NERLICH & CO.'S NEW LINES.

JUST now Nerlich & Co. are opening up new lines of 25 and 50 cent fancy cups and saucers. Plates, porridge bowls, etc., in new varieties are also to hand and in full display.

Their special lines of glass flower-holders, as illustrated here, have taken wonderfully well, and a large trade has been done in them. Their slender and delicate shapes combine with the exquisite colorings of the glass to make them desirable ornaments for the flower season, while their low price places them within popular reach.

Water sets in baskets are not new, but are nevertheless good sellers. They have some excellent lines similar to those shown last season. This season of the year is just the time to rush this class of goods.

FLOWER-HOLDER

A line of shells, including trocus, conch, pearl snail, diamond snail, nautilus, clam, pearl trocus, magpie, turkscape, green ear, etc., are shown in three assortments. The first assortment contains 50 shells in 14 varieties, the second 100 shells in 21 varieties, and the third 200 shells in 29 varieties. These are exceedingly taking lines.

Shoes, swans and similar ornaments in cheap ware are usually shown only with glazed finish. This season they have introduced a handsome line with a bisque finish, and in pink goods with white ornaments. These little specialties combine neatness and cheapness.

Their travelers are now out taking import orders on a very fine line of whiteware goods, including whisk holders, photo holders, mirrors, card receivers, trinket and treasure holders and trays, glove, handkerchief and jewel boxes, etc. Fancy goods dealers should not omit inspecting their lines of these goods, and of their American fancy goods shown at the same time.
