## News Summary.

### DOMINION.

—A lump of coal weighing 1,000 lbs. was shipped from Springhill mines last week.

—It is proposed to macadamize Moncton streets with broken limestone as an experiment.

—There are already in the booms of this season's cut with some of last year's, about 44,000,000.

—The mills along the St. John River have all been shut down for some time, owing to heavy freshets.

—Fall tickets were nominated on the 14th in every county of Nova Scotia by the government and opposition parties.

—A telegraphic message was sent via the C. P. R. last week from this city to Halifax and an answer was received back in five minutes afterwards.

—The Moncton sugar refinery is putting in new filter, and other machinery in the new wing recently erected to the extent of some \$20,000.

—Mr. C. J. Shaw, of the New York S. S. Co., is visiting the merchants of the North Shore in the interests of his line, and is meeting with success in securing freight.

—Mr. William Balcom, of the Prince of Wales gold mine, is in town last week. It is the intention of the owner to have the machinery in working order about the 1st of June.

—There is a Scotch family at Stanley, York Co., of two brothers and two sisters by the name of McDonald, whose ages aggregate 317, as follows: James, 85; Betsey, 85; Charles, 86; Missey, 83. All are hale and hearty.

—Mr. Clark, the contractor for repairing and replanking Long wharf, at Saint John, and building a large warehouse upon it for the New York, Maine and New Brunswick S. S. Co., has commenced work there and will push it forward rapidly.

—Many improvements are making on the Shore Line Railway. Last week eleven new and much needed flat cars were received; and several new passenger cars and an engine will be added shortly. It is expected that the road will be placed in first class condition before long.—*St. Croix Courier.*

—In an editorial on the Dominion Safety Fund Life Association, of St. John, N. B., the *Budget*, of Toronto, a regular insurance journal of high standing, says: "It is enrolled as a regular company by the department, and offers the public an excellent method of life insurance, equitable and reliable."

—Canada began with 16 miles of railway in 1837, and had no more till 1847 when there were 59 miles. The record for 1889 shows 12,628 miles of railway in operation, carrying 12,151,166 passengers; 15,928,626 tons of freight and earning \$12,149,915. There were actually 13,315 miles of track laid, though not all in use.

—Several orchardists in Clarence are importing an American force-pump to be used in spraying water, containing London purple, on their fruit trees, for the destruction of the prolific caterpillar and canker worm. This method is a new feature here, and we will watch the result with great interest.—*Bridgetown Monitor.*

—The St. John board of school trustees last week decided to have the grading examination after the current year in April, instead of at midsummer. They also adopted a regulation that no pupils of standards one, two or three be detained for punishment after school hours and no other pupils for longer than thirty minutes after the close of the school for the day. They have added three assistant teachers to the city staff.

—It has been discovered that all the land proceeding out of the Halifax board of trade since its first organization a couple of years ago are irregular and illegal; owing to that body not being organized in a proper manner and as provided by law; consequently the amalgamation of the board and chamber of commerce a short time ago, was not properly consummated. Steps are being taken to overcome the trouble by organizing the board anew and making an entirely new start. This regarded as the simplest and most convenient way out of the difficulty.

—The purchasers of the manganese mine have decided to commence work at once. The managers of the company are here, and are procuring men and teams and making preparations for active operations. They are making arrangements for the building of a branch railway about 11 miles long to connect the mine with the Albert line. When the work gets fairly started the company will probably employ about 200 men and quite a number of teams. This, together with the smaller amount of work furnished by the Albert Manufacturing Co., will make times quite lively in the parish of Hillsboro.

—The *Bathurst Herald* announces that large quantities of golden sandalwood and small fruit trees and plants have been brought into that place, and the cultivation of fruit is being enthusiastically gone into. "Some years before the rebellion," says the *Herald*, "a start was made in this direction and attended with very good results, but that unhappy event led to the destruction of most of the trees, and it is only now that a fresh start is being made. Currants, gooseberries, strawberries and raspberries are indigenous, and the cultivated varieties of these fruits have all done well where tried, and are sure that with reasonable care the larger kinds will do equally well."

