HARTLAND
Hartland, Nov. 9.—Miss Emma Henderson of Woodstock, is the guest of her sister, Mrs. S. S. Miller. Mrs. Anna Jensen was called to Bridgewater at the first of the week on account of the illness from pneumonia of her daughter, Mrs. George Packard, nee Miss Edna Jensen. Mrs. Packard at the time of writing is reported as being somewhat improved.

Principal C. D. Dickson having made a satisfactory recovery from a rather severe attack of influenza, left on Friday evening for his home at Hampton, to remain until the reopening of the school. Mrs. J. H. Gillin was called to Lunenburg on Friday morning by the serious illness of her mother, Mrs. S. J. Prince of that town. Miss Luella Pearson came down from Perth on Friday evening to attend the funeral today of her niece, Miss Eva Cook.

Arthur W. Kyle is on a business trip to Boston.

TELLS DYSPEPTICS WHAT TO EAT
Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas On Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. This acid stomach, which is exceedingly dangerous and suffers should do either one of two things. Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with the effect of the stomach and lead to excess acid formation or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bismarck Magnesia at their meals.

There is probably no better, safer or more reliable stomach antidote than Bismarck Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a detergent. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthily without need of pepin pills or artificial digestants.

Get a few ounces of Bismarck Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate and in the Bismarck form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

SEAMAN DESERT.
Daniel Lewis, who appeared in the police court last week, charged with desertion from the schooner Margaret Dick, has again made his getaway from the ship, together with another seaman.

T. W. CROTHERS AND LABOR

Dominion Minister of Labor Points to Satisfactory Position of Canada in Labor Disputes — The Lemieux Act.

(The Christian Science Monitor.) In the course of a statement made by the Hon. T. W. Crothers, Minister of Labor for the Dominion of Canada during his visit to Canada, the subject spoke as follows: "I am invited," he said "by the Canadian Bureau of the Christian Science Monitor to say a word on the labor situation in Canada at the present time. The subject is intricate and difficult and one which is deeply involved with other or more at the present time, but a glance below the surface would, I think, show that, if we have more trouble of this kind than we have had in the past, it is because we cannot escape some measure of the evils arising from the world war which has been forced upon us. It is not, however, a mistake to exaggerate the gravity of the evils of which we have had to suffer. I cannot repeat too often that we have been in Canada, by comparison with other countries, remarkably fortunate. During the first two years of the war Canada was remarkably free from industrial trouble. Perhaps Australia and the United States are the countries in which we might naturally expect to find industrial conditions approximating those in Canada, and it is only by comparison that we see the evils which have been visited upon the Dominion. During those two years the country of New South Wales alone, a state with less than one-tenth of the population of Canada, had many times the losses of Canada from industrial disputes, estimating these losses in working days, and the situation in that country was less favorable for Canada in 1917, but again, turning to Australia as a whole, we find our good fortune. The official figures of the Dominion show that during that year numbered 143 and concerned 48,000 employees, with strike losses in working days of 1,000,000, with time losses of over 4,000,000 working days. The United States has issued no official figures for the public as a whole during the last year or two, but official figures for the years 1915 and 1916 showed that, whereas the strikes in Canada for those two years totalled 118, those reported for the United States in 1915 and 1916 numbered 858, or about 50 times the Canadian figures. Critics of our conditions and methods in these matters have not realized our good fortune.

"As to methods, we have in Canada an excellent law in what is commonly known as the Lemieux Act, a piece of legislation founded on principles which I have never ceased to uphold and which, while there have been some necessary improvements suggested by experience, remains one of the most effective pieces of legislation as to industrial disputes. At the present time, working conditions in the Dominion are, in my opinion, the best in the world. There are boards of conciliation which at different points in the country are dealing effectively with industrial disputes. "Industries embraced in the inquiry before these tribunals include street railway employees at Winnipeg, steel workers at Sault Ste. Marie, and telephone operators at Ottawa. Sometimes for entirely just reasons it becomes impossible to apply the machinery of the Industrial Disputes Investigation Act and a Royal Commission of Inquiry is appointed. Two such commissions are now at work, one on the Pacific Coast dealing with a difficult situation as between ship owners and ship masters and another, which has practically completed its work, has dealt with conditions in shipbuilding plants in the Province of Quebec. My last word in this respect is that working agreements, good for the length of the war, have been concluded in the case of the most important firms, with a view to the settlement of the same results in most other cases.

