ABNER PICKET,  
Nassagawaya P.O., Ont.

Agent for D. A. Jones Co.'s supplies.

THE BEE-KEEPERS'

# REVIEW.

For February is now out. (It has been delayed by the serious illness of its Editor.) The special topic of this number is, "Temperature" as applied to Bee Repositories. So much information upon this topic has probably never before been gathered together into so small a space. The treatment is exhaustive, and it would seem that nothing more need be said upon the subject.

Among the contributors to this number are such men as R. S. Taylor James Heddon, H. R. Bowdman, T. F. Bingham, J. H. Martin, J. A. Buchanan, and C. C. Miller.

Several pages are devoted to Editorials upon a variety of live topics. There are also choice extracts from the writings of Prof. Cook, C. W. Dayton, C. C. Miller and others.

A detailed list of contents will not be published, as a copy will be cheerfully sent to all who ask for it. Price of the REVIEW 50 cents a year.

### THE PRODUCTION OF COMB HONEY.

A neat little book of 45 pages, price 25 cents. The REVIEW and this book for 65 cents. Stamps taken either U.S. or Canadian. Address

W. Z. HUTCHINSON,

Flint, Mich.

## FEEDERS.

We have quite a number of the ordinary Feeders yet in stock which we will sell at 40c each, per 25, \$8.75. These cannot go by mail, so must be sent by express or freight.

## IMPROVED CANADIAN FEEDER.

This is the Feeder spoken of on page 610 of Vol. III of the CANADIAN BEE JOURNAL. It is arranged with the float as shown in the engraving below. Holds 12 to 15 pounds of feed, and may be divided making two feeders if needed.

The price is 50c. each, made up; per 25, \$10.00. In flat each 40c.; per 25, \$8.75.

## WINTER FEEDERS.

For feeding in winter, or at any time when the weather is too cold to admit of feeding liquids.

Price each, made up.....	\$0 30
Per 10, ".....	2 75
Price each, in flat.....	20
Per 10, ".....	1 75

These are placed above the cluster, filled with candy which is made by taking pulverized or granulated sugar, and stirring it into honey nicely warmed up, until the latter will not hold any more in solution. Allow the mass to stand till both are thoroughly mixed. Then place in Feeders and set over frames, packing around nicely to keep in the heat.
