

ST. CHARLES EVAPORATED CREAM

Mother and Child are equally benefited by St. Charles Evaporated Cream. It is the world's standard of purity and next to healthy mother's own milk, the best obtainable food for infants. Many doctors insist not only that infants be fed on St. Charles Evaporated Cream, but that mothers themselves make it a large part of their diet. The use of St. Charles Cream is economical too. It keeps forever, and by simply adding pure water in proportions, you have pure milk and pure cream better than the best you can buy and equal to the best the best dairy in the world can produce. In using St. Charles Cream, you take no chances.

Sold by Best Grocers Everywhere.

Handsome booklet of valuable information to mothers of all ages can now rapidly recover their lost vitality and vigor. No matter your age, or the cause of your present weak state, our remedy acts in a most marvellous manner and makes premature old men, strong, healthy and vigorous. All letters and communications strictly confidential. Address:

AGOTE INSTITUTE, 85 University Street, Montreal, Canada.

EVERY MAN, (Young and Old)

Should Have Our Free Book A Remarkable Recent Discovery of a New Harmless, Agreeable and Infallible Remedy

FREE

To all interested men, we will send by mail our FREE BOOK, carefully sealed in plain envelope, which fully explains our modern treatment, how weak men of all ages can now rapidly recover their lost vitality and vigor. No matter your age, or the cause of your present weak state, our remedy acts in a most marvellous manner and makes premature old men, strong, healthy and vigorous. All letters and communications strictly confidential. Address:

AGOTE INSTITUTE, 85 University Street, Montreal, Canada.

VICTORY FOR MRS. GOULD

NEW YORK, June 25.—Katherine, Chimes Gould obtained a legal separation with alimony from her husband, Howard Gould, third son of the late Jay Gould, by a decision of the late Justice Dowling in the Supreme Court today after a trial which had lasted nearly three weeks. With the exception of alimony, her victory was complete, but in this phase of the case the court decided that \$35,000 a year was sufficient, though in her suit Mrs. Gould asked for \$25,000. She has been receiving \$25,000 a year from Mr. Gould, so that this amount fixed by the court is but a slight increase over what he had voluntarily allowed her and is but a small fraction of the amount named in her suit.

It was in the vindication of charges of intoxication and her alleged relation with a woman named Farnum, that Mrs. Gould secured most strongly, for notwithstanding the long array of witnesses for Mr. Gould who gave such testimony as to make Mrs. Gould appear as times as defendant rather than plaintiff, the court held that the intoxication charge was proved, but that the charges against Farnum, it was held that her association with him came after Mr. and Mrs. Gould separated and that she had apparently made no attempt to seduce him.

Immediately after the separation, DeLancy Gould, Mr. Gould's son, asked for custody of the children, but Judge J. Shearn, 92, of the plaintiff, Justice Dowling, compromised by making the stay thirty days. Mr. Shearn then asked for the same allowance for counsel fees and the court gave him \$2,000. This, together with the \$10,000 allowed recently and the original allowance of \$5,000, will bring his fees to \$17,000, with an additional \$3,000 for expenses.

Mrs. Gould had been left quite to herself during the trial, but after the verdict she was kept busy receiving congratulations. As the decision was read she kept her head cast down and seemed disappointed by the allowance. As soon as the case was closed, however, she shook hands with Mr. Shearn and thanked him for his conduct of her case. Then she beamed upon her friends and even smiled upon the downcast trio of lawyers who had fought for her husband's interests.

Howard Gould hurried from the room as soon as the decision was given and declined to discuss the case.

Mrs. Gould left the court with Mr. Shearn and drove away in an automobile.

Mr. Shearn said that either party in the suit could still bring action for absolute divorce, but that Mr. Gould could not base such an action on the charges involved in the suit just ended.

ISSUES STATEMENT.

Mrs. Gould issued the following statement: "I am the happiest woman living tonight because I have been so completely vindicated."

FIRST CHINESE CONSUL COMES

MONTREAL, June 25.—Kung Hain Chao, the first representative of China appointed to Canada, arrived in Montreal this evening from Liverpool. The new Chinese consul expects that his advent in Canada will lead to an increase of trade between the two countries. Kung Hain Chao, said that he did not see any reason why Canada should not secure a share of the trade now enjoyed by the United States. He will take up his official residence in Ottawa.

