

WILL BE ELECTED BY TRADE UNIONS

Government's Proposed Reforms Most Revolutionary Since Time of Caesars.

(Not since the ancient Roman Republic was changed into the Principate and Empire of the Caesars has such a revolutionary change in government been proposed as that outlined by the Grand Council of the Fascist party. Italy's black shirt dictators. Economic Soviets—just the opposite of Bolshevik Russia's Labor Soviets—backed by the iron discipline of the Fascists, will completely abolish political democracy, indicates Hiram K. Moderswell, interpreting the plan in this despatch.)

By HIRAM K. MODERSWELL, Special to The Advertiser and the Chicago Daily News, Copyright.

Rome, Oct. 10.—Reorganization of the Italian political and social structure has been virtually completed by the grand council of the Fascist party, whose session has just ended.

Although some of the measures decided upon are not yet in force, it is now certain that these will be the chief characteristics of the new Italian commonwealth.

1. The monopoly in wage negotiations for unions and employers' associations is recognized as belonging to the government, with compulsory awards by governmental wage tribunals. Some strikes will be punishable as crimes.

2. The senate will be elected partially—and eventually entirely—by the recognized trade unions, employers' associations and professional and other societies. Present senators, however, will continue to hold office for life.

3. Complete suppression of local self-government for municipal townships will appoint town managers for terms of five years, and with full powers, responsible only to the larger cities may receive the same system at the discretion of the government. In any event, their town councils will be elected in part by the trade unions.

4. All cooperative societies—which are tremendously important in Italy—will be consolidated under government control.

5. The chamber of deputies will be deprived of its power to initiate legislation, and its power to provoke a cabinet crisis will be limited or abolished. It will become a consultative body rather than a legislative body. A special legislative council will be appointed to study and draft legislation.

6. The judiciary and legislative branches of the government will be completely subordinated to the executive. According to statements of Premier Mussolini and other Fascist leaders, only persons sympathetic with the aims of the party will receive governmental employment.

7. All societies actively opposing or disturbing the activities of the government will be dissolved or placed under government supervision and control. Italians abroad agitating against the government will suffer cancellation of their citizenship and confiscation of their property.

These reforms buttressed by the Fascist black shirt militia, virtually place the entire government administration of Italy in the hands of the Fascist group, responsible to Mussolini. The Fascist assert this is necessary to the welfare of the nation under modern conditions.

EXPERT IN DISCUSSION OF COOKING PROBLEMS

McClary Cooking Demonstrator To Lecture in City Gas Building.

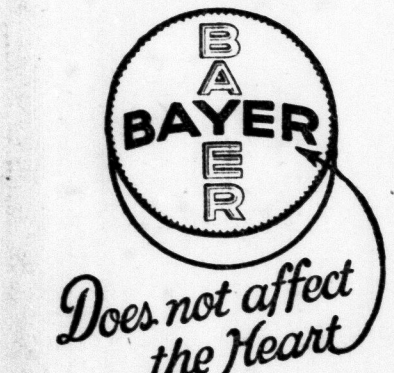

Miss Edith Bentley, who is well known to many Londoners, will be in charge of the McClary cooking demonstration at the City Gas Company this week.

Here is an opportunity for housewives to bring their cooking troubles to an expert and have suggested ways and means of improving one's cooking. Miss Bentley has travelled from coast to coast in charge of cooking demonstrations.

Her wide experience, ideas, and suggestions should prove of real value to all who attend the demonstration this week.

GENUINE ASPIRIN PROVED SAFE

Take without Fear as Told in "Bayer" Package

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Tablets of Aspirin proved safe by millions and prescribed by physicians over twenty-five years for

C.N.R. FLYER HITS CAR, SIX DEAD AT SCARBORO

Speeding Locomotive Brings Tragic Death To Toronto Families.

LONE SURVIVOR

Four-Year-Old Child Escapes With Serious Injuries—Crossing Open.

