

Mothers should read the following particulars about

FREEMAN'S

ANTHELMINTIC WORM POWDERS!

The Great Worm Killer that should be used in preference to any other Worm Medicine!

Worms are the bane of a child's existence, and the prolific source of the numerous diseases which imperil the lives of children. Their presence in the intestinal canal is the source of great irritation, which, operating on the delicate nervous organization of the child, so keenly alive to every morbid impression, gives rise at times to the most violent disturbances of the nervous system, such as fits, convulsions, epilepsy, and St. Vitus' dance. This being the case, it behooves the prudent mother to watch with jealous care the earliest symptoms indicating the presence of worms, and, by the use of an efficacious remedy, dislodge them before the health of the child is seriously impaired or its life endangered. For this purpose, there is no more pleasant and certain preparation than **FREEMAN'S**

ANTHELMINTIC

WORM POWDERS. Being perfectly harmless in their effects upon the system, the mother should not fail to use them when there is the least suspicion of worms, and should worms not exist, the Worm Powders will be found harmless to the most delicate constitution, and one advantage at least gained—the knowledge that the disorder proceeds from some other source than the presence of worms. This valuable remedy is purely vegetable in its composition, and entirely free from poisonous and injurious ingredients. Being presented in a palatable form, it can be administered to young children without any inconvenience. The active principles of the most powerful anthelmintics known to the "materia medica" are so combined as to furnish a certain specific against worms, and yet to be entirely free from that disagreeable taste which is inseparable from medicines in their crude and bulky state. It has been before the public for many years, and during that time we have received assurances, not only from scientific physicians, but from others in all parts of the country, that no

WORM

Medicines ever used have given so much satisfaction or have been so uniformly successful as **FREEMAN'S ANTHELMINTIC WORM**

POWDERS.

Why some people are poor.

Coffee, tea, pepper and spices are left to stand open, and lose their strength.

Potatoes in the cellar grow, and the sprouts are not removed until the potatoes become worthless.

Nice-handled knives are thrown into hot water.

The flour is sifted in a wasteful manner, and the bread pan is left with the dough sticking to it.

Clothes are left on the line to whip to pieces in the wind.

Tubs and barrels are left in the sun to dry, and fall apart.

Rags, string and paper are thrown into the fire.

Pork spoils for want of salt, and beef because the brine wants scalding.

Scalloped Tomatoes.

Peel and cut in slices one-fourth of an inch thick; pack in a pudding-dish, in alternate layers, with a forcemeat made of bread crumbs, butter, salt, pepper, and a little white sugar, spread thickly on each layer of tomatoes, and when the dish is nearly full, put tomatoes uppermost, a good bit of butter on each slice. Dust with pepper and a little sugar. Strew with dry bread crumbs, and bake covered half an hour. Remove the lid then and bake brown.

By industry, honesty, economy, and perseverance, one can make progress even in a stationary business.

National Pills cleanse the stomach and invigorate the body.
