INFERIOR HAY AND STRAW SALES

LOCAL MARKET.

London, Monday, March 16. There were 10 leads of hav on the stand today, and sales were slow, as most of the loads were of inferior quality. Prices ranged from \$15 per ton for clover, \$16 and \$17 for timothy hay. One load of oats was offered, which sold at \$1 5 Sper cwt.

Mr. D. McIntyre shipped a carload of live hogs at \$5 per cwt. for selects and \$3 75 for fat sows. The market is weak, and it is not likely that prices will go any lower here, as there does ot seem to be any great quantity of nogs suitable for the market. It is the large receipt of hogs at Chicago and Buffalo which keeps trade to the low level on the Canadian markets.

There may be some mayle syrup of-fered at the market tomorrow, as some of the farmers collected considerable sap on Friday and Saturday.

How a Doctor's Bill Was Avoided

When the amount of money paid every year by a large family to the physician is footed up, it makes no small item of expense. But to entirely escape a doctor's bill for several years is an interesting accomplishment on the part of Mrs. Jessie Beggins, of Stella P. O., Ont., who gives this sensible advice: "Very frequently there are ailments in the family that can be avoided if "Nerviline" is used. When my children come in from play with a cough or slight cold, I rub their chests with Nerviline, put on a Nerviline Porous Plaster, and give them a stiff dose of Nerviline in hot water. They are cured at once. For cramps, internal pains, indigestion, Nerviline has never failed, and for outward use there couldn't be a better liniment. By using the Polson Remedies we have avoided doctors' bills for years. Others can do the same. This information is well worth cutting out and keeping for future