Canadian Press Despatch. Toronto, Oct. 11.—Six Toronto residents were killed this evening when the Canadian National Railway International Flyer from Montreal struck a motor car containing twelve families just west of the Scarborough Junction at the St. Clair avenue crossing a few miles from the city. The dead are: Arthur Nicholls, aged 49; his wife, Rose, aged 45; their four-month-old daughter, Shirley; Alfred Mould, aged 35, his wife and their daughter, Ruth, aged 12. The only survivor, Hilda Mould, another daughter, aged 4, is in the hospital suffering from brain concussion.

Little is known of what caused the motor car driver to endeavor to cross in front of the flyer, where the view is clear for some distance on either side, as the only survivor is still unconscious.

The motor car was demolished. The train was brought to a stop in about one hundred yards, and the bodies were found along the track, most of them badly dismembered by the wheels of the train.

The train was in charge of Engineer T. Gorman and Conductor Dickson.

The mangled bodies of the victims were removed to undertaking parlors on Danforth avenue, where County Coroner Demery will open an inquest tomorrow morning.

According to passengers on the train the flyer reduced its speed to about 35 miles an hour when approaching the intersection, and was travelling at this rate when the accident occurred. The shock of the impact was such that the air brake was jarred from its place, and automatically applied the brakes, bringing the train to a stop about 100 yards on the other side of the crossing.

FUSILIERS REGIMENT MANOEUVERS AT ARVA

Officers and Men Discuss Morning Drill On Return To City.

Tactical manoeuvres were carried out yesterday by the members of the Canadian Fusiliers, regiment, under command of Lieut.-Col. C. W. Little, M.V.O., M.C.

The regiment motored to Arva on Sunday morning, where the problems in infantry defence and attack made up the program in the forenoon.

The troops returned to London at 1:30 p.m. Lunch was served at the armories. The schemes of the morning were then discussed by the officers and men.

Lieut.-Col. F. Gilman, D.S.O., R.C.D., and Lieut.-Col. E. A. Seely Smith acted as chief instructors.

VICTORY IS PREDICTED FOR MAYOR SLOGGETT

Liberal Candidate in South Dorchester Heavily Received at Lyons.

St. Thomas, Oct. 11.—A Liberal victory was predicted in South Dorchester Saturday evening at a big meeting at Lyons. The crowd was enthusiastic in its support of Liberalism, and received the candidate, Mayor George H. Sloggett, with hearty applause.

Mayor Sloggett spoke of the very excellent record of the King government, its management of the C. N. R., turning deficits into surpluses, and at the same time improving its accommodation to the public, and the riding of the farmer of the cattle embargo, resulting in a wider market, and a new prosperity to the farmer, as producer, and the consumer.

Mayor Sloggett represented himself as a supporter of greater tax exemption for children. He spoke of Mr. Meighen's blue-rin talk by pointing out the tremendous increases in savings accounts as shown by bank clearings during the last few months.

J. B. Davidson, president of the Liberal association of Elgin county, stressed the importance of getting out to vote on the 29th of October, so that the candidate elected will be elected by a true vote of the people and not a minority vote.

James Thayer, a former Conservative, spoke of the tariff as it affects the automobile industry. In 1922 the people of the dominion paid \$10,000,000 extra for Ford cars by reason of the tariff, while salaries amounted to \$7,334,000, representing a direct loss to the people and country of \$2,666,000.

Charles Dancer and Mr. Miller of South Dorchester were also speakers.

UNUSUAL HARVEST FREAKS DISCOVERED AT WOODSTOCK

Special to The Advertiser. Woodstock, Oct. 11.—Three unusual freaks of the harvest season have come to light in Oxford county. Two are crops of raspberries which are now growing in Woodstock gardens, while the other is a decidedly overgrown potato weighing no less than three pounds. The "spud" is a clean, well-shaped tuber, and was grown by Thomas Harvey, East Oxford. Charles Sheehy, Graham street, and A. Small, Centre street, are the owners of the remarkable second crop raspberries.

