

Eastern States.

New York, July 4.—It is reported that the instructions of the new Captain General De Roda are to carry out the policy of Dulce—that of conciliation—positively to control the volunteers, and maintain the supremacy of Spain, and that orders have been issued to prevent such atrocities as have recently been committed by Lesca. The effect of this policy upon the Volunteers has been to produce dissensions throughout the entire organization. Volunteers who have given in their adhesion to De Roda's administration are denounced as traitors.

RICHMOND, July 6.—The elections passed off quietly. Walker's conservative majority will probably be 40,000, with a majority in the Legislature.

CHICAGO, July 7.—The Republican special from Washington says a strong party is on foot to make Secretary Boutwell the next President.

Canada.

TORONTO, July 6.—The shareholders of the Royal Canadian Bank held a meeting and elected an entirely new Board of Directors.

Prince Arthur leaves England for Halifax on the 14th instant.

Europe.

LONDON, July 6.—There is an unusual depression in the cotton market in Lancashire. Several firms have suspended. Dispatches from Cork state that outrages by the Fenian organizations still continue. The police near Cork were attacked night before last by concealed ruffians, and several were badly hurt. Some arrests were made yesterday, on suspicion. The Cork Common Council yesterday passed a resolution calling on the Government to release the Fenian prisoners. A monster meeting was held yesterday. Speeches were made and resolutions passed against Sullivan's resolutions touching the release of the Fenians.

The Times has an editorial on the subject of the anniversary of American independence. The writer says the Americans now feel that they can speak of themselves and of their neighbours in a calm and dignified tone without treating of the old time. We may expect that most of the old acrimony will vanish. The American people ought to be in a friendly spirit after their monster peace jubilee. Such a prodigious demonstration in favor of peace, such a condemnation of strife, ought to have a softening effect on the most strenuous supporter of the Alabama claims.

Up to Sunday noon the Great Eastern had made 1264 knots from Brest, and paid out 1420 knots of cable.

The fourth was celebrated in the principal cities of Europe.

MADRID, July 3.—The silence which has been maintained concerning General Dulce's report, and his administration of state affairs in Cuba causes much anxiety.

A Republican manifesto has been published in Seville. Its publication was simultaneous with the departure from that city of a party of Republicans numbering 1000. It is rumored they have gone to Portugal, and will re-enter Spain through Estremadura. Troops have been sent in pursuit. A number of Carlists have been arrested.

LONDON, July 7.—The Times has an article on the Irish Church Bill. It says the Bill must become a law. This session of Parliament must destroy Protestant supremacy and establish religious equality in Ireland; but not attempt to set up a multiplicity of establishments. If ecclesiastical property in Ireland is to be put on a permanent footing we must recognize these facts and apply so much surplus as may be necessary to support homesteads for the Ministers.

The House of Lords last night resumed consideration of the Irish Church Bill. Lord Clifford was afraid of the amendment granting the value of the lands to Presbyterians. After considerable discussion it was withdrawn and the Archbishop of Canterbury moved an amendment to clause 29, that private endowments made since 1660 instead of 1660 be retained by the Church. He pointed out large endowments, which were made prior to 1660, and said there was no reason why they should not be dealt with in the same manner as those made after.

He thought the discrimination unjust and dangerous; it would shake the faith of the people in private endowments. Lord Hartley opposed the amendment on the ground that private endowments made prior to 1660 were purely inimical in reference to the Ulster Grant. He said it was in no sense at present an amendment. Bishop Peters supported the amendment, arguing that neither on the ground of justice or legal right, ought the Church to be deprived of those real endowments. Earl Granville proposed to grant a half million sterling instead, as the difficulty of establishing the legality of early endowments would absorb the whole value in litigation. Finally the Archbishop of Canterbury moved the amendment that all government lands granted by the Crown since 1660 be given to the new Church in a body. After a long discussion a division was had and the amendment was carried by 105 to 55. Clauses 30 and 32 inclusive were agreed to. Clause 33 was taken up; Earl Limerick moved an amendment providing that the poor rates be deducted from any rent charge sold in lieu of tithes. The Marquis of Salisbury remarked that this clause was an arithmetical puzzle and was evidently intended as a sop to the Irish landlords; but the bill was the most penurious and exacting measure ever devised. The House divided on the Marquis of Limerick's amendment, which was adopted by 91 to 54. Clause 33 as amended and clauses 34 to 38 inclusive were agreed to.

