

3. New Source Standards

The United States shall require major new VOC and NO_x sources in the PEMA to meet New Source Performance Standards as required by 40 CFR Part 60. This includes the following Subparts:

Subpart D (fossil fuel fired steam generators);
 Subpart Da (electric utility steam generating units);
 Subpart Db (industrial/commercial/institutional steam generating units);
 Subpart Dc (small industrial-commercial-institutional steam generating units);
 Subpart E (incinerators);
 Subpart Ea (municipal waste combustors);
 Subpart Eb (large municipal waste combustors);
 Subpart Ec (hospital/medical/infectious waste incinerators);
 Subpart G (nitric acid);
 Subpart K (storage vessels for petroleum liquids);
 Subpart Ka (storage vessels for petroleum liquids);
 Subpart Kb (volatile organic liquid storage vessels);
 Subpart EE (surface coating of metal furniture);
 Subpart GG (stationary gas turbines);
 Subpart MM (automobile or light-duty truck assembly plants);
 Subpart QQ (graphic arts industry: publication rotogravure printing);
 Subpart RR (pressure sensitive tape and label surface coating operations);
 Subpart SS (industrial surface coating of large appliances);
 Subpart TT (metal coil surface coatings);
 Subpart VV (synthetic organic chemical manufacturing industry (SOCMI));
 Subpart WW (municipal solid waste landfill);
 Subpart XX (bulk gasoline terminals);
 Subpart BBB (passenger and light duty truck tire manufacturing);
 Subpart DDD (polymer manufacturing industry);
 Subpart FFF (rotogravure printing of flexible vinyl or urethane products);
 Subpart GGG (petroleum refinery leaking equipment);
 Subpart HHH (synthetic fiber production facilities);
 Subpart JJJ (petroleum dry cleaners);
 Subpart KKK (onshore natural gas processing plant leaking equipment);
 Subpart NNN (SOCMI distillation operations);
 Subpart QQQ (individual drain systems);
 Subpart RRR (SOCMI reactor processes);
 Subpart SSS (magnetic tape manufacturing);
 Subpart TTT (surface coating of plastic parts for business machines);
 Subpart VVV (polymeric coating of supporting substrates); and
 Subpart WWW (municipal solid waste landfills).

C. For both Parties:

Taking into account the purpose of this Annex, the Parties agree that the regulations, guidelines and caps referenced in all of the commitments in Part III above are subject to modification from time to time as a result of domestic legal processes that may take place.