Are Our Public Schools Any Good? At Last Here Is Man Who Can Tell Us How to Measure Them

FOREIGNERS MAKE BETTER SCHOOLS.

(Ayer's Figures)

City	School Efficiency, Population	Foreign
Boston	67	72
Minneapolis	63	69
Chicago	52	57
New York	39	47
St. Louis	31	41
Cleveland	30	41
Cincinnati	28	35
Jersey City	45	71
Philadelphia	38	53
Baltimore	35	48
New Orleans	31	38

LEONARD P. AYRES.

About the hardest thing to measure is the efficiency of the public schools. Are our public schools any good? It is a question that has no answer, unless a convincing way can be made any better? Is another serious question.

When is a school good? When is it bad? Leonard P. Ayres, expert of the Russell Sage foundation, at last finding a measure for public schools. He has studied the schools of 43 American cities, and a report will shortly be made to educators all over the country.

One of Ayres' tests is: How strongly do the schools draw the children and how long do they hold them? The average American city carries all its children on the sixth grade, half of them through the eighth grade, and one-tenth through the high school. This means that the average American school is not doing all that it is assumed to do.

The number of pupils who drop out before they finish the eighth grade, is a fair test of any school system. But

SOME FACTS ABOUT PUPILS WHO DO NOT PASS GRADES.

In 55 American cities there are 1,907,000 school children. Of these 215,000 didn't pass, in either 1927 or 1928, and are taking their grade over again.

It costs \$18,719,000 to keep these repeaters in school. Can these children who don't pass be blamed? It looks as if the blame rested on the school system.

It costs \$88,966,717 to run these 45 school systems. Yet they spend 15 per cent of this money to do over again work which they ought to have done in the first place.

Any business enterprise, run on this basis, would be wrong and a failure.

J. sends 30 per cent of her children through her grade twice. This means that her school cost her 30 per cent more than they ought to.

In the average city only 15 per cent of the children are repeaters.

Attendance at schools in another test. There are very few cities in which as many as three-fourths of the children go to school three-fourths of the time.

In fifty American cities, Mr. Ayres says, it was found that the schools of 25 cities were improving and of 15 cities were going backward.

Many schools were found that were crowded in the lower grades and contained few pupils in the upper grades. In these schools many repeaters were found in the lower grades, which choked admission to the school.

Mr. Ayres says it is wrong to blame school inefficiency to foreigners. He says that his figures show that the presence of a large foreign element always goes with a high efficiency.

There are a number of properties in the Gowanda section which give great promise. These include the Dobbe-Reeves, Boyd-Gordon, Mann, Silverette and others, which have small quantities of high-grade ore sanded; but time and development work should block out the low-grade material, which is found on so many properties in the section.

The country around Gowanda during the next few months undoubtedly will be productive of immense quantities of iron ore, and finds of greater or lesser importance, but there are also disappointments in store for some of the unwary, who bought claims snow-covered and unprospected, and it is evident that a considerable portion of the large area stated will not prove of value by reason of an many claims being staked in the quartzite, where no one would expect to find any iron values.

EXISTING CONDITIONS IN THE CANADIAN SILVER FIELDS

A special correspondent of the Standard at Cobalt says: The rush of prospectors into the Canadian silver fields has never been greater any other season as this, and with the boots carrying their full loads already, and having to refuse business daily, it is unquestioned that the summer's business is coming to a close. The prospectors, however, are open ground, and it looks like the "early bird getting the worm," as the rush goes madly forward.

So far as area is concerned, the Montreal River section, or at least the area included in the two mining divisions of Montreal River and Gowanda, as outlined or divided on the maps, it will be seen that the new mining areas are approximately seven townships square, or about fifty townships in extent.

While, of course, all of these townships, and in fact only a few of them, have been proven to have rich surface deposits, it is a fact that the new areas are being made from month to month, and from week to week, and also in view of the fact that such a limited time has elapsed since the discovery and locating of several of the newer belts, that the finds are warranted a great amount of optimism in regard to the future of these newer belts.

