THE LONDON MUTUAL Lowly Phillies Lead in FIRE INSURANCE CO. Games Won On Home Runs

Defeat Turned in Victory Nine Times by Upside Down Leaders of Nationals.

Totals 44 Totals By Ernest J. Lanigan.

Hard, but not impossible, task, to find some way in which the Phillies surpassed the other seven National League clubs of 1920. The team Gavvy Cravath led, Mike Kelley refused to lead, and Bill Donovan will lead, managed to win more games with home run hits last year than any of its rivals, but it did not happen to have on its payroll the athlete who kicked in with the greatest number of timely four-baggers. That athlete was Austin B. McHenry of the Cardinals. He broke up three battles with belt line blows.

Forty-four National League games last year were decided by homers, with the Phillies capturing the most in this manner—nine—and the Braves and Giants losing the most—nine. The flag-winning Superbas got half a dozen decisions through hits for the full distance, and lost three verdicts in this way.

The scores of the games on the senior some way in which the Phillies sur-

tance, and lost three verdicts in this tance, and lost three verdicts in this way.

The scores of the games on the senior circuit decided by home runs in 1920 ranged all the way from 1 to 0 to 15 to 4. Incidentally, a homer made the Brooklyns National League champions. This honor wasn't manufactured by a Superba, but by a Brave—Norman D. Boeckel. Toney's rap in the ninth inning of the second game of the double-header with Giants, on September 27, 10ff Bill Ryan, made it a mathematical impossibility for said Giants to overhaul the Superbas.

The pitchers losing 1 to 0 games on circuit drives were Eppa Rixey of Philadelphia, on June 17, to St. Louis, and Bill Doak of St. Louis, on June 18, to Philadelphia. Austin McHenry and Walter Tragesser shattering the two deadlocks.

HOCKEY GOALER DIES JUST BEFORE GAME STARTS

Spring Hill, Mass., Jan. 14 .- Daniel Angus MacDonald, goalkeep for the Spring Hill hockey team, and in the rink here tonight of heart for a few minutes before the game tween the Amherst Athletic Club and Spring Hill was scheduled to commence. The local team was having a practice before the visiting team arrived when MacDonald expired. He was about 35 years of age. The scheduled game was called off.

Bronchitis is generally caused by neglecting a cold, or exposure to wet and inclement weather. It begins with tightness across the chest, difficulty in breathing, and a wheezing sound omes from the lungs. There is a raising of phlegm, especially the first thing in the morning. This is at first white, but later becomes of a greenish or yellowish color, and is occasionally streaked with blood.

On the first sign of bronchitis you should check it immediately by using Dr. Wood's Norway Pine Syrup, there-by prevent it becoming chronic, and perhaps developing into some more serious lung trouble.

Mrs. Brice Culham, Sheffield, Ont., writes: "In December, 1919, I was very sick with bronchitis, and had to stay in so I got a small bettle which nelped me very much; I then got a 60c size, and it completely relieved me. I cannot praise 'Dr. Wood's' enough for what it did. Two of my neighbors are now using it

On the Howrah bridge across the Hooghly River crowds waited for the first glimpse of the veiled moon; then with one voice cried out: "Isko Chhordo; Chhordo!" "let it go, leave it." Before dusk, the river was thronged with bathers, as bathing during an ecipso is considered a soulsaving act.

EVERY INDUSTRY IN INDIA HIT BY WAVE

Calcutta, Jan. 14.—India information Bureau.—A general strike wave has been sweeping over the industrial sections of India, affecting every industry. The hoor situation in Bombay city is reported to be growing more serious. The strike of the postal and telegraph workers of the street railwaymen and of the gas workers still continues. A summary of the situation shows that the postmen have been on strike for 60 days now, gas workers for 50 days and street railwaymen for 40, and that the condition of the strikers is serious. Recently a new strike of 2,000 milkmen was declared, and Bombay's milk supply cut off. The city's business interests continues to be disturbed.

In Madras a lockout of operatives of the Buckingham Mills has been in progress for four weeks. The mill owners have announced that 1,500 of the

ers have announced that 1.500 of the 5.000 strikers have been permanently dismissed. They offered to take back the other 3,500 at an increase of 50 to 75 per cent in wages, beginning with the new year. Latest reports indicate that the mill owners' offer has not been accorded. CHICAGO, Jan. 14.—Wheat averaged lower in price today, largely as a result of slackening of export demand The close was heavy at ½c to 2c ne decline, with March \$1.77½ to \$1.77½ and May \$1.70 to \$1.70½. Corn lost ½d ½c, cats ½d ½c to ½c, and provision 12@20c.

Although bulls in the wheat marke made some headway for awhile, owing to news that rain was an urgent need for the crops of India, the strength which developed failed to prove lasting. Famine reports from some provinces of Indian were also without much permanent influence on the market, one reason being that, despite the famine India was credited with having shippelast week to other countries 500,00 bushels of wheat, mostly to Grea Britain. On the other hand, the amount of export business noted in the United States today appeared to be far less than has been the rule of late, and it was said France and Germany had been buying Argentina to the extent of one million bushels. Gossip was current one million bushels. Gossip was current, too, that enlarged domestic flour trade was being taken care of chiefly from wheat already on hand at the mills.

Industrial conditions, as outlined by competent authorities, dwelt on wage reductions and further curtailment of production, but the mercantile situation, especially at important centres of distribution, offered ground for encourage, ment. The most hopeful development was the pronounced relaxation manifested by the money market. Call loans dropped to six per cent in response to liberal out-of-town offerings at a figure considerably under the local rate and a fair supply of time funds for the shorter dates was obtainable at 6½ to 6½ per cent. Foreign exchange cancelled some of its recent advance, which seemed to originate largely from an overextended speculative position, especially in British and French bills. Little additional gold was received, but advices from London suggest that last year's steady inflow is soon likely to be resumed.

OF GENERAL STRIKE

In Calcutta, 5,000 coachmen have warned their employers that they will go on strike unless their salaries are increased. Men employed in the Rangoon arsenal are reported to be on a strike, demanding higher wages because of the high cost of living.

One strike, that of the stevedores, has come to an end, but it is reported that another of great magnitude has begun in the coal fields. This is regarded as the beginning of what may become a general strike in the collieries. India already is suffering from coal shortage.
