

## ANOTHER LINE TO USE THIS PORT

Inter-Continental Transport  
Vessels Choose St. John  
Rather Than Boston

Nagle & Wigmore, local agents for the Inter-Continental Transport Service, Ltd., announced this morning that this line of steamships would make St. John their port of call during the winter. It was reported that Boston had made the company an attractive offer to sail out of that port, so the news that St. John has been chosen will be gratifying. A regular cargo service will be maintained between here and London, Antwerp, Harve, Rotterdam and Hamburg.

The first sailing will be the S. S. Beant County, which is scheduled to leave for Hamburg on December 3. The S. S. Essex County will leave for Antwerp and Harve on December 16, and the S. S. Welland County for London and Hamburg on December 28.

The January sailings will be as follows:  
S. S. Linger County for Harve, January 6.  
S. S. Grey County for London and Rotterdam, January 8.  
S. S. Hastings County for Hamburg, January 14.  
S. S. Drant County for London and Rotterdam, January 20.  
S. S. Persanger for Harve and Hamburg, January 26.  
Gordon K. McNab, port agent of the Canadian Government, Merchant Marine, returned to the city this morning from Montreal. He reports that from present indications business at that port should be quite brisk during the first part of the winter season at least. He also announced that there is a possibility that his line will handle some cattle shipments through St. John. With reference to the season's sailings for the C. G. M. Co. he said the list has not come forward yet, but he has received notification that their second sailing to St. John will be the Canadian Victor, which is due to leave Vancouver on Friday and will bring general cargo and coal.

## ASK EXPULSION OF CROWN PRINCE

France Bringing Pressure to Bear to Get Assistance of British.

London, Nov. 14.—France is bringing strong pressure to bear on Great Britain, looking to joint action for the expulsion of the former Crown Prince from Germany.

For the moment the British Government believes it useless to try to undo the accomplished fact, but no decision regarding a final policy will be announced until the cabinet, which is meeting today, has carefully examined the whole subject in the light of Premier Poincaré's latest overtures.

Meanwhile the Government has received no official intimation that the former Kaiser intends to duplicate the sensational dash of his heir. British officials are confident that Holland will observe her pledge to act as a jailer for the former emperor until time or fate settles his destiny.

France is also urging Great Britain to send a strong rejoinder to Germany regarding Chancellor Stresemann's negative reply to the Allied request for greater protection and latitude of action for the inter-allied military control commission.

## Claim Election In Britain Necessity

New York, Nov. 14.—The British election is a necessity "in order to produce a government which can govern," in the view of the New York World.

## YOUR IDEA of a Furniture Store

THROUGH thirty-odd years serving and planning, the Marcus policy of service has shaped itself to the mind, taste and purse of its Public. On these conclusions:

1.—That the Public loves a bargain, an enduring bargain, a value that lives long after the purchase, to the benefit of buyer and seller.

2.—That the Public likes really good Furniture—Furniture good inside and out so it keeps good and in the best taste.

3.—That the Public appreciates any little thing you can do both before and after a sale—Courtesy, Tactful Guidance and Service, speedy attention and delivery—special ordering to suit out of the way needs. Standing by what you have sold.

4.—A place to shop in that's stimulating beyond the intelligent attitude of the store staff—one bright and big and full of interesting Variety. One with every size of price and each the finest for honest worth.

To provide all this is more than Conscience; it is pleasure and profit. Our far-in-front put-sonage has made it well worth our while. May we serve you this way? It goes without saying that the House of Marcus has the necessities in unequalled measure.

## 'Give the Fallen Arch a Chance'

No less a specialist than Thomas S. Ellis, whose health talks are quoted in so many newspapers, lays it down that "the arch of the foot is formed, maintained and restored by the muscular action that the free use of the foot involves."

Exactly what is provided by Smardon Tarsal-Ease Footwear, in favor of which types a further verdict by Ellis declares that smart style cannot come with turned out toes.

The flexible shank of Tars
