

The Cool Man

is the one who slips in and buys a cool suit as soon as "Old Sol" hits it up in the "ninetys."

Last week we made a lot of "cool men" from our stock of light two-piece suits, and still have enough left to do the same for you and others who have not had the time or chance to get fitted "coolly."

\$10.00, \$12.00, \$15.00 and \$18.00 is all you need to do the trick.

Some Men do it This Way

Buy a light coat for say three or four dollars and a pair of white duck pants for \$1.25 or \$1.50, add say, \$3.00 to \$5.00 or \$6.00 for a silk shirt and you have a swell cool outfit for a small outlay.

PLOWING CAMPAIGN TO BOOST ACREAGE ONTARIO CROPS NOW LOOK WELL

Government Will Operate Fifty Farm Tractors Until Frost Comes. Weekly Government Report Shows All Grains Are Promising Well.

DEMONSTRATION GIVEN Resources Committee Saw Machines at Work on Neilson Farm.

Members of the Ontario Department of Agriculture and of the organization of resources committee witnessed an interesting demonstration of plowing by means of tractors at the Neilson farm, Daves road, yesterday afternoon. Two machines were in use under skilled operators and demonstrated to the satisfaction of all the efficiency of the tractor in this particular branch of farm work.

The Ontario Government introduced the tractor in the early spring in an effort to enable farmers to extend their work of production to the utmost, and so successful were they that beginning next week the government will have in operation sixty such machines, which will work in various parts of the province until frost harkens the ground in the late fall.

The demonstration was held yesterday in a field on which a hay crop had been recently cut. The ground was hard and dry, but despite that drawback the machines were able to turn two furrows, each ten inches wide and six deep with ease, and even when a third plow was added the work was continued without difficulty, despite the added strain placed upon the engine. The machines traveled at the rate of approximately two and one-eighth miles an hour, and under favorable soil conditions can plow five or six acres in ten hours. Kerosene was used as fuel for the engines about one and one-half gallons being required for each acre plowed.

More Land Cultivated. Dr. G. C. Creelman, commissioner of agriculture, stated that as the result of the use of farm tractors in plowing the land there was more land under cultivation this year than a year ago, although he was unable to state the exact acreage. But still in Ontario we were 500,000 acres short in our land cultivation. Farmers, he said, had chosen the same method of putting the land to use and had converted it into pasture, but the live stock of the province had not been appreciably increased.

"The government desires," he said, "to get as large a percentage of this land ready for fall wheat as possible. Fall wheat is a profitable crop in Ontario now. We further desire to reclaim this land for cultivation, and we are endeavoring to do this by the use of the farm tractor."

Tractors serve two purposes. They enable farmers to get a large amount of land ready for wheat this fall and in a measure make up the shortage of land in the province. They demonstrate the possibilities of the tractor to farmers in various parts of the province.

Tractor Clubs. He added that it was hoped that farmers, realizing the possibilities of the tractor, would purchase them individually or by clubs of four or five. The machines now in operation are under favorable conditions from eight to ten acres in a day as compared with one and one-half acres, which is the capacity for one man and a team.

Those present yesterday were the following: Dr. G. C. Creelman, C. F. Bailey, assistant deputy minister of agriculture; W. R. Rolfe, W. H. Sharp, W. Rundle, Dr. Riddell, W. J. Bell, of Sudbury, and others.

LOSS IN REVENUE. Prohibition of Race Meetings Means Loss to Government. As a result of the closing of race meets in the province until the close of the year the provincial government will be deprived of a fruitful source of revenue. The license fee of \$8,750 for each race meet at the eight race tracks within the province, as well as the amusement tax upon admissions to tracks, will be lost. The amusement tax alone for the three months of racing this year will, it is expected, exceed \$100,000.

EDITH COPELAND REMANDED. Edith Copeland, the maid in the Ellis home who figured in the Cook inquest, and who was remanded a week ago on a serious charge, appeared in the women's court yesterday morning charged with assaulting Mrs. Henderson. Mr. Henderson is an aunt of Florence Cook, the girl who died, and it is charged that Edith Copeland kicked and hit her during a discussion in the Ellis home prior to the police investigation. Magistrate Denison remanded her until the 7th.

WILLS PROBATED

The executors of the estate of John P. Medler who died July 6, leaving an estate of \$65,440 have been granted probate. A life interest in \$14,000 is bequeathed to his wife, Mrs. Medler, and a life interest in \$5000 is bequeathed to a sister, Mrs. Jean. A nephew, John M. Kinnear, is given \$8000, two nieces, Mabel and Margaret Kinnear, receive \$1000 each, and a sister, Edith Medler, receives \$1000. The residue upon the death of the wife and the \$5000 will be given to the Methodist Church.

