To Absorb Freckles And Other Blemishes

Every spring numerous enquiries are made by girls seeking some reliable recipe for removing freckles. Last year very favorable reports were received from many who had used mercolized wax durmany who had used mercolized wax during the freckling season. The wax seems to possess unusual properties which completely absorb the freckles, with no harmful effect. The complexion improves wonderfully, becoming as soft as a rose petal, and as delicately tinted, Get an ounce of mercolized wax at any druggist's, spread a thin layer of it over the entire face every night for awhile, washing this off in the morning. For rough, spotty skin, sallowness, black heads, pinples and all cutaneous blemishes, this treatment is superior to any other.
