

SECOND DAY OF EXHIBITION

Good Sized Crowd in Attendance—Greater Interest Aroused Than Ever Before—Features of Fair

A crowd of such proportions as must have been exceedingly gratifying to the management assembled at the exhibition yesterday. All roads appear to lead to the fair. For a second day it was a pronounced success in point of attendance. To say that it was the same from all other viewpoints is almost a superfluous. The show proper, as represented by the main building exhibits, the exceptionally large number of side shows, together with the horse races and the bronco busting competitions, made up a programme of interest and variety as well as to carry pleasure seekers along involuntarily in a continued whirl of entertainment.

The exhibition may now be considered in full swing and it is confidently expected that the number entering the gates today, which has been declared a public holiday by His Worship Mayor Morley, will establish a new record. Tomorrow, too, the association's executive is looking for a specially large gathering. Apart from the fact that the list of special events is more varied than has ever been offered in previous years the anticipations of those in charge are based on the declaration of a public school holiday for that day by the provincial board of education. The "kiddies" therefore, will be the guests of honor. They, in company with their parents or guardians, are looked for almost en masse.

The management is planning to bring the event to a close on Saturday in grand style. In the afternoon there will be unusually large parades for the various horse races. Bland S. and Dr. B. P., the famous trotters holding the championships of the middle west and of the Pacific coast respectively, and who have recently won with credit in the northwest, will be among the entries in the different harness events. They are expected to smash the local track record. The racing events also are going to be particularly good. At night in the Horse Show building there will be a programme of such a splendid character that the accommodation of the pavilion should be taxed to its utmost.

Never before have the Horse Show sessions been of such interest as the case this year. For every night the programme offers exceptionally good entertainment, the class of the horses being especially notable. It is expected that several competitions will be introduced in the course of the week that will attract the attention of horsemen throughout the northwest. Both are jumping events. In one case an effort will be made to break the record established in 1908 in Victoria by Credential, ridden by William Shannon. The height was 7.2 inches of timber and 6 inches of brush. It has not since been equalled in the northwest. Mr. J. D. Farrell of Seattle, who will be remembered as the owner of Fox Catcher, a splendid horse which died recently and while in this city gave Credential a close run for the honors, has made an entry which he hopes will excel the mark set by the Premier in the horse on which he has placed his hope. He has outstanding ability and there are many who believe that he will beat the record. The other contest referred to is being arranged for the purpose of establishing a northwest mark for jumping over an "untied" bar. One of the features of the Saturday night session will be a grand parade of all blue ribbon winners in agriculture, horticulture and horse show classes in the Horse Show building.

Yesterday's Luncheon. A pleasant feature of the day was the luncheon tendered the judges and the exhibitors by the president and the directors of the association. It was prepared by the members of the W. T. U. who have charge of the fair grounds and was a credit to them. The guests of honor enjoyed themselves and took occasion to congratulate their hosts on the splendid show managed here, affirming that the stock classes, in the majority of instances, would be praiseworthy in any centre of the continent. Dr. Tolmie, president of the B. C. Agricultural association, occupied the chair. On his right sat Mr. W. Holman, a judge of dairy cattle and swine from Ontario, while at the left was Mr. W. Ballantyne, also a judge of dairy cattle. Among others present were Dr. Standish, who is responsible for the distribution of ribbons among the horses, and Mr. Elliott, the official presiding over the beef, cattle and sheep competitions. Many of the prominent stockmen of British Columbia also were in attendance. One of the first toasts offered was to the departments of agriculture, which was proposed by Mr. Munro Miller of Mount Tolmie, and responded in eloquent terms by Dr. A. W. Knight, in behalf of the provincial government, and by Mr. V. Bojesen, for the Dominion government. Mr. Andrew Laidlaw, of Spokane, Wash., did honor to the live stock breeders, referring to the importance of the industry to which they were identified and to the wonderful progress they have made in the past couple of years in the development of a higher response to the market. Four addresses in marked enthusiasm and all rounded with the words of Capt. Watson of Westholme, V.I., and Mr. A. H. Menzies of Pender Island, spoke for the agricultural interests, while Mr. J. T. Maynard of Chilliwack was the spokesman of swine breeders and Mr. J. T. Higginson of the same

place spoke in behalf of the sheep men. In his remarks Capt. Watson referred to the serious loss sustained by Mr. Howe of Vancouver in the death of Bright Eye, an exceedingly valuable mare, well known by all British Columbia horsemen. This message of condolence was unanimously endorsed. The judges' was proposed by Mr. Shattworth, a prominent exhibitor of Alberta, and was responded to by Dr. Standish and Mr. Holman. The latter both spoke of the Victoria exhibition in the highest possible terms. They said that it would be harder to find a better collection of blue blooded stock than that which was assembled in this city. It was a pleasure to them to note that the provincial breeders were improving their herds in such a marked degree. Their advice to them was to continue the good work. They had made wonderful progress, but still it was possible to go still further and the hope was expressed that another year would find them another step in advance. Mr. J. Guichen proposed "The Ladies" and Mr. N. Glimmer of Pender Island acknowledged the honor done the fair sex very charmingly. The assembly dispersed with the singing of the National Anthem.
