Cor. Mill and Union Sts.

GOOD GIN!

How it can be Recognized.

Canadian Red Cross Gin is produced by the transformation of grain into sugar, which, after fermentation, is combined with Juniper Berries and when distilled becomes the famous

"RED CROSS" GIN

Red Cross Gin is submitted to the rigorous inspection of the excise officers, every in sample, who are present at all the various stages of its manufacture from the weighing of the grain, following the various operations of distillation, the rendering into alcohol, the aging in bonded warehouse, until "Red Cross" Gin is bottled in its specially sealed bottles. There is no other food product in the world so carefully and constantly inspected. The public therefore possesses the absolute guarantee of the age, purity and maturity of "Red Cross" Gin whereas imported Gins cannot offer the slightest guarantee, as they are submitted to no official inspection before exportation, and are not tested as to quality, purity and healthfulness on their importation here.

How can the Consumer hesitate between Canadian Gin and Imported Gin?

We shall leave the public judge.

BOIVIN, WILSON & Co. Distributors, MONTREAL

One of the Stills used in the production of "Red Cross" Gin at the Berthierville Distillery.
