

The best remedy for foot-blisters or chilblains is the Pain-Exiler.

Read this letter from Mr. John F. Blais, who was supposed to be incurable, other medicines doing him but little good; but by the first bottle of Allen's Lung Balsam, he receives great benefit and encouragement.

YELLOW SPRINGS, GREENA Co., O., Dec. 27, 1864.

Messrs. J. N. HARRIS & Co.

Dear Sirs,—I take this opportunity to say that I am taking the Lung Balsam, and am receiving great benefit from it. My disease is very obstinate, and the weather has been very unfavorable; but still I think the medicine will cure me. I have Lung Balsam enough to last me a week. My Cough is now quite loose, and does not trouble me half as much as it did. What I raise is a thick yellow matter. I thank you a thousand times for the medicine you sent me. May God's blessings rest with you is my prayer, and the prayer of my family. I subscribe myself ever your obedient servant, JOHN F. BLAIS.

EXTRACTS FROM DRUGGISTS' LETTERS.

LEXINGTON, Miss., May 23, 1866.

Messrs. J. N. HARRIS & Co.

Dear Sirs,—I have made Allen's Lung Balsam pretty well known in our city and county, and have sold about all the four dozen bottles sent me in March last; and I find that persons who, try the Balsam once come back again for more, as it gives them satisfaction; and I recommend it in preference to any other medicine for Coughs or Colds. Please send me six dozen bottles as soon as possible. I am, yours, &c., THOMAS J. FLETCHER, Druggist.

L. B. Bowie, Druggist, Uniontown, Fayette County, Penn., writes, April 4, 1866, "Allen's Lung Balsam has performed some remarkable cures about here. I recommend it with confidence in all diseases of the Throat and Lungs."

Starling Bros., Druggists, writes, from Carrollton, Carroll County, Ohio, January 28, 1866: "Send us six dozen Allen's Lung Balsam. We are entirely out of it. It gives more general satisfaction than any other medicine we sell."

*To preserve Potatoes till Spring.*—Put a quantity of powdered charcoal in the bottom of the potato bin; it will preserve their flavor, and prevent the sprouts from shooting out so early as they otherwise would.

*Watery Potatoes.*—Put into the pot a piece of lard as large as a hen's egg; and, however watery the potatoes may be when the water is poured off, they will be perfectly dry and ready.

*Potato Muffins.*—Boil three good-sized potatoes, skin and wash them, heat in a teaspoonful of salt, and a piece of good butter the size of an egg; make this perfectly smooth, and about the consistency of dough, by adding a little warm water; beat in six eggs. Dissolve one teaspoonful of soda in a little water, with a teaspoonful of salt; beat these three kinds of solid things; mix them well together, and mix the soda and water with the dough, and add it to the rest.
