JUST OUT The "Daisy" Folding Apple-Sorting Table

This is another of the famous "Daisy" Apple Packer's Outfit⁸ which is being put on the market this season.

It is light yet strongly built to meet rough usage. It folds compactly and can be readily carried from place to place in the orchard. It is thoroughly tested for strength and efficiency.

The table frame is of oak and all metal parts are of first-class malleable, thus being interchangeable in case of breakage. The cover is of No. 10 canvas.

An Article Every Packer Should Have This Season