Rob Frisco Man, Thieves Caught

By A. R. DECKER.

Special Cable to The Advertiser and the Chicago Daily News, Copyright. Vienna, Oct. 10.—The Budapest police have arrested part of the band which stole an amount of cash and a \$30,000 letter of credit from R. W. Watt, a San Francisco banker, at Innsbruck in the Tyrol. The thieves cashed \$5,000 of the letter of credit in a Vienna bank, and left the letter there "for fear it might be stolen." They intended to draw the balance of the letter, but were frightened and did not return.

CONCERT IS GIVEN AT REFORMATORY

Band of London Musicians Renders Program at Guelph Prison Farm.

Special to The Advertiser by Staff Reporter.

Guelph, Oct. 11.—Nearly 700 inmates, visitors and officers of the Ontario reformatory this afternoon heard Angelo Russo's concert orchestra of 60 musicians in a varied program of instrumental numbers.

The visit of the London musicians was arranged through Bernard Dawson, cornetist at Loew's theatre, and his father, Envoy C. W. Dawson of the Salvation Army here, whose work takes him to the reformatory.

Mr. Dawson has from time to time played for the prisoners at their Sun- afternoon services. When it was proposed that a number of musicians give a concert, Supt. P. Needlands, Sergt. A. McGuire and other officials of the reformatory offered their hearty co-operation.

The result was that after a week of careful planning, a number of the most gifted of other interested citizens of London, gave a never-to-be-forgotten concert.

At 3:15 o'clock the auditorium of the reformatory was filled to overflowing. The hall seats 500 comfortably, but places for an additional hundred were found for those who wished to enjoy the music.

At present there are 610 men in the institution. Practically all of these were present. The first three rows of seats were reserved for officials, staff and the citizens who had brought the players.

Envoy Dawson introduced Mayor G. W. Venige, who occupied the chair, and said that those within the walls had long anticipated the visit of the Londoners.

The opening number of the program was "Canada. Then followed a march, June and a Mexican Love Song received much applause, as did the well-known hit "Vandenberg."

Miss Violet Cassillo received prolonged applause in two whistling selections.

Upon the conclusion of the concert J. B. Spry, assistant superintendent, moved a vote of thanks to those who had contributed to the entertainment.

"You gift of music will have a twofold meaning to those who live within these walls," said Mr. Spry. "You, of course, will not recognize this quickly as we do here, as well as having delighted us with a splendid entertainment you have helped to keep away the barren side of life, and the hopelessness that is apt to be felt concerning life."

The Hon. Lincoln Goldie, provincial secretary, seconded the motion. He extended his thanks to the orchestra, to those who had lent their cars for the transportation of the musicians.

The following motorists lent their cars: C. E. Marley, William Armstrong, Mayor Venige, J. W. Chisholm, Fred Jackson, Harry Hayman, William Ball, A. N. Knowles, Jack Pudney, Mrs. E. Marley, Harry Morgan, Lester James and others.

Major Venige was given Harry Morgan and Fred Jackson for their assistance in arranging transportation.

W. LAMBTON LIBERALS WILL OPEN CAMPAIGN

Goodison, Senator Pardee and Hon. G. P. Graham Will Speak.

Special to The Advertiser. Sarnia, Oct. 11.—Great interest is attached here to the public opening of the campaign of W. T. Goodison, independent candidate for West Lambton, tomorrow evening at 8 o'clock in the Temple Theatre.

Hon. George P. Graham, minister of railways, will be the speaker, and will be supported by Hon. F. E. Pardee, who is taking active interest in the campaign in West Lambton, and by the candidates.

The city hall has been reserved in case an overflow meeting is necessary. It is expected many Conservatives will attend, figuring that some reply will be made to Wilfrid Haney's personal attack on Premier Mackenzie King last week.

The candidate, Mr. Goodison, has a very clear-cut statement of policy to make that will be heard not only by city Liberals, but by rural electors as well.

