Dear Sir,—We, the undersigned, have
learned with regret that you have resign-

ed your position as city passenger agent of the Richelieu and Ontario Navigation the American contraito's first visit to To-

Company.

During the past thirteen years you have held your position with credit to yourself and to the complete satisfaction of the traveling public, and while your new position may afford opportunities not possible in your old one, we regret your leaving Montreal.

Wishing your every success and prosperity in your new life and with every good wish, we remain,

Yours sincerely.

Tonto, and she was given a generous reception. Her name was thrice on the proparally but she responded to several recalls. She made a favorable impression. Her numbers were happily chosen, the classical ones showing her power and strength of character and force, the lights, the flexibility of her voice and the charm of her person. The range of her voice is large and her articulation distinct. Owen A. Smily gave a number of selvetions with his inimitable verve. To complete the construction of the mills and the development of the water power, the present issue of Preference Stock is made. \$400,000 of 7 per cent. Cumulative Preference Stock has been authorized to be issued

"For every TWO SHARES of 7 per cent. Cumulative Preference Stock subscribed for there will be allotted, by way of bonus, THREE SHARES of fully paid Common Stock." The original Directors have already subscribed two thousand five hundred shares of 7 per cent. Cumulative

Preference Stock, at the same price and upon the same terms and conditions as the subscription to this issue is now offered to the public, so that all subscribers to the Capital Stock of the Company stand upon the same footing. The Company, having acquired all the rights and privileges of the original Grantees from the Crown, as set forth in a certain agreement, dated 21st September, 1899, together with the Water Power on the Spanish River, have now matured their plans for the construction and operation of extensive Pulp Mills on the property.

The reports of expert explorers as to the quantities of pulp wood on the territory described in the concession warrant the Directors in stating that the mills and any extensions thereof can be supplied to the full requirements A Number of Young Military Men of their producing capacity. The reports of the civil and hydraulic engineers show that the mills when completed will have sufficient water

power at all seasons of the year, from the proposed development, to maintain the full running power required by the nery. Their reports also state the cost of construction and equipment of the proposed mills—the whole cost be-Ottawa, Feb. 19 .- (Special.)-Militia ord-Montreal Gazette: Mr. H. The manufacturing requirements—raw materials, water power, shipping facilities and volume of productionbeing assured, the cost has been calculated with as much care as possible from the best information obtainable

As the demand for pulp is increasing, the sources of supply are becoming more and more limited, and it is be lieved the output from these mills can be profitably sold on a contract rate in the markets of Canada, the United The only contracts entered into are with the original owners of the water power, who, in lieu of cash value of

the same, are to receive Common Stock of the Company, as agreed upon between the owners and the Company. The original grantees are transferring their concessions from the Crown to the present Company, without consideration and free of any charge whatever other than the conditions mentioned in the agreement with the Crown. The Company has received from responsible lumbermen offers to cut and drive the pulp logs to the mill for \$3.50 per cord. The cost of making the pulp from the logs has been found, from actual experience of other mills,

to be from \$4 to \$6 per dry ton. The selling price of dry pulp ranges from \$15 to \$17 per ton, f.o.b. mill. The Company's engineer estimates that when the proposed mills are in full operation the production will equal
