SEED CORN—We have an abun-  
dant crop of good hard Wiscon-  
sin No. 7 and Longfellow Corn  
which should be all used for seed  
owing to the scarcity of hard corn  
and to the fact that a large area  
was planted this year to the South-  
ern varieties which have proved  
too late for this district. As it is  
impossible for us to dry so much  
properly for seed, we are offering  
it for sale at a reasonable price in  
order to dispose of it at once.  
Why not procure and dry your  
seed corn now and save the worry  
next planting time.

Tulips for fall planting at Coughell's  
The big plate glass window in the  
Express Printing office was delib-  
erately broken in the early hours of  
Friday morning last, with some in-  
strument, for the glass was badly  
shattered and scattered for some feet  
inside the office. It was the work of  
some thief, the motive being to secure  
a lady's purse that had been found  
and was lying in the window in the  
hope that the owner might see it and  
claim it. It had several miscella-  
neous articles in it, but no money,  
and looked well filled, as if it might  
contain a tidy sum. The thief broke  
a hole large enough in the glass to  
put his hand and arm in and secure  
the purse. It was a most contempti-  
ble trick, for the large window is  
worth many dollars and is practically  
invulnerable, and is visited by his-  
tory, Mrs. G. W.  
destroyed.

A number of Aylmer people motored  
to London on Friday to see the  
comedy, "Bringing Up Father at  
Home."

Mrs. T. Hayden.  
Rupert Johnson received orders  
last week to report for duty at the