At Millie and Bloom lake there are a number of properties which have proven so rich, or at least, have given such indication from surface discoveries and from a measure amount of development, that the owners have thought well enough of them, to equip with up-to-date machinery, and good things are heard from several properties, such as the Sifton-O'Brien properties, the Bonnell, Blackbourne and others.

BADLY HURT IN THRESHER

Blood Poison Set In

Healed in One Place, Broke Out in Another—Cured by DR. CHASE'S OINTMENT

Truth is often stranger than fiction and many of the cures brought about by Dr. Chase's Ointment are more like miracles than anything else. It was blood poison. You know how dreadfully dangerous this is. You know how helpless doctors are in its treatment. Read about this cure brought about by Dr. Chase's Ointment.

Mrs. C. Hopkins, St. George, Ont., writes: "I feel like shouting the praises of Dr. Chase's Ointment. While threshing grain, my son got badly hurt. One of the men who was picking sheaves, missed the sheaf and ran the point of the fork into my son's leg. He did not take much notice of it and in a day or two it got sore and very itchy and blood poison set in. We did everything for it but could not heal one place and break out at another and kept on this way for three months.

"Finally I thought of Dr. Chase's Ointment and in a week's time we noticed wonderful change. By the use of three boxes he was completely cured and the wounds healed up. There has not been a sign of a spot on him since.

"I might also state that my husband was cured of a very bad case of piles by the use of two boxes of Dr. Chase's Ointment. It is a wonderful ointment."

Whenever there is itching or irritation of the skin or a sore that refuses to heal you can apply Dr. Chase's Ointment with every assurance that the results will be prompt and satisfactory.

60 cents a box, at all dealers, or Edmanston, Bates & Co., Toronto.

SHINING TREE, SMOOTHWATER AND GOWANDA.

Shining Tree Lake is located on the boundary line of Muskoka and is considered very promising. One syndicate which took up some 30 claims during the rush in there, has done a considerable amount of assessment work, and according to their own report, have indicated the presence of silver, copper and other minerals.

Smoothwater section seems to be in a more popular favor up to the present than any of the newer sections staked during the winter's rush. Several strong syndicates are interested there and are very optimistic. Oshagong, Hargreaves and several of the other lake sections seem to be all right, and the better known and more prominent sections, and all have their rich discoveries and entitled to consideration.

ELK LAKE AND MAPLE MOUNTAIN SECTIONS.

Of the newer belts, the Elk Lake and Maple Mountain sections seem to be entitled to about equal credit as to the time of discovery, and also in results, according to the time and money spent in actual prospecting. Peculiarly enough, the belt around Maple Mountain at first appeared limited to a small area, and it also seemed apparent that the saying of far-off fields look greener applied, and the Maple Mountain section was passed up for the far-away fields, while Maple Mountain is on a straight line west of Cobalt.

Maple Mountain has but one stock proposition, but from a comparatively small amount of work, the district has one real mine with high grade shipping ore; generally considered the equal of the Cobalt average mine. This is the Canadian Ores Limited, or the White Syndicate, as it is often called, on account of being a closed corporation. The Maple Mountain Mining Company is another property which seems to have ample promise. The Le Roy properties are held by the owners for development, in spite of tempting offers to poor men. The Enright property has been sold for a price said to aggregate \$100,000, and numerous others have attracted enough attention to command large cash offers. The Oshagong properties, although receiving very little attention, are surely coming to the front and will produce some history for the Maple Mountain district.

WILLET, SMYTH, TUDHOPE AND JAMES TOWNSHIPS.

Down in the corner of Willett the Lucky Godfrey crowd has given an opportunity to its properties, six in number, at \$750,000, and the payments are being made regularly, so that it looks like a sale in earnest. In Smyth Township several very promising properties have been opened up in the diabase belt, amongst the best of these being the Watts property, owned by eastern capitalists, who are developing it with very encouraging results. Starting on the surface with a meteoric, at a depth of 25 feet a vein of solid metal from two to four inches running high in silver values, being the latest development. In Tudhope township there are a number of very

WHEN YOU CAN'T SLEEP.