All reports from the latter point to the fact that Mr. Goodison's campaign is getting the united support of Liberals and Conservatives. The city vote is expected to give the Liberals an even break.

WINDSOR CYCLIST HURT IN AUTOMOBILE ACCIDENT

Canadian Press Despatch. Windsor, Oct. 11.—Tenacious Francisco, 133 Marenquette avenue, was knocked from his bicycle here today by an automobile driven by Gordon D. Wickett, manager of the Windsor Gas Company. Francisco suffered a possible fracture of the skull and other injuries.

BLIND COMPOSER COMES TO LONDON

Alfred Hollins of England Will Give Recital at St. Paul's.

Alfred Hollins, England's famous blind organist and composer, who is to appear in this city on Thursday evening, Oct. 22, in St. Paul's Cathedral, under the auspices of the Western Ontario concert series, managed by Harry T. Dickenson, was born in Hull, England, in 1865. Although born blind, the young boy never permitted this infirmity to affect his sunny disposition or to darken the earnest purpose of his life, which at a very early age became a determination to be a musician.

One of his earliest recollections is standing at the family piano, picking out tunes with one finger. At the age of six he heard a town band which gave him his first taste of orchestral music. Already gifted with a rare endowment "perfect pitch," which enabled him to name instantly any note or combination of notes sounded, young Hollins was sent to the Methodist Institute for the Blind at the age of nine, when he began to study the organ. At the age of 12 he entered the Royal Normal College for the Blind in London.

When he added the piano to his studies. Later the famous Dr. E. J. Hopkins took him as an organ pupil. So rapid was his progress on both instruments that he played one of Beethoven's piano concertos with orchestra at the Crystal Palace.

Played for Queen.

At the age of 16 he played for Queen Victoria at Windsor castle. Playing for royalty became a habit with Alfred Hollins, for he has also performed before the king and queen of the Belgians, the late W. T. Lincoln, where he triumphantly performed three piano concertos, by Beethoven, Schumann and Liszt.

At 19 Hollins secured his first professional appointment as organist of St. John's church, Redhill. At 20 he came before the public as a concert pianist, and has since been heard in his recitals at the Invention exhibition at Kensington. At the close of his high attainments, through a recital at Liverpool, he was introduced to the audience referred to him as "Alfred the Great."

Secure in the position thus achieved, Hollins began a series of concert tours which were eventually to take him almost around the world.

In 1886 he came to America with a quartet of pianists, and from the Royal college, his mastery attainments as a pianist and organist making a deep impression in New York, Boston and other cities.

Noted as Composer.

More study in Germany followed, under the famous von Bülow. In 1888 a second American tour as organist followed, with gratifying success.

At the age of nine years as professor of organ and piano at the Royal Normal college, during which time he also held a number of appointments as a pianist and organist making a deep impression in New York, Boston and other cities.

More study in Germany followed, under the famous von Bülow. In 1888 a second American tour as organist followed, with gratifying success.

SAVED FROM PATH OF RAGING MOOSE

Dr. C. B. Oliver, Chatham, Rescued in Northern Woods by Ross Huff.

Special to The Advertiser by Staff Correspondent. Chatham, Oct. 11.—Dr. C. B. Oliver of this city, while hunting in North- ern Ontario a few days ago, had the thrilling experience of being charged by a wounded and enraged bull moose, while he was rendered helpless by the jamming of his rifle. The animal was brought down by a shot from the rifle of a companion, ex-Ald. Ross Huff, when it was within ten feet of his rifle and trying to get ready for the final shot. Huff realized the situation and brought the animal down ten feet from its intended victim.

It appears that Dr. Oliver had shot at the animal, and although the shot went high it inflicted a terrible wound. The moose disappeared, and the party, composed of the doctor, Mr. Huff and two guides, started in pursuit.

Suddenly the moose appeared in front of them. Every member of the party fired, and two of the shots took effect, but again missed the vital spot. The animal then charged full speed in the direction of the doctor.

