IS SULLIVAN THE MAN. OIRCUMSTANCES CONNECT HIM WITH THE MURDER.

is Suppletons Movements on the Night of The Meadow Brook Tragedy-Where Did He get His Money, Where Was He Thurs-day Night-Where is He Now.

experience of the ways of newsboys lead-ing them to suppose that the murder referred to would prove, on being stripped of all romance, to be an account of some man shooting another on a leading boule-vard of Helena Montana, or a slight difficulty in a bar-room in the lone star

However, ere nightfall it became pretty However, ere nightfall it became pretty generally known that for once the news-boys had not exaggerated, and, what looked like an unusually brutal morder had been committed during the previous night, almost at Moncton's doors. Then the papers were out with full particulars up to date and here was some excitement; up to date and there was some excitement; but on the whole, the spathy shown by the majority of the people was really amazing. At the time Policeman Steadman was shot, the entire city was in an uprear, and little else was talked about on the streets, or in the family circle, while during the Mabel Hallett excitement, so great was the public interest that business was almost suppended. On Saturday the spears at the athletic grounds engaged the popular attention, and the murder seemed to have passed in to oblision, not once during the day did

some time ago. Another strange circumstance is the fact that while Sullivan's father stated on the to oblision, not once during the day did the writer hear it was referred to, even by people living within a few miles of Meadow Brook. On Sunday a tew of the more Brook. On Sunday a tew of the more enterprising or curious, drove or wheeled out to the scene, gazed at the ruins of the Datcher home, er held desultory inter-visws with members of the Green family. But up to Monday no active steps seems to have been taken in the matter, and it began to look as if no farther notice would be taken of the case. Then the mespsprss took the matter up, and now the machintook the matter up, and now the machin-ery of the law has been fairly set in motion. Before that no steps had been taken even before that no steps had been taken even to care for and preserve the life of the one survivor of the tragedy, who may yet prove an important witness for the crown, as it is very possible she was an eye witness of the entire affair. Instead of being tenderly nursed and cared for, she was left to the

His Suppleters Mersensite as the Night of The Measure His Money, There Was He Thur-day Night-Where Was He Thur-methroughout the Dominion, as the Meadw Brook Tragedy, is the extraordinary spathy and indifference which seems to exist in Noneton concerning it. The news first meased Moneton between ten and eleven o'clock on Friday morning, but it came in the form of an announcement that a fir had occured at Meadow Brook during the night, and one or two of the occupants of the supposed to have been and form first rumors began to circulate, and thei-sparent authasticity sent newspaper re-porters, and entizens fligg to the scener orying their wares with the structive but "all shout the murder" attached; but still the ditizenshowed itte existence to its a fact, however, that Sallivan man of the annue of Charles Collum met has not been at all satisfactorily explained. Triday morning, and was moved by his sp-ther was one of the scener of the supposed to the ways of newsboys Nere orying their wares with the structive but "all about the murder" attached; but still the ditizenshowed little existence to annue of Charles Collum met has not been at all satisfactorily explained. Triday morning, and was moved by his sp-terierred to would proce, on being structure the in on lower Main street at fire o'clock on Friday morning, and was moved by his sp-

has not been at all satisfactorily explained. A man of the name of Charles Colburn met him on lower Main street at five o'clock on Friday morning, and was moved by his ap-pearance to remark to Sullivan on his "seedy" appearance which the latter ex-plained by stating that he had been on the wharves with the girls, presumably all night. He appears to have had so much money, and been so very free about spending it, treating even people with whom he was un-acquainted, that a friend of his had inquired where he was working now and Sullivan replying that he was not working anywhere now, the friend remark-ed that he was lacky to have so much money, for a man who was not at work. acquainted, that a triend of his had inquired where he was working now and Sullivan replying that he was not working anywhere now, the friend remark-ed that he was lucky to have so much money, for a man who was not at work. In paying for his various treats he gave the bar tender at Legere's a quantity of small eilver, amongst which the man noticed two pieces of American silver, and curiously enough William Dutcher, son of the muddred woman states that his mother had in her possession two pieces of Ameri-can silver which ahe received in change some time ago.

