Manitoba's Life Line

son from the same district has the Nelson River and in Split Lake, where they had been engaged by a large fishing concern, the two decidtain first-hand information as to ac tual conditions in this part of the country for the young Icelandic fish-ermen of Lake Winnipeg, who are great believers in the northern port

"The channel was open right out to the Bay last winter, and never froze up," Capt. Anderson said. "It is never frozen over before the end of January or the beginning of February," he added, and towards the latter part of April. The currents generally started wearing away the ice, leaving the river comparatively free of ice in

Capt. Anderson was agreeably sur-prised with the splendid condition in which he found everything at Port Nelson, from the temporary lighthouse to the buildings in the town, piers and lighters. There are five steel lighters, all belonging to the Dominion government; three marine dredges; the "million dollar mystery" dredge; a stern wheeler which was used for hauling sand and gravel up the river to the docks; 20 barges and five large derricks, all in perfect shape, Capt. Anderson asserted.

Discussing the road bed, Capt. Anderson said that 60 miles from Kettle Rapids, coming towards the Pas, the rails and ties were in good condition, while the grade was in fair shape. The two bridges over the Nelson river, he declared to be a credit to the country. He considered that the Hudson Bay railway was one of the best roads in Canada, one straight stretch extending for 47 miles.

Four hundred men are at present at work re-tieing and levelling the road between the Pas and Kettle Rapids while improvements were also being carried out near Hudson Bay Junction.

Capt. Anderson was of the opinion that this rich territory would yet be the home of 100,000 prosperous people, but he believed that the road would have to be completed to give them a chance to get there.

BY LUNCHING WITH A PRIVATE.

COPENHAGEN-(A.P.)-Mr. Rasussen, the Labor Minister for De cent. of Cash Estates of \$5,000. tence, drove to some army maneoeuvers recently and on the way felt the need of a cup of coffee. He asked his chauffeur, a private, to pull up at the their all in five years. A widow nearest country inn. Arriving there, generally has no experience in he invited the chauffeur to sit at his is table and share the refreshment. On arival at the maneuvers the minister soon learned that scouts had already informed the general staff of the incident, and it was gently brought nome to him that discipline would suffer if the head of the army made it a practice to take his meals with

privates. Minister Rasmussen re-"Bless your soul, general, the fellow who drove me is a working ongineer in private life and I a linetyper, so you see we belong to the same class. Just fancy if you, general, had been my chauffeur, then I do not know how the dickens I should ever have been able to get a cup of coffee."

There are rumours of a few short skirts seen in Paris.

TO-NIGHT! e Hunchbac Notre D

PRODUCED IN FOURTEEN PARTS

Mass against mass—A throne rocked to its centre—A maid sentenced to be hung for a crime of which she was innocent—A mother grief distracted-All for the love of a woman.

See the burning of the Cathedral of Notre Dame, it teems with action, It is replete with incident. It tells a tender love tale. It charms the eye and the mind. Sensational. Stupendous. Thrilling and dramatic.

It is the greatest story with the greatest actors ever seen on the screen. Lon Chaney as the Hunchback is marvellous. The American nation has endorsed it as a mammoth master production.

Matinees at 2.30—Admission 20 cts. Night at seven sharp—Adnission 50 cts.

Jack Under Fine! WHEN DINNER WAS BLOWN

HIGH BY ENEMY.

Good stories of the battle of Jutland were related by Mr. C. G. Am- Swiss Glaciers mon, M.P., Parliamentary Secretary to the Admiralty, who broadcasted his impressions of the Naval Review.
They concerned the warspite, whose steering gear had been so damaged that she was steaming round in cirwhen he was nudged by a young rating attending him, who remarked, 'I reckon, sir, we will get a long spell vancing whereas in 1916, 63 out of approaching a steep hill. of leave out of this.' Almost immediately afterwards another shell crashed through into the kitchen, where the dinners had been pre-

Beware of the Novice

No new motorist should take to the road himself until he has mastered the following:

The confident use of all controls such as brakes, gear lever, electrical horn switch, and clutch, without having to look at any of them. The driver who has to search for his controls in an emergenty is lost.

The proper method of backing a cles under heavyfire. "A shell had made observations seem to show that the are completely lost when trying to show that the are completely lost when trying to swiss glaciers are receding. The adreverse, I watched a driver the other stated Mr. Ammon. "The captain was vance during the last ten years has day who took a quarter of an hour to

It might seem scarcely necessary to mention the last item, yet it is a

fact that many new drivers are completely ignorant of the rules of the rules of the road, having had no previous experience of traffic conditions -Daily Mail.

Road-Finishing Machine

DRIVEN BY TWO MEN.

A hand-operated road-tamping and finishing machines, has been developed for use by contractors. The machine moves on two tracks that constitute the form for the concrete. A shaft extending across the top of the machine is turned by two men, one on each side of the road.

Through the action of a cam, the tamper is given both vertical and lateral motion, insuring a perfect crown Two strike-offs, a tamper, and wood finishing belt, passing over the plastic mass leave the surfacing smooth and with the desired crown to the road.

Your mattresses should be turned nned and cleaned frequently.

FOR KIND CONSIDERATION.

It has been brought to the attention of the Newoundland Motor Association that there are several sand people in the city who do not own motor rs and who walk to Bowring Park on Sunday and lay afternoons.

It is a well-known fact that these citizens are red with dust in the fine weather and often attered with mud in wet weather, as however careful iriver may be, it is usually impossible not to raise st and sometimes it is impossible to prevent splashng when driving through the mud.

The Association has therefore decided to issue a rsonal request to Motorists generally not to use the thside Road on Sunday, Holiday and Half Holiday ernoons, thereby affording the many people in the who do not own cars an opportunity to walk to Park in some degree of comfort on Sundays and ys. (This request, of course, does not apply to ists living on the Southside nor motorists wishto call at houses on the Southside on these afters). This is an appeal to Motorists, not an order a demand. A little consideration is all that is ed and the Association believes that Motorists.

erally, are considerate.

Issued by the Executive and Road Committee. THE NEWFOUNDLAND MOTOR ASSOCIATION, P. E. OUTERBRIDGE, Sec'y.-Treas.
