In the course of a serimon at Twin Mountain on Surday last, Rev. Mr. Beecher said:—"A man must not take his name off the church book in case he gets into a flight. He's just the man to stay in the church if he feels that he is not fit to be there. Let him stay and learn something from his blunder. A man that doesn't know how to learn a lesson from his blunders is a man that is not fit to be a Christian. It is far better to know where you are apt to sin by your falls and your blunders. Happiness in feeling that there is a growth toward a better and a holier life; that is, growing to be a man in Christ Jesus."

An Exclisiman's Castle.—Mr. Al-

ing to be a man in Christ Jesus."

An Englishman's Castle.—Mr. Albert Grant, the donor of Leicestr-square, is having built a mansion which promises to be the finest in London, (Eng.) It is situated in the High Street, Kensington, and the buildings and ground cover an area of more than fourteen acres. The house is in the Renaissance style, and has a frontage of 200 feet. Some idea may be forned of the extent of the work from the fact that during the past two years 650 men have been daily emplayed. The total cost will exceed a million sterling. When completed, the house will contain a grand hall and staircase in white marble, a picture gallery and three dining-rooms en suite, a ball-room 85 feet long, and three stories of bed-rooms, reached by steam clevators.

There is no occasion for the surprise expressed in some quarters concerning the continua decrease of immigration to the United States during the present year. There is not even ground of surprise that thousands of new-comers to this "Land of Promise," have taken ship at this port, and returned to the countries of their nativity in Europe. There has never before been any year which showed such a sudden and large falling off in the arrivals, and there has never been a precedent for the return tide which set in near the end of last year, and has continued to the present time. We have the statistics of immigration to New York for the eight months which closed last Monday, and, by comparing them with those for the corresponding months of last year, it appears that the is rad that Mr. Oakes, the member for Digly, will make wy for Mr. Vail, who represent the same coupt in the Local Legislature. Mr. Ross has refused to take the Halifax (Olectorish), and it is said that Mr. Oakes will get the appointment.

FRUIT.—The successful growth of fruit this season had many drawbacks. If combination with the attacks of insects, whose ravages have been great, the weather has been very trying. Of apples it is thought the yield will not generally come up to the average; in some instanses, however, the crop is abundant. Plums are abundant and in fine condition. This year is what is known as the bearing one for all description of fruit. Peaches have turned out beyond the expectations in flavor and quantity. Pears have not been over productive. Grapes have

Walton's Gang Plough.—We notice that in addition to the first prize awarded to Mr. B. W. Walton, Fergus, at the Central Exhibition for his Gang Plough, it has taken two prizes at the Provincial in Toronto, this week. This is a pretty good proof that the Walton plough is the most popular of its class, and that it is the best and most popular plough of that description among farmers and those who have a thorough knowledge of the kind of plough most suitable for the farming community.

Sloves, Stoves,—Mr. John Horsman, the enterprising hardware merchant of this town, has added stoves and tinware to his establishment making it the most complete in Ontario. Stoves of all kinds can now be had of him. Farmers and all others requiring any would do well to call at Mr. Horsman's and see his immense stock of superior stoves with all the latest improvements. He assures us that he will keep none that cannot be fully recommended as the best to be had in this country or elsewhere. He has also engaged careful and experienced workmen and is prepared to execute all orders for eavetroughs, conductor pipes and every other kind of tinsmith's work.
