King of Medicines

Scrofulous Humor—A Cure
"Almost Miraculous."
"When I was 14 years of age I had a severe
attack of rheumatism, and after I recovered
had to go on crutches. A year later, scrofula,
in the form of white swellings, appeared on
yarious parts of my body, and for 11 years I
was an invalid, being confined to my bed 6
years. In that time ten or eleven sores apyeared and broke, causing me great pain and
suffering. I feared I never should get well.
"Early in 1886 I went to Chicago to visit a
sister, but was confined to my bed most of the
time I was there. In July I read a book, 'A
Day with a Circus,' in which were statements
of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that
I decided to try it. To my great gratification
the sores soon decreased and I began to feel
better, and in a short time I was up and
out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used
six bottles, I had become 'so fully released
from the disease that I went to work for the

I believe the disease is expelled from my system, I always feel well, on sevelled from my system, I always feel well, is expelled from my system, I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sores formerly on my right leg. To my friends my, recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines." WILLIAM A. LEHR, 9 E. Railroad St., Kendallville, Ind.

The course lay from Geary's farm, con. 5, in a zig-zag direction to the finish opposite Ralph's on the same concession, the run being six or seven miles in length. Fences were plentiful and water-jumps in fair proportion, but no mishaps resulted although Huntsman Fulcher was overcome with the heat at the finish. The farmers and children along the route were out in full force to see the riders, and appeared to enjoy it heartily.

The residents of London dispose of 3,000,000 gallons of water per diem at present, and to supply this the hydraulic pumps are wholly inadequate, so that steam has to be constantly used to aid in the work, entailing an extra expenditure of about \$25 a day. The engines now pump 500,000 more gallons per day than the contract calls for. The programme was lengthy and decidedry meritorious. To attempt to discriminate would be a task both invidious and impossible, where so much merit, such pleasing costumes, so great evidence of extensive preparation, charming beauty and youth, splendid music and dever acting were mingled in such profusion. Those who participated and the ladies of the home have cause indeed for congratulation. THE OPENING ADDRESS.

The evening was opened with a magnificent rendition of Meyerbeer's Coronation March by the Symphony Orchestra, after which Mayor Taylor stepped before the curtain and briefly thanked the audience for its patronage. He then read the following sketch of the Protestant Orphans' Home from October, 1874, to May, 1891:

"The Women's Christian Association, in their work of beneficence through the city, found numerous cases of destitution. Among these were many little children unloved and uncared for. To meet the muchneeded necessities the ladies decided to establish a Protestant orphans' home, and called the first meeting in the City Hall to consider the subject on the 14th October, 1874. It was subsequently considered advisable that the home be made an organization separate from the Women's Christian Association, and on the 10th of November the first board of managers was elected. On the 12th application was made to the Ontario Government for an act of incorporation, under the name of the Protestant Home for Orphans, Aged and Friendless, A large brick building, 388 Ridout street, was leased, and in a short time was neatty furnished, a steward and matron engaged, and on the 1st oi December the home was formally opened.

furnished, a steward and matron engaged, and on the 1st of December the home was formally opened.

"At this time five little children were admitted, and formed the first small band, which experienced the loving and fostering provision of this benevolent institution. During the first year the home sheltered and cared for 125 persons.

"As the building leased was only temporary it was decided to purchase a property and erect a suitable building. After much deliberation the site on which "Our Home" now stands was purchased at a cost of \$1,645, and negotiations were entered into for the erection of the present beautiful brick building at a cost of \$12,000.

"On the 14th of September the cornerstone was laid by our first president, Mrs. E. H. Gregsten, and the building was completed the 1st of June, 1877. A special effort was then made not only to free the property from the existing debt, but to endow the home. This was accomplished to annual income of \$1,000, which, with \$400 Government grant, \$800 from Board, \$1,200 from door to door collections and with the city grant (of the past two years) and donations from various societies, assures us a revenue of \$3,500 to \$4,000. This supports 50 homeless children in health and comfort.

"In 1882 it was decided to erect an in-

fort.
"In 1882 it was decided to erect an infirmary. This was done at an additional cost of \$2,720.
"In 1883 a bylaw was passed that no more adults be admitted, the Government inspector objecting.
"We have just now been granted a new Act of Incorporation, dropping the word 'Arged.'

'Aged.'
"While we unite in thanking our friends

"While we unite in thanking our friends for their generous support in the past, yet, like Oliver Twist, we sometimes have to ask for more, which is particularly the ask for more, which is particularly the case just now, as many improvements are pressing upon us, such as a new furnace, also root and ice houses, which are absorbed to the control of th