The trial of Overend, Gurney and others has been postponed until December. MADRID, July 6.—Conflicts have taken place at Seville between the troops and revolutionists. The latter have been dispersed and the city is comparatively quiet, though the excitement is intense. A number of torpedoes were found among the coal at the gas works at Esperitu. There were a large number of Republican demonstrations throughout Catalonia yesterday and the day before. Ferrara was shot [at?] twice, and has since been appointed Minister of Justice and resigned.

LISBON, July 6.—Advices from Rio Janeiro of June 10th, say the war news is unimportant; Minister McMahon is at Buenos Ayres and will sail for Rio at once.

Oregon.

PORTLAND, July 9.—The Fourth was celebrated in this city generally in grand style exceeding anything ever before seen in Oregon. A procession paraded the streets, and thence to the place provided for exercises. Every one was highly pleased with the oration of Geo. Francis Train. His allusion to the great future of Oregon was loudly applauded. A regatta for a fifty dollar silver cup, and the laying of the corner-stone of the Odd Fellows temple in the afternoon, and a fine display of fireworks in the evening, closing with a magnificent representation of the Pacific Railroad and Atlantic cable. The steamer Wright and Telfair sailed at six last evening.

Work has been resumed on the East side of Oregon Central Railroad. It is expected twenty miles will be in running order by January first.

The steamer Pacific sailed for San Francisco on Wednesday evening, and the Oriflamme sailed from San Francisco for Portland yesterday. George Francis Train left for the Sound and Victoria overland yesterday.

California.

SAN FRANCISCO, July 6.—Arrived 5th—Bk Powhattan, 14 days from Bellingham Bay; Bark Nestor, Utsalady; Bark Northwest Port Madison. Sailed—Steamer Alexandra for Alaska.

SAN FRANCISCO, July 7.—Gold in New York—135 1/4 @ 135 1/4. Wheat—quiet, and nominal Flour—nominal. LIVERPOOL—Wheat 10 1/2 @ 5s. Flour continues in fair demand, principally for local consumption. Sale of 2000 sacks Golden Age superfine.

The sailing of the steamer Active for Victoria has been postponed until Monday next.

Europe.

LONDON, July 3.—The Times of to-day says that the votes in the House of Lords last evening had the effect to render the Irish Church Bill more favorable to the established Church and more offensive partial in its provisions. Archbishop Cullen has addressed a letter to the officers of the Catholic college, saying that if the bill is mutilated by the House of Lords the nation must have a fuller measure of justice.

China and Japan.

HONGKONG, June 9.—A great and decisive battle has been fought between the Imperialists and Mohammedan rebels. The latter were defeated with a loss of 20,000 men.

The Chinese had offered further insult to foreigners.

The news from Japan is unfavorable. The civil war continues, and heavy fighting is anticipated.

Paraguay and San Domingo.

New York, June 29.—Advices from Ascension to May 14th state that the allies had commenced the march into the interior. They captured many prisoners on the way, and took the town of Yoling by surprise. The Paraguayans had abandoned their position at Pattiato.

Canada.

OTTAWA, July 6.—Reyferstein, Chief Clerk of the Receiver-General's Department, was before the Police Magistrate to-day. Evidence was shown that his speculations have been various and extensive. He has been committed to jail for trial at the fall Assizes.

Many years ago, the writer of these lines and an invalid physician, while visiting the Island of St. Croix for their health, experienced and witnessed many surprising and beneficial effects of the Balm there produced upon many of the invalids who were (like ourselves) seeking health; and, upon inquiry and investigation, obtained a full history of its medicinal virtues. He was delighted and surprised, and after his own recovery, which soon occurred, determined, if possible, to procure the sole right to manufacture and sell it in the United States.

