THE TEST, A Story of Modern Finance

By LOUIS JOSEPH VANCE In the Popular Magazine.

Two minutes more. A cold sweat broke out on Grey's forehead. His mouth was strangely hot and dry. He was calculating intricately the amount of the loss—and wondering if, after all, he were not mistaking an ally for an enemy in this selling, without consulting Prendergast and letting the truth from him.

Grey looked up the receiver, repeating the report of the transaction to the clerk at his elbow.

THE CHANGE OF LIFE

INTELLIGENT WOMEN PREPARE Dangers and Pain of This Critical Period Avoided by the Use of Lydia E. Pinkham's Vegetable Compound.

How many women realize that the most critical period in a woman's existence is the change of life, and that the anxiety felt by women as this time draws near is not without reason? A deranged condition of the system, proposed to apoplexy or congestion of the brain, is at this time likely to be active and, with a host of nervous irritations, make life a burden.

Grey looked up the receiver, repeating the report of the transaction to the clerk at his elbow.

Grey started, surprised, and a bit resentful. That was just what he had been thinking of doing, or of asking Moon to do, when he had detained her; but he did not like it in the least that she should have been able to read his mind.

Grey looked over his shoulder at the clouded glass panel, smiling slightly to himself. "Odd!" he commented. "Come to think of it, I seem to have seen her somewhere—quite a while back, of course. Wonder where? Stafford?"

Grey's eyes were fixed on the receiver, and he looked up to find her staring at him with gravely interested eyes.
