

University of Toronto

Nov. 25 1921

My Dear Anne:

I am glad to have your letter with enclosure. The fault is not yours but that of the Oxford people who I feel is a colossal and unadvisable way that should have been done with precision and special courtesy. The prodding will do them no harm. I am commencing to the same place in Oxford where I made the complaint. The substance of your letter.

With kind regards
 Yours truly
 George W. Waring