The result of his labors was a glorious success for himself and suffering humanity, for the celebrated PLANTATION BITTERS was thus made known to the world. PLANTATION BITTERS being an article of real merit, founded upon new principles, and relying wholly upon the vegetable world for its medicinal effects, worked a rapid revolution in the history of medicine, and became as a household word all over the civilized world.

The cabalistic S. T.—1860—X. was a talisman of health, and the demand for the PLANTATION BITTERS soon far exceeded the abilities of the proprietors to supply. Notwithstanding the large importation of St. Croix Balm, made expressly for the compounding of these Bitters, the quantity was inadequate. It therefore became necessary that arrangements upon an extensive scale abroad should at once be made, and an agent was dispatched to St. Thomas for that purpose.

He was fortunate in securing and leasing several plantations on some of the largest and most productive estates on the island. Houses, stills and presses were erected as if by magic, which utterly astonished the natives. The services of experienced men and natives of the island were procured, and very soon the proprietors of the PLANTATION BITTERS were in a position to supply their laboratory with all the perfectly pure St. Croix Balm needed in manufacturing the GREAT DYSPEPTIC TONIC AND INVIGORATOR.

The above cut represents the natives crushing the sugar-cane and otherwise preparing it for the stills and presses. As an antidote to Fever and Ague, Intermittent and Malarious Fevers, Dyspepsia, and other kindred diseases, the use of the PLANTATION BITTERS is unsurpassed in the history of the world. Over five million bottles are disposed of annually. They are adapted to old and young, male and female. They are agreeable in taste, and always produce an immediate beneficial result.

MORE THAN 200,000 Persons Bear testimony to the Wonderful Curative Effects of Dr. Joseph Walker's CALIFORNIA VINEGAR BITTERS.

FOR INFLAMMATORY AND OBSTRUCTIVE RHEUMATISM AND GOUT, DYSPEPSIA OR INDIGESTION, BILIOUS REMITTENT AND INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS AND BLADDER, those BITTERS have been most successful. Such Diseases are caused by VITATED BLOOD, which is generally produced by derangement of the digestive organs.

Cleanse the blood, and you will have a "Bitter" that purifies bursting blood, wherever you find its impurities; cleanses it when you find it obstructed, and all sluggish in the veins; cleanses it when it is foul, and your feelings will tell you when. Keep the blood healthy and all will be well.

AGENTS. R. H. McDONALD & CO. IMPORTING WHOLESALE DRUGGISTS, Corner Pine and Sansome Streets, San Francisco, July 12th 1888.

Coughs, Colds, Rheumatism, Diarrhoea, Dysentery, and Fever.

"THE TIMES," OF INDIA, STATES THAT the discovery of Dr. J. COLLIS BROWN'S CHLORODYNE is a greater blessing to the human race than even the discovery of Vaccination. This remedy is invaluable in the above diseases, and is indispensable to Emigrants, Travellers, and Families, a few doses being generally sufficient.

DR. J. COLLIS BROWN'S CHLORODYNE.—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davanport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See "Lancet," December 31, 1864.

DR. J. COLLIS BROWN'S CHLORODYNE.—Extract from "Medical Times," January 12, 1866.—"Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus stigmatically popular did it not supply a want and fill a place."

DR. J. COLLIS BROWN'S CHLORODYNE is the best and most certain remedy in Cholera, Cholera, Cholera, Consumption, Neuralgia, Rheumatism, etc.

DR. J. COLLIS BROWN'S CHLORODYNE.—Extract from the General Board of Health, London, as to the efficacy in Cholera. "So strongly are we convinced of the immense value of this remedy that we cannot too strongly urge the necessity of stocking it in all cases."

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the plated name, and are deficient of the true properties of the only genuine, viz. DR. J. COLLIS BROWN'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in case Brown vs. Freeman, when the Vice-Chancellor stated that the story of Freeman being the inventor was demonstrably untrue.
