

weeks of October and the early part of November is the period during which the heaviest demand usually occurs. After that it is for the most part limited to the requirements for city consumption.

The receipts of the week amount to 6,500 barrels, of which 2,000 were from New York.

At auction, a lot of "Fox River mills" branded "Midlings," sold at \$1.30 to \$1.35, and another lot of "South Oshawa," similarly branded, at \$1.35. We quote.

Strong Superior	\$1.30 to \$1.35
Ordinary brands	\$1.00 to \$1.25
Oatmeal	1.15
Cornmeal	5.00

Oats show no signs of improvement, and can not be quoted higher than 40¢. to 45¢.

GROCERIES AND PROVISIONS—In groceries there is but little change, sugar and molasses are held firmly at previous rates. The importation of tea (probably in anticipation of an increase of duty) have been unusually large, and there are considerable quantities yet on the way. Provisions are unchanged.

The "Charlotte," one of the American ships which have been here repairing for some months past, left in ballast for a Southern port a few days ago. The others are rapidly progressing, and will shortly be ready for sea.

A fine new ship of about 1000 tons, named the "Katy Darton," has been launched from the yard of Mr. Flewellings, at Clifton and now lies at the Custom House wharf receiving her outfit. She was built under contract for Messrs. Troop & Son of this city and is a very beautiful model. Her dimensions are 156 feet keel, breadth of beam 35 feet. She is what is called a spruce ship, but other materials enter largely into her construction, for instance, the stem and stern posts are of oak the dead wood of lacquered, while the top sides, water-way, covering boards, stringers and keelsons are of pitch pine. She is diagonally caulked, copper-fastened 16 feet, and strongly iron-kneed throughout. The "Katy Darton" was built under French Lloyds inspection and classes 6 years A1.

A violent storm swept along the coast on Saturday night the 7th inst. The rain came down in perfect sheets, and the occasional gusts of wind were terrific. The steamer "New York," due here from Portland at 6 p.m., did not arrive till noon on Sunday, having sought shelter at Eastport.

BY TELEGRAPH

ST. JOHN, N.B., Oct. 10th, 1867.

FOUR markets but little changed, some small lot good superfine changed hands at 58.

The bulk of transactions in small lots at \$8.60 to \$8.75 for strong super, and \$8 to \$8.50 for ordinary brands.

Demand moderately active.

MONEY MARKET.

THERE is now an active demand for accommodation chiefly for produce operations, and the banks have been large sellers of Sterling Exchange in order to enable them to meet the wants of their customers. Discount rates have been at from 8 to 10 per cent. on short loans.

Sterling £100 orange has been rather pressed on the market, and rates for cash are from 1 to 1½ per cent lower than for discount customers.

GOLD has fluctuated somewhat, but the advance of last week has not been maintained, the closing rate being 143½. Greenbacks have been rather scarce and in demand at rates corresponding to the price of gold.

SILVER is rather more abundant, but quotations are scarcely changed.

THE various public sales which continued to be held in monopolized to a great extent the attention of buyers, and for exact information of transactions we refer to the reports at foot.

TEAS—At the trade sale at the store of Messrs. I. Buchanan & Co. on the 4th inst., the attendance of both country and city buyers was unusually good, and the bidding showed more animation than at any other sale this season. Nearly all the lots offered were disposed of at full prices, very satisfactory, we are given to understand, to the sellers. In some instances figures obtained were above the rates asked at private sales.

SUGAR.—There has been a little more animation in the market for this article, and holders are firm in their demands, previous quotations are fully obtainable.

RICE—Is steady at former rates with a fair demand. Stocks are very complete, though by no means more than an average.

SALT—There is considerable activity in this article; sales of large lots of coarse were made yesterday at 76c, and small lots are held at 75c to 80c. Stoved selling freely at 90c. Only one cargo of packing salt has come in this season, and has been sold at \$0.90 per ton.

FISH, AND FISH OIL—Messrs. James Lord & Co. report sales at auction and private of four cargoes of new-catch Labrador Herring at \$4½ to \$4½. They continue in active demand at about these rates. A lot of Bay Island sold at \$3½ to \$3½. Gibbed Shore are quoted at \$2.10 to \$2.25. Salmon sell at \$14 to \$15 per bbl. Dry Cod are in good demand. Sales at auction \$4½. The supply of good Cod is very short. Cod Oil, on the wharf, sold at 65c to 66c, and out of store 67c to 68c. Seal Oil: A lot of tins sold at 65c. Pale arm at 67c to 70c, with sales reported at former figure.

Trade Sale of Teas, Groceries, &c., at the Stores of Messrs. Converse, Colson & Lamb, Oct. 5th. J. Leeming & Co., Auctioneers.