and the grift was pinced under arrest and spent the night in the station. In court next morning she was called forward and tearfully told that she had taken the watch. She denied theft of the money and clothing, but when the magis-trate asked if the watch had been found, are the watch and been found, that while Sullivan's lather stated on the witness stand that he heard his son come in before daylight on Friday morning, and that he saw him the same morning down town between seven and eight o'clock and stated that he was at home tor two days when W. D. Martin sent home a parcel for John Sullivan, this father was unwilling to take it during the state shad the time-piece; Hamilton was present and being puestioned, said "the knew the lady by son was not at home, having gone down to be or take it, telling the messenger that his son was not at home, having gone down to Memrancook and Dorchester on Thursday and not yet returned. The elder Sullivan son had asked "the little girl" for money before leaving home on Saturday, and that had given her the day before, and ancher one with it. This scarcely the watch from one of whom he t agrees with the accounts of other wit-nesses regarding the affluent circumstances which John Sullivan seemed to be in, the day before; though of course it is possible he may have succeded in spending all his money. These may be mere coincidences and easily explained, but they are some of the circumstances which have directed the circumstances which have direct

comstances which may of course be easily explained, but which at the present moment lock very arkward. In the first place, all inquiries concerning him, and his mode of life tend to prove that he belonged to the genus usually classified as "tongh" There is no doubt that he was in Mrs. Dutcher's Database of the temporers. Mr.

PROGRESS.

ST. JOHN, N. B., SATURDAY, SEPTEMBER 19. 1896.

THAT HORFON LADDER MATTER.

To THE EDITOR OF "PROGRESS."-Sir,

To THE EDITOR OF "PROGRESS."-Sir, A short time ago the Directors of the Hor-ton Fire Ladder Company L'd., Patentees and Manufacturers of the Horton Aerial Extension Fire Ladder, were surprised to see in your columns anonymous letters from this city attacking the ladder. At first, we were inclined to take no notice of such an attack, but since then, it has been decided, that in the interests of our share-hold-ers we should show that malicious intent inspired the letter referred to. We feel that in admitting such an acticle to your

has pired the jetter referred to. We feel that in admitting such an article to your columns, you were, doubtless unwittingly, aiding an attack on a legitimate business enterprise in this city, in which a number of your readers have invested their money in good faith, and you will willingly gran us a space in which to refute the at'ack.

Briefly, in August 1894, we sent a large working model of the ladder to a meeting of the National Association of Fire Eo-gineers held at Montreal. At this meeting, a Committee, composed of Chiefs Sweeney of Chicago, Bonner of New York, and one of Chicago, Bonner of New York, and one or two others equally eminent in their pro-fession, was appointed to inspect the artic-les represented, and their report which may be found on page 209 of their pro-ceedings, is as follows :--- "Horton Aerial Extension Ladder; consider same to be the simplest and most effective, today in use. costing loss and heats fession, was appointed to inspect the artic-les represented, and their report which may be found on page 209 of their pro-caedings, is as follows:---''Horton Aerial Extension Ladder; consider same to be the simplest and most effective, today in use; costing less, and having more ad-vantages than any other!'' We are also indebted to First Assistant Fire Chief Regan of the Boston Fire Department for some particulars regarding their ladder; the matter will compare the weights, dimensions, and number of men

some particulars regarding their ladders; and if you, or any of your readers who are interseted in the matter will compare the weights, dimensions, and number of men required to operate their ladders, as com-pared with ours, we have no doubt as to the verdict at which every fair minded reader will arrive at. The advices given under date of August 6:b, 1896 are as follows:- "The Boston Department has five Aeral Extension Ladders,--two.Hayes, two Babcock, and one Preston. The Hayes ladders weigh 9,500 lbs, the Babcock 10,000, and the Preston 11,975. The number of men re quired to operate any of the ladders, is eight. The length of the ladders, when housed, from nose to tip is 45 feet, and from end of pole to tip of ladder 60 feet. The distance between the hubs of the front and rear wheels is 25 feet. We use three horse teams for all of our ladders is 26 feet. We use three horse teams for all of our ladder now offered to the City weighs about 7,600 lbs. offered to the City weighs about 7,600 lbs. It requires 4 men to operate it; and with this number it has been raised, after being limbered up ready to go to a fire, in less time than any of the American records on their ladders, with ten men operating in order to make a record. The distance from hub to hub of our lad-der is 16 feet. This renders it much easier to keep up speed while turning cor-

the onlive affair. Instead of being tenderly nursed and eared for, she was left to the wall meaning, but not very intelligent eare of her relatives who allowed every curies and dearily explained, but they are some of and easily explained, but they are some of and deartify explained, but they are some of and they were doubled and in order to allow the started either for Dorobester or Shel-outied an arites chamber six feet by eight unsees experise of the gift and they are some of an exit of a some of any arite and on the side of the main the some of any attill further contume for to allow any which ease at one time, and latterly spent very little time in New Brunswick. All this is very much improved since

