Company/Product

Established in 1967, Roche Ltd. Consulting Group provides services in sectors such as: environment, agriculture, roads and transport, municipal infrastructure (aqueduct and sewage), port and maritime engineering, structural engineering, mechanical and industrial engineering, electrical engineering, control instruments, and geotechnical engineering. The firm also has expertise in hydrogeology, quality control of materials, pulp and paper, forestry and wood processing, mining, information services, project management, construction management, and technical assistance and training.

Areas specific to the environmental sector which Roche serves are: environmental impact studies, risk assessments, air quality control, health, occupational health and safety, social and cultural anthropology, and regional and urban waste management planning and development.

Current Geographic Marketing Activities

Roche's International experience includes work in Africa, Latin America, and Asia.
