### **Products/Services**

Diamond and tungsten carbide dental burs

### **Current Export Markets**

U.S.A., Europe, Asia, Latin America, Caribbean, Africa

### **Company Summary**

Beavers Dental, a division of Sybron Canada Ltd., was founded in the early 1940s to design, manufacture and distribute a line of dental burs which are exported worldwide. Originally made of steel, the company converted to tungsten carbide burs to meet the demands of high-speed instruments. Beavers Dental works in conjunction with leading teaching facilities to create new products. The company has developed numerous special purpose burs and has recently introduced a line of diamond burs.

### **Products/Services**

Overbed tables, bedside cabinets and dressers  
• Geriatric chairs • Intensive care and emergency stretchers • Electric and manual beds • Intravenous poles • Parallel bars

### **Company Summary**

Established in 1983, Bertec Medical Inc. specializes in hospital furnishings and accessories. The company profits from more than 70 years of experience, originally as a manufacturer of school desks, then expanding through company acquisitions into the medical field. Bertec's 4,000-square-metre (43,040-square-foot) manufacturing facility employs 65 people and houses design, engineering, manufacturing, finishing, distributing and marketing departments. Recently, the company introduced two innovative products: an electric bed and a geriatric chair. The chair features a gas-powered forward inclined back to assist the seated person in rising more easily.

*Height and elevation adjustments are controlled by three silent-running electric motors on Bertec's innovative electric bed.*