### PRICE FIVE CENT

One of the best shows incidental to the big fair is that of Mr. John MacKay who will have a first class variety company perwill have a first class variety company per-formance in a tept on the corner above the building. Mr. MacKay's record as a popular amusement caterar is such that his entertainment will be a success. From every point of view the exhibition promises to be the most successful ever held in St. John

SURPRISE AT THE FAIR. Mr. Bymal of Dundas Wins the Plano in the Toronto Exhibition.

Mr. W. K. Rymal, Dundas, Ont., is the happy possessor of the beautiful Heintzm in Pinno presented to him by the Surprise Soap Co.. as the successful guesser in the Surprise Soap guessing contest at the Tor-onto Fair. Mr. Rymal came within 1/4 of received, as some members of the society thought the expense in connection with the fair was so large that to hold another so soon after the first wou'd be risky from a financial standonint. All the fair was so large to be weight of the solution of the

to by Mayor Fleming of Toronto. A committee visited the buildings and dition of two coats of paint outside being all that was neccessary in the way of pre-paration, for another fair, thus miking the expense a great deal lighter than was at for entiring of the second s not guess correctly themselves. Surprise Soap received a good deal of attention, With this additional help the association felt that another exhibition was within the range of possibility and would probably be successful so committees were at once formed and the work of preparation pro-ceeded with. The exhibition buildings and agricultural hall received two new coars of sult of their striking advertisment.

Every one who attends the St. John exhibition will have a chance to guess at the big cake of Surpriss Soap on exhibition there. The same kind of piano, an \$800 Heintzman will be given to the correct or Heintzman will be given to the correct or mearost guesser at the exhibition. It is not the same cake as the Toronto cake but it is at different size entirely. Look for the Surprise Soap exhibit, the Heintzman Piano-and the big cake. Guess once free of charge each day. Mayor Robertson of St. John, with two prominent merchants-will act as jadges, so that everything will be conducted in the fairest way, visit the St. Joho exhibition, and guess on the big cake of Surprise Soap.

ST. JOHN IS HONORED By The Presence of so Many Bright and Clever Women.

Never before in its history has this city contained so many women of a national re-putation, women who have made themselves known in art, literature, science, and will on entering the main building notice many changes in the arrangement of the exhibits and which in the majority of cases will be found to have materially im-proved their general appearance. All the exhibits in the large buildings on the main floor have been placed nearer to the sides of the building leaving siales through the centre, space which was last year occupied. All the passages between the exhibits lead to one or other of the entrances which is a great improvement on the mazy and cir-cutous paths which were so noticeable last year and which proved a source of great inconvenience to many visitors. other fields of advancement, as at present. In addition to the improved arrange-ment of the general exhibits the individual from the cares of her position to show that noble, sweeter virtue, charity to the poor and oppressed. St John extended a warm welcome to the distinguished visitors; and displays have been more tastefully artheir coming here will do us good, will ex-tend our charities, stimulate our minds and that they were doubtful of the success of the exhibition have this year sent in appli-cation for large space and will place at-tractive exhibits of their various lines on of fraternal union, that will reach to higher bounds and loftier heights than would be possible under the sterner rule of man.

#### A Mark Down Sale

Fall bargain sale of wall paper, great reductions to make room for fancy goods now avriving D. McArthur Bookseller 90 King St. has marked down his stock of

Formal Insugaration of the Exhibition Under the Auspices of Premier Mitchell Will Take Flice on Tuesday Next-Some of the Exhibits. Heretofore exhibitions have been hald in St. John of the termination of the Statement of the Sta for that was his name, was able to fool a half dozen o her business men out of the price of several good orders, but this tailor he found too smart for him. Herefolore exhibitions have been hild in St. John at intervals of several years but after the success of the one held last year several enterprising merchants thought that an annual fair would be advantageous to all concerned. Accordingly a meeting of the executive committee of the exhibition association was held, at which it was deci-ed with the concession and aid of the An Explanatory Letter From the Fire Lad-der Company. association was held, at which it was decit-ed, with the cooperation and aid of the citizens, to hold another exhibition this year. At first the discussion was not favorably received, as some members of the society