—At the annual meeting of the Canadian Pacific Railway Company on the 14th inst., 343,848 shares were represented. The old board of directors was re-elected. The report for the past year was highly satisfactory, showing:

|   |              |
|---|--------------|
| Gross earnings                                | \$15,030,560 |
| Working expenses                              | 9,024,601    |
| Net earnings                                  | 6,006,956    |
| Fixed charges                                 | 3,779,132    |
| Surplus                                       | 2,226,926    |
| Supplementary dividend                        | 1,570,028    |
| Surplus from previous years                   | 325,423      |
| Making total surplus carried forward          | 1,903,350    |
| Increase in gross earnings over previous year | 1,835,115    |
| Decrease in working expenses                  | 300,159      |
| Increase in profits                           | 2,235,285    |

—A large exodus is in progress from Newfoundland to Canada.

—Few of the Carleton county farmers have commenced spring operations.

—Halibut sells at 6½ cents per pound in Boston. In St. John it is as dear as beefsteak.

—The railway authorities have acquired additional land and will construct shortly a double track along the river front in Moncton.

—Take good care of your beard and keep it clear of gray hairs so as to retain your young looks by using Buckingham's Dye for the Whiskers.

—Forty horses and ninety-five cattle were shipped from Summerside by steamer for the week ending the 14th. They were valued at \$9,470.

—Upwards of 2,500 cases of Nova Scotia lobsters have been received at Boston within the past week, with a steady drop in price of each shipment.

—Summerside has exported since Jan. 1st goods to the value of \$50,303.—\$17,441 to the United States; \$25,862 to the Dominion, and \$6,000 to the West Indies.

—Mr. S. Lawson, machinist for Rhodes, Curry & Co., has invented a substitute for quarter twist belt gear. It is a great improvement on the old gearing, as the belt runs without friction and will last years longer.

—The labor trouble at Amherst is still unsettled; the men refusing to give up connection with the Knights of Labor. A deputization has visited surrounding towns to place a boycott on the products of the Shoe Factory.

—Aroostook farmers are departing from the potato lands and propose to cultivate strawberries. One Presque Isle man is planning to have one acre of them devoted to them. The soil is rich and with it, it is said, proper climatic advantages, the scheme is sure to be a great success.

—Gasperaux are very plentiful in the waters of the Ruisseau. Mr. Mark Carr, who saw a lot of these fish in a small brook on his farm one day last week, made a dam of green boughs in the brook and drove the fish down to it with a switch and caught over seven thousand in one afternoon with a basket.

—*Gazette.*

—Mr. L. S. Eaton showed us the other day a piece of gneiss rock containing molybdenite in considerable quantities. It was brought by Mr. Eaton from the mine recently opened near New Ross, by Mr. Chas. Keddy and others. The mineral is closely allied to graphite or black lead, but is far more valuable. It is said to be worth \$100 per pound, and if the specimen shown by Mr. Eaton is a fair sample of the rock in the vicinity it will prove a very profitable enterprise to the owners as well as the community.

—*Canning Gazette.*

**JAMES PYLE'S PEARLINE**  
WASHING COMPOUND  
THE GREAT INVENTION  
FOR SAVING TOIL & EXPENSE  
WASHES FACES & TOILET  
TEXTURE COLOR ON HANDS  
NEW YORK.

**The Success of the Original**  
supports the imitations and there's a crowd of them hanging to Pearl-line. It saves work for them, as it does for everybody. It saves them talk, too. It's the one cry of the peddler that his imitation is "the same as Pearl-line," or "as good as Pearl-line." It isn't true, but it shows what he thinks of Pearl-line. He knows that Pearl-line is the standard—the very best for its purpose. So does everybody who has used it.

Beware of the basket gang—be sure you get Pearl-line. Get it from your grocer—and send back any imitation he may send you.

