of Richmond Hill Ropery, lout a rope 4374 yards, or h. A public meeting of the lother commercial deni-ld at the London Tavern, foot a subscription for the season, and we believe that serious damage has already been sustained by the grass and crops on the lower Intervales and Islands. Yesterday the rain fell in torrents for a great part of the day.—*Fredericton Reporter.*

The late heavy rains have caused an overflow of the Musquedoboit River, and it is feared that a great loss of the hay crop on the intervales along the banks of the River will be effected by the in-undation. Some fields of grain have likewise suf-fered from the same misfortune.—Halifar Re-conder. sing many sums), and the Canada Co cretary of the Queb

BOSTON.—The Worcester Spy says that the pulation of Boston, according to the new census, about 120,000. In 1840, it was 93,383. In-rease, 26,617, or about 25 per cent.

The Cross.-Within the last two or three weeks we have travelled 1000 miles in the State of New York, and every where have made it a point to observe and enquire after the crops. The uni-form testimony in regard to wheat is, that the crop is beyond an average. We however saw many fields which did not come up to our expectations ; while others were as good as could be reasonably desired. Passing into Canada, we found the wheat crops there also, very fine. Gentlemen from the interior gave the same account. We also saw per-sons from Michigan, Ohio, Illinois, and other Wes-tern States. Even in Ohio the crops is now thought to be a full average. In Michigan, Wis-cousin, and parts of Indiana and Illinois, it never was suppassed. The accounts from Pennsylvania are also favorable. In Virginia the crops are a full average, and in Maryland more than an average. To make a long story a short one, it may be sait in general, that the wheat crop of the country is one of the largest in quantity, and best in quality, that ever was gathered. For this all ought to be thankful, and especially consumers. Besides sup-plying the home market, there will be a plenty for people abroad,--as much, at any rate, as they will be willing to pay for.--X: Y. Journal Commerce.

been opened in Paris, in fa-y the recent dreadful fire in

Purchase of Steamer Unicorn.—We mentioned onne days ago a rumour that the Unicorn had zome to New York for the purpose of being sold and placed on a line between New York and Javana This is a time and the the terms of the solution. on of the present ournt irch 17th, 1841, destro ldings on the East sid from Church-street to H rowana. This is a line on which she could not run under the English flag. The New York pa-pers confirm the report, and say that she has been sold for $\pounds 10,000$, which is much less than her cost. It is said that she is to run semi-monthly from New York to Havana, Vera Cruz and Could t, from Church-street to Prin opposite to those now in week has gone over nearly ion of the scene of devasta is saved from desolation in is a little singular that nom this section of the city has ended beyond the limits on n of 1837, except burning the Market-Square, in Novem whole of that section (save a William and Water-streets wept of its buildings; and a arf three times !

It is said that she is to run semi-monthly from New York to Havana, Vera Cruz and Carthagena.— Boston Daily Adverticer. The following account of the destructive conflagration in this City last Tuesday night, was published in a second edition of the Onskrivek, on Wednesday morning, and forwarded by the seve-ral Provincial mails, and the mail to England, on that day.—We republish it to-day, with some cor-rections.
