REPORT OF THE INSPECTOR OF

Mr. Kenny Reviews the Year and Makes Suggestions

changes have taken place in the indu trial life of our province, all of which have a tendency toward progress and prosperity. It is, therefore, with some degree of satisfaction that I am in a position to state that the year covered by this report has kept pace with the years that have preceded it, along the lines of industrial expansion and activity. It is evident from the fact that are number of our progressive manufactions. a number of our progressive manufacturers have found it necessary to enlarge their premises more or less, in order to the progressive manufacturers have found it necessary to enlarge their premises more or less, in order to the progressive description of the local progressive description des

THEY do not wish nothing better than that the bill should pass.

To paper declares that the sins feiners wish nothing better than that the bill should pass.

SAYS SCOTLAND

WILL GO DRY

IN TWO YEARS

Toronto, March 15—"There is not a shadow of a doubt that Scotland will go dry in two years' time," said Captain "Gipsy" Pat Smith, evangelist, in Massey Hall here on Sunday afternoon. "Every man in the distillery business in Scotland," he continued, "is trying to get out of it as fast as the devil will let him."

THEY do not The paper declares that the plant than the sin or the general public for special re-establishment in civil life. Of all the reconstruction work this surely should be foremost. A man who was willing to die for his country to keep living, and living up to the best Canadian standard. Here and there are examples of employers not making much sacrifice to adjust things, so as to give their former employes their old jobs back. The least that a returned man scotland," he continued, "is trying to get out of it as fast as the devil will let him."

THEY do not The return of the large number of young men engaged in the war has called for special re-establishment in civil life. Of all the reconstruction work this submerged the railway tracks and washed out some smaller bridges besides do ut some smaller bridges was bridged to relieve the flood conditions. Quebec city was very hard hit by the standard in the samon have thus

Into our industrial life they are bound to become more and more a restive element. With generous and wise treatment they and their descendants will be a great asset to this country. In the future history of Cahada it ought to be written that the period following the world war was one of wonderful industrial expansion, and that the return of her heroic veterans marked the era of a new racial development for Canada."

The appointment of an "Industrial Relations Committee" by town bodies would do much, the report said, to eliminate some of the chances for industrial disputes. The placing of a "suggestion box" in certain factories has resulted in suggestions for the improvement of the business.

Toronto, March 15—The Conservative party in this city will return to party lines and will reorganize "on a broad as pecial meeting of the Central Conservative Association of Toronto on Saturday night.

Thirty-two Years to Pay Debt.

London, Eng., March 15—The offer of Richard Lister to pay \$1 a month to clear off a breach of promise judgment was pointed out that it would take thirty-two years to pay the debt. He was ordered to pay \$7.50 a month.

"Careless practice, such as the disobey-

ing of warning signs, should be penalized. A few examples made of offenders along this line and we would have

our cautions heeded.'

The inspector said he had been un able, despite repeated notices to bring all manufacturers to report accidents promptly. There were employers who also failed in regard to accident prevenalso failed in regard to accident prevention and who did not give their employes the consideration for protection of life and limb to which they were entitled. Ventilation was just one feature wherein many failed, sanitation was another.

The report advocated raising the age

nit to fifteen years for child labor. Reference was made to co-operation of employes in the matter of seats in stores for women clerks. / There are 146 portable mills in the Progress in Industrial Life of Province — The Matter of Accidents — The Returned Men — Child Labor and Other Questions.

There are 146 portable mills in the province and the inspect or said it was very difficult to inspect them because of their being moved so much about. The conditions in these mills had, however, been greatly improved. So far as steam boilers were concerned Mr. Kenney said it would be impossible to have the boilers supervised any more carefully than was done by the increase companies through their inspectors.

Legal action may be taken against several persons during the year.

The ninth annual report of the factory inspector, John Kenney, was tabled in the house of assembly on Friday in Fredericton. It contained much of interest in connection with industrial development in the province. An interesting passage was that at the opening of the report:

"During the years that have alwards to the report said 4.75s" the report:

"During the years that have clapsed since my incumbency of the office of factory inspector, many and various changes have taken place in the opening of the arrest and cinemas throughout the province, for which report said 4,755 reels of films had been examined during the year. Of these 115 reels were condemned.