Pearline is never peddled, and is manufactured only by

178 JAMES PYLE, New York.

## Marriages.

**TUTTLE-BEST.**—May 3, by Rev. Wm. E. Hall, Frederic Tuttle, of Amherst, to Mrs. Isabel Best, of Sackville.

**EGAN-FERGUSON.**—At Sackville, N. B., April 9, by Rev. Wm. E. Hall, Frederic Egan, to Jessie J. Ferguson, both of Sackville.

**WILE-WEBSTER.**—At Truro, May 13, by Rev. J. E. Goucher, Robert Wile, Esq., of Bridgewater, N. S., to Bessie Webster, late teacher in Dartmouth, N. S.

**MOORE-MARNOUB.**—At Macanqua, May 7, by Rev. Calvin Currie, Sylvester Moore, of Queensbury, York Co., to Janey Marigold, of Macanqua, York Co.

**SHAND-VAUGHAN.**—At Windsor, N. S., 14th inst., by Rev. Prof. Keirstead, of Acadia College, assisted by the Rev. Dr. Saunders, Clifford J. Shand, to Henriette Saunders, daughter of the late Rev. Henry Vaughan, of St. Martins, N. B.

## Deaths.

**BORWALD.**—At Halifax, Feb. 14, 1890, James A., aged 24 years, eldest son of Benjamin and Augusta Borwald.

**STEVENS.**—At Brookfield, May 6, of measles, Lyman C., son of Peter and Clara Stevens, aged 10 months. "Suffer little children to come unto me."

**DOLEMAN.**—At Brighton, Shelburne Co., N. S., May 2, after a life of suffering, Louis P., daughter of David and Cassie Doleman, aged 13 months.

**NIGHTINGALE.**—At Grand Lake, April 26, John Nightingale, aged 47 years. He leaves a widow and several children to mourn their loss, but there is a rest that remains for the people of God.

**WILKINS.**—At East Somerville, Mass., Mrs. Margaret E. Wilkins, aged 71 years, 6 months and 17 days. She was a member of Upper Wilmot Baptist church, and esteemed by all. Her end was peace.

**MOORE.**—At Margareville, N. S., May 11, Frank L. Moody, aged 12 years and 9 months. How eagerly we watch for last words. How long we treasure them in our memories. Frank's last words were, "I want you all to meet me in heaven."

**SAUNDERS.**—At Harmony, Kings Co., N. S., April 9, Timothy Saunders, aged 64 years. Bro. S. confessed Christ some years ago, and united with a Baptist church in the United States. Last fall he came on here to see his friends, and took sick at A. P. Saunders', his brother; there he had done for him all that love and affection could do. He passed away at peace with God and man. His funeral was largely attended. He remains were interred in Greenwood Cemetery.

**PICK.**—At Black River, Kings Co., N. S., April 17, Deacon James Pick, in the 83rd year of his age. He was a member of the Second Horton Baptist church from its organization, and was held in honor and affection by his brethren in the church, and by a large circle of relatives and friends. This notice, as above, should have appeared in the MESSENGER AND VISITOR, April 30, when, by an unfortunate slip of the pen it was written William instead of James. Many will be thankful for the correction.

**EVANS.**—In the death of Capt. V. Evander Evans, who died on Sabbath, May 11, this community has lost one of its worthiest citizens, the Sackville Baptist church one of its best members, and the family of our brother one of the kindest of heads. By the public he was extensively known, having been from early life connected with steamboat service. He was for a time first officer of the old Maid of Erin, then commander of the Westmorland. For over 30 years he was in the service of the P. E. Island Steam Navigation Company, commanding first the Princess, then the St. Lawrence; so he was not only widely known, but extremely respected. In 1846 he was married to Mary E., daughter of the late Thos. R. Lyons, and half-sister to the first wife of the venerable Dr. I. E. Bill. Until about six years ago our brother was connected with the Episcopal church. Then his convictions led him to the Baptist church. He was baptized by the Rev. D. G. McDonald, and till his death was a most exemplary man. To him death had no terror; but rejoicing in the hope of the glory of God, he passed from his labors to his rest in his 71st year.