There is many a man and woman losing night after night upon a sleepless bed. Their eyes do not close in the sweet refreshing repose that comes to those whose heart and nerves are right. Some constitutional disturbance, worry or disease has so debilitated and irritated the nervous system, that it cannot be quieted, there is again, you have, a sinking sensation, a feeling you are going to die; or perhaps you wake in your sleep feeling as though you were about to choke or smother, and rest leaves you for the night. If you allow these conditions to continue for a short period, you will begin to feel your health declining. It is the nerves and the stomach that are affected, and you must be set right by the use of Milburn's Heart and Nerve Pills. They soon induce healthful, refreshing sleep, not by depressing the nerves, but by restoring them to healthy action.

Mrs. E. Nutt, St. Mary's, Ont., writes: "I can gladly recommend your Milburn's Heart and Nerve Pills as I was greatly troubled with my nerves. I was so bad I could not sleep at night without the lamp burning, but after taking four boxes of the pills I became all right again."

Price, 50 cents per box; 3 boxes for \$1.25, at all dealers or The M. Milburn Co., Limited, Toronto, Ont.

AWFUL CRIME NEAR BANGOR

C. N. HARVEY NEW AGENT

Appointed to Succeed Late Mr. Parsons at Halifax

OTTAWA, June 25.—Charles H. Harvey, of Halifax, has been appointed agent of the Marine Department of Halifax to fill the vacancy caused by the retirement of Agent Parsons following the report of Justice Cassels on Marine Department investigation. Hon. Arthur Bover, of Montreal, formerly a member of the Quebec government without portfolio, has been appointed to the vacancy in the senate caused by the death of Senator Thibault.

Stranger Demanded Money Which Wasn't Forthcoming

BANGOR, Me., June 25.—A telephone message received here at ten o'clock tonight from West Hampden states that Mrs. Mary Prescott of that place was found murdered at nine o'clock in her home, having been shot through the head. Robbery was the motive and it is reported that the neighbors have a definite clue to the murderer, but are afraid to talk. Sheriff White and Deputy Sheriff Garland left here for the scene at 10:30.

A telephone message received at midnight from the sheriff says that Mrs. Prescott is not dead, and that she is likely to recover.

HE FOUND THEM THE BEST OF ALL

What Rufus Harris Says of Dodd's Kidney Pills

AFTER TRYING FIVE DOCTORS FOR HIS KIDNEY DISEASE HE FOUND RELIEF IN THE GREAT CANADIAN KIDNEY PILL.

STEVENSVILLE, Ontario, June 25.—"After trying five doctors for kidney trouble, for which I had suffered for three years I find that Dodd's Kidney Pills relieve me best of all. I keep on taking as I have since. I began taking Dodd's Kidney Pills, I shall be well pleased and I am hoping they will cure me."

So says Rufus Harris, well known in this village. "I had stiffness in the joints," he continues, "cramps in the muscles, backache and was heavy and sleepy after meals. I was depressed and low spirited, perspired freely, was often dizzy and always thirsty, but since taking Dodd's Kidney Pills I am feeling very good."

If you have any of the symptoms, Mr. Harris tells of, it is time for you to beware. They are the symptoms of Kidney Disease and may be the forerunners of Rheumatism, Dropsy, Lumbago, Heart Disease, or Dr. Earle's Bright's Disease itself. Take warning and guard against suffering or even death issue by putting the kidneys to work by using Dodd's Kidney Pills.

GIRLS WITH FALSE HAIR ARE NOT BEAUTIFUL

PAULINE FREDERICK

"A woman wouldn't have to wear so much false hair if she only took care of her own hair," says Pauline Frederick, whose own hair is so wonderful that she ought to know whereof she speaks.

"A woman can't be really and truly beautiful when she wears hair that is not her own. It is awfully hard to take proper care of your hair, but it will pay a hundredfold. There's a tremendous satisfaction in knowing that your hair is your own."

BRITISH SCHOONER ASHORE

VINEYARD HAVEN, Mass., June 25.—The British schooner Seylla, which went aground on Middle Ground Shoal on Wednesday night last, was pulled almost today by the tug Tasso, after a portion of the deckload of lumber had been lightered. The vessel proceeded, apparently unharmed, to New Bedford, whither she was bound from Halifax when she went ashore.