first anticipated. With this additional help the association range of possibility and would probably be successful so committees were at once formed and the work of preparation pro-ceeded with. The exbibition buildings and agricultural hall received two new coats of paint which, by the way, greatly improved their preserves and soon asyrchismic was in

charge but, rightly, at the same time wanted the watch put in repair. In open court no turther mention of the money and clothing was made. The parties most in-terested had a little private talk and then a settlement was reached. The girl was Another strange faiture of his movements on Thursday night, is the fact that while he stated positively that he came to Moneton on Thursday night's freight train, the conductor of that train states just as positively that no one got on his train at Memram-cook, Calbouns, or Pansec, and that he

let go with a reprimand. She is still about the city, and it is to be hoped the experience she has undergone will prove a warning to her, and to others.

She was, perhaps fortunate, in having a kind-hearted man to deal with, but all wrongdoers will not find a Mr. Campbell to be lenient with them.

#### They Wast to be Paid.

They wast to be Faid. HALIFAX, Sept. 17.—An interesting suit will be tried in the city civil court next Wednesday on a suit instituted by Coll-well Brothers against a physician whose office is nearly opposite their establishment. The plaintiffs are a firm of enterprising The planting arrishers, who do not believe is supplying more goods than is necessary unless they are paid for.

He Paid for the Olo

HALIFAX, September 17.—Robert Stan-ford promptly dealt with the supercillious American visitor who ordered \$116 worth

made at the Post office by the department, and has stated that operating a hose from the extreme top of the ladder while supported by nothing but its own truck was as easy and as safe as if one were standing on the ground Thanking you for your space we remain,

Yours truly,

THE HORTON FIRE LADDER Co., LTD. Per. John Peters for the directors. activity as usual and from all over Canada there will come exhibits for this department. HALIFAX, Sept. 1896.

Who Was the Alderman?

HALIFAX, Sept. 17 .- The little para-HALIPAX, Sept. 17.—Ine little para-graph about the temperance alderman who had ordered intoxicating liquors from an adjoining brewery for his ward elsection in 1891 and did not pay for it till the other day, and then under pressure, aroused con-siderable speculation. The question was when the alderman Ma liphlar ac asked was the alderman Mr. Hubley, or Mr. Creighton, or Mr. Mosher, or was it Mr. Edward O'Donnsll. Let the alderman who has "done this thing" speak out that other city fathers be not blamed for his inconsistent conduct. Is it you man O'Donnell, or is it not you? his inc

- Late Communications. Society letters from several play Nova Scotia too late for publication.

to the agricultural exhibits which have been placed in charged of S. L. Peters of Gago-town N. B. The amusement hall is also found in this department and as a tirst class Vaudeville company has been engag-ed it will doubtless be largely patronised.

The Art department promises to be un-

usually interesting this year and far ahead of any previous exhibit. In fact this might be applied to the fair in general for if elaborate and painetaking care is in any way a guarantee of what the exhibition will be like these who netwoirs it means containt

be like, those who patronize it may certainly expect an event far above the average provincial exhibition.

Agricultural hall always attracts thou

sands of visitors especially when the exhib-its it contains are attractively arranged.

This year special attention has been paid to the agricultural exhibits which have been

temple which contains the exhibit of the St. Croix Soap company arranged in a thorough-ly effective manner. Very near this is the display of Geo. S. DeForest and, as last rolls. The reductions average from 30 to 100 per cent on regular selling price. Five cent paper for, 3½ cents per roll twenty cent gilt papers selling at ten cents for one month only. All other lines in year, Union Blend tes will be dispensed to visitors by pretty maidens. Manchester, proportion thus assuring to his customers great bargains. This is a rare opportunity Robertson & Allison will as usual make a magnificent display as will most of the other of getling wall paper at less than auction prices. Call and inspect the stock it will pay you. Show rooms second flat. large houses in the city. Machinery hall will be a scene of great

John MacKay to the Front.

Mr. John MacKay is making great preparations for his Orential Teashow near the exhibition grounds, to be opened with the exhibition. The tent will have a large the exhibition. The tent will have a large seating capacity and will be well fitted up with floor and stage. Mr. MacKay has been arranging his last of performers for the past two months, and is confident of placing before the public the best variety show that has ever been seen in St. John.

They all Resented it.

The intimation of a move on the part of the government to subsidize a foreign port, oreated indignation among both liberals and conservatives in the lower province oal interests may vary according but when the good of the country, ened one touch of patriotic sentime th > whole dominion bin
