NEWSY NUGGETS.

Picked up Around Town by Nor-Wester Prospectors for the Information of Nor-Wester Readers.

Lt. Cochrane, R.N., is a guest of Capt. Boynton.

The man who invented Laggan is away behind time.

The ferry was started to-day. It is in a central situation on 15.

Mr. Lorne Looes, of the C.P.R. Construction Co., is in town.

Mr. Frederick Beaumont, son of Sir Frederick Beaumont, is one of the latest arrivals.

Mr. Snider has been appointed agent for the Massey Manufacturing Company here. The appointment is a good one.

A letter from McLeod suggests the idea of a "cricket week" next month. This we understand is to be carried out between the clubs of both places.

Mr. Wellington Murphy caught a mountain trout in the Bow Friday evening, which weighed 4 and a half pounds and measured 22 1/2 inches. Beef was the bait.

Dr. Henderson and Mrs. Henderson are among the latest arrivals. Everyone is pleased to see the Dr. Back, even the celebs whose ranks he has just deserted.

The thanks of the congregation of the Church of England are due to Capt. Boynton for his kindness in allowing the congregation the use of his fine hall for Church services.

Messrs. Breden, Corkright and Enwer were passengers on the last train for the Mountains. They go to swell the noble army of prospectors that are now "roughing it" at the front.

We give a large portion of our space to-day to the publication of the Mining Regulations. Every miner and prospector in the country should buy the NOR-WESTER and thus secure a personal acquaintance with the provision of the Act.

At a meeting of the Church of England committee held at Mr. Ramsay's office last evening a vote of thanks was passed to Capt. Steele for his kindness in allowing the congregation the use of the Fort orderly room for services.

A meeting was held at the Royal on Friday evening for the purpose of organizing a La Crosse club. There was a fair attendance. The promoters have called another meeting for next Wednesday evening at the same place. A good attendance is requested. Members of the Mounted Police are particularly invited.

Mr. Fitz-gerald Cochrane, late editor of the Prince Albert TIMES, was a pleasant visitor at the NOR-WESTER office last week. Mr. Cochrane was on his way to the front. During his stay in the mountains he will represent the NOR-WESTER as special correspondent. He is, besides being a journalist, a gentleman of considerable literary ability.

We took a look yesterday at the Toronto Mower, and Sharp's Rake, for which Mr. Snider is agent. The mower with its mechanical movement is a wonderful contrivance, with its malleable iron castings, and its knife that cuts as clean and as true as a razor. The rakes work either by hand or with a horse, and they carry out the economy of their design with mathematical accuracy.

Mr. Joseph Buchanan was before Major Dowling yesterday charged with having intoxicating liquor in his possession. Mr. Bleeker appeared for the defence. Sergeant Danne was examined and cross-examined and the case was adjourned till this afternoon at three o'clock. A full report of the evidence will appear in our next.

There was an enthusiastic meeting of the "knights of the willow" last night at the Royal, when the Club was organized and new officers elected. Dr. Henderson was elected president, Mr. Alex. Dow, secretary and treasurer, Mr. A. E. Shelton, Captain of the field. Next Saturday a match will be played between the Fort and the Calgary clubs. It will be an unusually interesting match.

Adherents of the Church of England will please take notice that hereafter services will be held in Boynton's Hall every Sunday at 11 a.m. and 7 p.m. The building is spacious and there is ample room. A meeting will take place on Friday evening next, at eight o'clock in the same hall, for the purpose of forming a choir. The new clergyman is expected to arrive here by the next train.

Mr. James Levy, manager of the Saskatchewan Gold Mining and Dredging Co., was a visitor at the NOR-WESTER office last night. Mr. Levy left this morning for the Saskatchewan with his outfit. The plant consists of a dredging machine, washer and retort complete. Mr. Levy says that he intends to give the north branch of the Saskatchewan a thorough prospecting this summer. Mr. L. has had considerable experience in gold mining in California and the eastern country, and he anticipates good results.

To show our eastern readers what a really cosmopolitan people Calgaryites are it is only necessary to state that there was at one time in the Nor-wester office on last Wednesday afternoon, Me-look-at-him twice, a brave of the Blackfoot tribe. Dr. Orton, M. P., Me-wink-at-him—once a boy of the Blood nation and J. Mackilcan Jr. of Hamilton Ont., a gentleman of the press—who is well known in Ontario. Mr. Swan of the Dominion Civil Service was also in the group. The only regrettable thing is that we didn't get the photographer to transfer the group to the immortal litimus paper.

Mr. Maw, Massey and Co.'s travelling agent, an old time acquaintance of the NOR-WESTER, left yesterday for Winnipeg. During his visit to this district Mr. Maw has been over a considerable portion of Alberta, the Edmonton section being the only point not visited by him. Mr. Maw is delighted with the section of country that he visited. He informed the NOR-WESTER that he saw as good soil between Calgary and Fort Me-Leod as he ever saw in Manitoba. Mr. Maw cannot be accused of being prejudiced against Manitoba, because he has interests there but he does not hesitate to speak his mind with regard to the capitalists of this district.

We are pleased to record that Mr. Swan has received the appointment of Homestead Inspector. Though our acquaintance with Mr. S. is only short yet it is favorable. The earlier settlers of the town speak highly of Mr. S. Mr. Swan was a long time resident of Mount Forest Ont., having, we believe, risen to important positions of trust there, which he filled with honor and credit, during a quarter of a century's residence in that town. The Government have we believe made a wise selection in Mr. S. and we hope that this appointment will comprise this district. We are sure that in all matters in which he is concerned, he will act honestly and impartially.

A short drive into the country with Mr. W. T. Ramsay, agent of the Canada and Northwest Land Co., on Saturday afternoon more than repaid us for the time. To say that we drove up gentle and hills covered with the greenest carpet of nature, and descended into the loveliest and most charming valleys is to admit that nothing but the pen of an Irving or a Scott could do justice to the picturesque beauty of the landscape along the Elbow. Mr. May's ranche and farm reposes in a valley that Rassela's himself might have envied. Both Mr. and Mrs. May received us with the hospitality of the English home, for home it is in every sense, suggesting that this a district in which a home may be made. Then bidding farewell to our guests we forded the surging but shallow waters of the Elbow and took an air line for the ranche of Mr. Livingstone who entertained us for some time with an interesting statement of the situation "from the settlers point of view". An account of our jaunt will appear in our next.