Following is a summary of weekly crop reports made by district representatives to the Ontario Department of Agriculture: Some fields of winter wheat and rye have been cut and are yielding well. Spring wheat is also promising a good yield, and like all the spring grains will have plenty of straw. The midge has been doing injury to the growing wheat in a few of the counties in the western half of the province, more especially in Welland and Haldimand, the damage to the crop ranging from 5 to 25 per cent. in some fields, although not averaging more than 7 per cent. in any one district. Barley is ripening rapidly, and will give a high yield. Oats are also doing well. Peas at present are looking better than for years; but the hot, dry weather will be their testing time. In the heavy bean raising County of Kent that crop is likely to turn out well.

The week of clear sunshine has been ideal for haying. Both clover and timothy have been got in under ideal conditions, and will be of much better quality than last year's cut. Prospects for clover seed are said to be promising.

Roots, where properly cultivated, are looking fine, and all classes give promise of at least an average yield. Early potatoes are doing well, but blight is threatening some of the later varieties. Sour cherries have yielded well, and raspberries are plentiful. Early field tomatoes are now on the market. The plants have made vigorous growth.

Live Stock Good. Live Stock—Live stock, especially young animals, are reported to be in excellent condition. There has been a decline in values, running about 75c per cwt. in the case of market cattle. The week of intense heat has told upon pastures, and the flow of milk has slowed up. It is now better than the average for the time of year. The fly is becoming very tormenting to cattle. Hogs have slightly decreased in price; marketing is about as usual.

Farm Labor—The frequent rains of the latter part of spring and early summer, which delayed the planting of corn, roots and other late field crops and prevented hay cutting at the normal period, have been followed by a week or more of torrid weather which is hastening the ripening of grain, and is causing the overlapping of the haying and harvesting seasons to such an extent that farmers are almost in despair of securing adequate help to get in the crops at the right time and in the best condition. Much disappointment is being expressed at the slow response so far of men from the towns and cities to the help that was expected on the farms during vacation. In Halton women are working in the fields, driving horses on rakes and mowers, and also on corn cultivators.

SCORE'S DUCK TROUSER SALE

The two days' special selling of these high-class duck and cream worsted cloth trousers provides a rare opportunity of appreciation or faith in the gentleness of the Score's duck trousers. So. And if ever a summer comfort need was emphasized, it is surely has been these past few days. We are clearing our stock of duck trousers, regular \$12.25, for \$8.50, and our lines of fine English, serotated trousers that are counted superior value at \$7.50 are selling for \$5.25. Our toggery shop is a most excellent introduction to very high-class stocks of exclusive haberdashery, and most moderately priced at that. R. Score & Son, Limited, tailors and haberdashers, 77 King street west.

A TERMINAL STORAGE WAREHOUSE HERE NOW

Large Building Opened on West King Street for Storage of Merchandise.

The Terminal Storage Warehouse Company, of which Col. W. S. Dinick is president, has opened a large warehouse at 588 West King street, which extends thru to Adelaide street, a depth of 220 feet, with a frontage of 150 feet, and has a total floor space of over 4,000 square feet. The company undertakes to store goods in bond for the Canadian Customs, Toronto manufacturers and business men. This enables larger quantities being bought and stored at very reasonable rates, until such times as they can be disposed of. Already the place is being filled with merchandise from all parts of the world, embracing printing machinery, automobiles from the United States, wool from England and Australia, musical instruments, etc.

The premises are absolutely fireproof, with sprinkler system and fireproof doors to all the rooms of the building. Toronto, it is claimed, is the least equipped of all the large cities with storage facilities. The railway yards do not begin to handle the accumulation of freight that arrives daily, and in consequence there is a congestion that can only be eliminated by such a storage warehouse. C. Vall, the stated yesterday of the warehouse, smaller than Toronto have as great a storage space and it is no mean factor in the growth.

Montreal, up to the present time, has had the cream of the storage business, but the new company proposes to mean by which the Toronto merchants may in larger quantities and resp additional profits. Vall considers the terminal warehouse expansion of the city. The officers of the company are: Lieut.-Col. W. S. Dinick, president; Mr. J. L. Bowes, vice-president; Mr. C. Vall, general manager; and Messrs. W. H. Despard, James Leslie, Cameron Husband, and R. Ewing, directors.

CHARGED WITH ASSAULT. Douglas Dyson was remanded one
