

Medicines and medical comforts (liquors, etc.).....	3,014.84
Food, milk, meat, bread, groceries and vegetables	8,810.97
Clothing, shirting, quilts, blankets and dry goods..	334.29
Other expenses (fuel, water, gas, discount, etc.)....	2,432.01
Ground rent and cost of commutation in hospital property and garden.....	5,011.02
	25,489.71
Add deficit of last year.....	4,723.34
	30,213.05
Deduct receipts of the year.....	25,812.58
	\$ 4,400.47

The expenditure of the year has exceeded that of the preceding year by \$5,762.39. This is not owing to an increase on what may be called the ordinary expenditure of the institution, but consists almost altogether of three items not likely to be repeated hereafter, viz., ground rent due to the Seminary of St. Sulpice, and cost of commutation on the Hospital property and garden \$5,011.02, corporation charge for making the drain, St. Dominique Street, \$475.92, and a new iron safe \$165. These three unusual items account for \$5,651.94 of the extra expenditure of the year, and leave only \$111.45 to represent the excess of this year's outlay over that of last year. This is a matter of congratulation, as you will presently learn that a very much greater number of sick persons were admitted to the wards of the Hospital this year than last.

The number of in-door patients treated during the year is one thousand five hundred and fifty-nine (1,559) which is an increase of one hundred and sixty-seven (167) over that of last year, and eleven thousand three hundred and forty-six (11,346) out-door patients have received medicine and medical aid.

Of the in-door patients there have been cured or relieved.....	1,342
Have died.....	107*
Remain in Hospital.....	110 1,559
Of these there were admitted during the year	1,448
Remained from preceding year.....	111 1,559
Of those who were discharged or died there were	
Males 921 R. Catholics 652 Emigrants 92	
Females 528 Protestants 797 Strangers. 259	
Sailors.....	191
Citizens....	907
1,449	1,449 1,449

* Of the above 107 deaths there were 22 which occurred within 3 days after admission.
