WIDTH OF SCAFFOLD EASILY SUFFICIENT

"We have no direct evidence as how he came to his death. Nevertheless we believe that it was accidental." This was the gist of the verdict which was returned by Coroner Graham's jury at the inquest last night at the morgue into the death of Harold Fenton. Fenton was a laborer on the new Veterinary was a laborer on the new Veterinary College now in course of construction at University avenue and Anderson street. Evidence showed that Fenton was working on a scaffold on the roof of the uncompleted building when he slipped and fell to his death. Several fellow-laborers saw the ac-cident, but could not determine the cause. The supposition was that the dead man became dizzy and lost his balance. It was pointed out trut the scaffold was sufficiently wide to ine the safety of the wor

ordinary circumstances. SACRIFICE SALE OF PIANOS. Fifty Cents a Week Will Buy a Good Square Plane.

Disobeyed Rules.
Coroner Smith's jury returned a verdict of accidental death at the morgue last night in the case of Arthur Benrose, who died as a result of burns received at the long Plano Company's factory a few days ago. It was brought out in the evidence that Benrose, who was one of the workmen, was in the act of melting wax, which was against the orders of the company, when he was fatally burned.

LIFE'S SUNSHINE

Gladdens Those Who Regain New Health and Strength.

When the glow of health comes back to sallow cheeks; when languid weakness gives place to vigor; when you notice some pale, exhausted invalid restored to active health—en-quire. More than likely you will find quire. More than likely you with the cure to have been yet another of the thousands already wrought by Dr. Williams' Pink Pills. Headache and neuralgia. St. Vitus' dance and witching of the 1mbs, indigestion and rheumatism; eczema and disfiguring eruptions and the ailments of growing girls and women all disapar when the veins are filled with e new, rich red blood Dr. Williams' Pink Pills actually make. Here is one instance among thousands. Mr. F. Ashford, Halleybury, Ont., says: "Some years ago I completed a lengthy term of service in India, the last three years being spent in the beautiful but treacherous Poshawar Valley. Ague and dengue fever were life, and aithough I was fortunate enough to escape a severe attack of either, on my return home it soon became apparent that the enervating climatic conditions had left their ravages on my constitution. In short, kritability, a general anaemic condi-tion and an indefinable nervousness. Life had lost its zest, work became impossible and companionship intol-grable. It really seemed that I was swiftly passing to that stage where Lervousness ends and insanity begins, when by chance I read an advertisement of Dr. Williams' Pink Pills. I confess I was skeptical of them doing what doctors had failed to do, but concluded that the cost was small and perhaps the chance in their favor, and so decided to try them. To hay joy there was soon an improve-ment and a continuance of the treatment effected a complete cure. I am now as fit and as healthy as any man and an ever grateful that the lucky perusal of an advertisement brought by my notice the wonderful curative by present of Dr. Williams' Pink Pills." wall at 50 cents. Supersedes Massage As Wrinkle Remover

(The Woman Beautiful) Many women regularly visit the beauty specialist to have their wrin-kles ironed out with the help of hot

applications, cold creams and massage. Most of us realize that there comes a time when no amount of persuasion of this sort will avail. This process of "wrinkle removing" is wrong in principle. Both the hot water and the massaging tend to expand and loosen the skin, besides softening the mus-

cular foundation.

The very opposite result should be aimed at. The tissue should be strengthened, the skin tightened, so there'll be no room for wrinkles. The best known preparation for the purpose can be made at home by dis-solving 1 oz. saxolite in 1-2 pint witch \$474.25 hazel. Use as a wash lotion. The effect is really marvelous.