"As to other aspects of the labor situation, I can only say that wages are high as compared with the past, though the high cost of living perhaps prevents the position of the workman having materially improved in this respect; but an all-around improvement in our general welfare is hardly to be expected in war time. Unemployment has practically disappeared and in this respect at least many classes of workmen who in the past have suffered much from casual employment have benefited. "As to the future," said Mr. Crothers in conclusion, "it is dangerous to attempt any forecast in detail, but speaking broadly, one may think that the war ends a wave of optimism such as history has never seen will sweep over the world, bringing with it a larger measure of confidence, good will and credit than we have ever known. Canada, with its hundreds of thousands of soldiers back from the front and restored to work in the home and office, factory and field, may look forward with confidence to long years of industrial progress and prosperity."

NEWCASTLE
Newcastle, Nov. 8.—In spite of the doubts cast upon Thursday night's report of the armistice having been signed, Newcastle and Chatham, having proposed to celebrate yesterday, and carried on a magnificent automobile parade yesterday afternoon in which from fifty to seventy-five autos, gaily bedecked, took part. Newcastle's carriage, headed by His Worship the Mayor and Town Council, in autos owned by His Worship and Aldermen Ritchie and Sargeant, proceeded

SURPRISE A PURE HARD SOAP

ed across the Morrissey Bridge to Chatham Head, where they waited for the Chatham forces, headed by Mayor Snowball and his council preceded by the Chatham Band in a large van attached to an auto. Several Chatham cars were filled with Great War Veterans. The Newcastle procession turned on meeting the Chatham men and escorted the latter back into and through Newcastle. The autos then lined up around the square, while Chatham Band gave choice selections from its extensive repertoire. Late in the afternoon the visitors returned home, after a very pleasant fraternization of the two towns.

Autos were in such demand that the garages were soon emptied and many unable to obtain a place in the procession. The public meeting planned for the evening was postponed till the official confirmation of peace. When peace with Germany finally comes, the two towns will celebrate on a still larger scale. E. J. Arno, town and country secretary of the Maritime Provinces of the National Council of Young Men's Christian Associations, Halifax, was in town yesterday, consulting with local leaders of the Canadian Standard Efficiency Test (the boy's Y. M. C. A. movement) with a view to organizing Northumberland and Kent counties in greater efficiency along these lines. He also visited Chatham yesterday and Campbellton the day before. As very little could be done before the holiday, Mr. Arno will probably revisit the Miramichi soon.

There are good openings for C. S. E. work in Logville, Douglastown, T. work in Logville, Douglastown and other places in this county and in Richibucto, Rexton, Buctouche, McKe's Mills, Bass River, Harcourt, Foss Mills, Grandville, and other places in Kent. A North Shore District Older Boy's Conference, C. S. E. T., will be held in Newcastle in January next, and also an Interdenominational Missionary Institute here the same month.

GIRLS! BEAUTIFY YOUR HAIR AND STOP DANDRUFF
Hair becomes charming, wavy, lustrous and thick in a few moments. Every bit of dandruff disappears and hair stops coming out.

For a few cents you can save your hair. In less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and charming as a young girl's after applying some Danderine. Also try this—moisten a cloth with a little Danderine, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for prettier, soft hair, and lots of it, surely get a small bottle of Knowlton's Danderine from any drug store or department counter and just try it.

EARLY CLOSING OF RAILWAY FREIGHT SHEDS.
Order of Railway War Board, Not to be Effective until Jan. 1, 1919.

The Canadian Railway War Board has extended the time for their report on the early closing of railway freight sheds until January 1st, 1919, and the public is therefore advised that on the Canadian Government's part, the regulations at present governing the opening and closing of freight sheds will continue in force until that date.

It is always safe to send a Dominion Express Money Order. Five dollars costs three cents.
