built-in—not stuck-on—tire like Dunlop Traction Tread is the only successful Anti-Skid. Manufacturers of the stuck-on type dare not make the corrugations big enough to prevent skidding without fearing to make them so big that they will destroy resiliency.

**The Cheapness of Satisfaction.**  
The cost of the safety which you obtain by purchasing Dunlop Traction Tread tires is insignificant in comparison with the price of neglect.

**Takes a Grip on the Road.**  
Dunlop Traction Tread grips the road. It doesn't matter where the road is or what it is made of.

**Success is Always in Evidence.**

We predict that Dunlop Traction Tread will become the standard Anti-Skid tire of this country. Watch the tires as the cars go by.
