Have You Given Your Stenographer a LINE-A-TIME?

WE have sold a number of them in the last month or two, and the testimonials we have received show the greatest enthusiasm over this little Machine that saves so much for the employer and the stenographer.

Were it not for the LINE-A-TIME hundreds of thousands of typists would have no prospect of relief from the nerve racking and health breaking practice of twisting their necks and shoulders, and straining their eyes a thousand times a day, over note books and record sheets.

Hundreds of thousands of employees would have to go on wrestling with the problem of how to increase the output of their typewriters without requiring more "work" from the operators.

The LINE-A-TIME has become widely popular with employers and office managers, not only as a money making, labor saving invention, but as a humane device that increases output by removing a condition detrimental to the welfare of the operator.

THE PRICE IS \$8.50.

We will gladly put in a LINE-A-TIME for a week or a month so that your stenographer can give it a trial. If at any time she does not like it, or you think it does not do all we claim for it, we will take it back and there will be no charge for the time you have had it.

"GOOD CLOTHES."

We all like to wear what we call "Good Clothes." Now good clothes are costly—not dear—but they become dear if they have to be discarded practically unworn. The Fresh Dry Cleaning Process meets the difficulty. We can afford to buy the best and most beautiful fabrics without being extravagant, because of their quality we can rely on being able to have them restored by this process to their original beauty quite often enough to enable them to be eventually discarded without a lament.

A New Novel by a New Writer.

The Honey Pot by Countess Barynska. It is a story of the stage, and never perhaps have the expectations and disappointments of the aspirant for a successful stage career been more naturally described. Two girls, Maggie and Lexie, hold the interest throughout. They are excellently contrasted. Maggie, the daughter of an actress, having been associated with the stage from her earliest childhood and influenced by its freedom, while Lexie has been brought up in refinement and wants a career for the use of her talent. It is not too much to say that Maggie, the lovable and loving girl who, with all her worldly wisdom, falls a prey to the man who captures her fancy, is a triumph of characterization. Natural and human she is the heart of the book; but hardly less interesting is Lexie's stubborn fight with its happy ending and the many intimate pictures of the life of the chorus girl. The whole story rings true. Paper, 65c.; Cloth, 90c.