The doctor was working the ejector of his rifle and trying to get ready for the final shot. Huff realized the situation and brought the animal down ten feet from its intended victim.

PREMIER ENDS WESTERN TOUR

Returns To Ontario To Speak Today at Port Arthur.

Canadian Press Despatch.

Port Arthur, Ont., Oct. 11.—With his western tour completed Premier King has returned to Ontario, and with the exception of one meeting in Montreal it is in this province that he proposes to spend the rest of the campaign. Yesterday he spoke both at Rainy River and in Frances. Tomorrow he will speak at Port Arthur and Port Williams.

At both Port Frances and Rainy River he stressed the labor side of the government program. Addressing himself more particularly to railway workers at Rainy River he spoke of the proposal to regulate competition between the C. N. R. and C. P. R. systems, emphasizing that it was no part of the government to throw men out of employment. On the other hand the government's promise would tend to increase employment he contended.

Peter Heenan, Liberal candidate in Port Frances, is a locomotive engineer, and there have been a number of Liberal observers in Ottawa, confidence that Mr. Mackenzie King will have at least 137 members behind him in the new House of Commons.

Plans are being made for the renewal of the campaign in Ontario upon the return of the Premier to the east. Several important meetings will be held throughout the province. In Quebec there is a demand that Mr. Meighen enter the province to over-

come the resentment that is felt at the animal, and although the shot went high it inflicted a terrible wound. The moose disappeared, and the party, composed of the doctor, Mr. Huff and two guides, started in pursuit.

Suddenly the moose appeared in front of them. Every member of the party fired, and two of the shots took effect, but again missed the vital spot. The animal then charged full speed in the direction of the doctor.

Cheerless Camp of Hon. Arthur Is Chilled As Patenaude Sally Grows Dim Throughout Quebec

Sentiment Reflected at Ottawa Indicates Independent Margin For King.

ONTARIO WARMS

Return of Leaders Increases Interest—Quebec Tories May Appeal For Meighen.

By E. C. SUTHERLAND, Special to The Advertiser by Staff Correspondent.

Ottawa, Oct. 11.—As the end of the campaign approaches, Conservatives in the capital are abandoning hope of the return of their party to power at this election. The most optimistic calculations cannot do better than give it the second largest group in the house of commons. In the maritime provinces it is now recognized that Mr. Meighen will do well if he takes half the seats. In Quebec the Patenaude effort may capture five or six seats from the government. It is not expected there will be a greater change. Hence, even if the Conservatives get 50 Ontario seats—an outside possibility—they would reach the Manitoba boundary with only 59. Give them a chance of four seats in Manitoba and four in Saskatchewan and Alberta, and then, if they took seven out of British Columbia they would have only 84 altogether.

This impossibility of a Conservative victory appears to be having the effect of turning public sentiment more and more toward Mr. Mackenzie King, because of the widespread desire that the government that is elected should have an independent majority. People are recognizing that the hope of such a government lies in Mr. King.

Reports from various parts of the country during the last few days have indicated that leaders of the Meighen party are everywhere having trouble in their own constituencies. Mr. Meighen himself is not expected to carry Port Arthur in Vancouver Centre, G. C. McGee, giving Hon. H. H. Stevens one of the most interesting fights of the campaign. Even in Toronto there is a strong prospect of several Conservative candidates being beaten. From Montreal comes word that one of the best bets is that Mr. Patenaude will go down in Jacques Cartier.

The government, on the other hand, is increasing its prospects in every province. The four Prince Edward Island seats are expected to remain Liberal while there have been a number of Liberal observers in Ottawa, confidence that Mr. Mackenzie King will have at least 137 members behind him in the new House of Commons.

Plans are being made for the renewal of the campaign in Ontario upon the return of the Premier to the east. Several important meetings will be held throughout the province. In Quebec there is a demand that Mr. Meighen enter the province to over-
